Finding What's Real Emma Harrison

Cecelia Montgomery returns after running away to deal with the downside of her newfound fame—and her mother's Presidential campaign—in the sequel to *Escaping Perfect*.

Now that Cecilia Montgomery has been found after two weeks on the run, she's stuck in the middle of a media firestorm. When Cecilia threatens to leave again, her mom drops the bomb. She plans to run for President. She's going to announce in a few days. And if she bails again, well, they do still have Jasper in custody on bogus "kidnapping" charges...

Suddenly Cecilia is trapped yet again, forced into a public persona she had no part in creating. But her friends from Sweetbriar still have her back and help smuggle Cecilia back into town. Just when Cecilia thinks she's finally escaped, her mother arrives and officially announces she is running for President—and she plans to stay in Sweetbriar for the duration of her candidacy.

Meanwhile, Fiona becomes a bit obsessed with the fame she achieves from being Cecilia Montgomery's best friend, and even Jasper gets caught up in the benefits of dating her. Soon Cecilia starts to wonder if they want to hang out with her, or if they want to *benefit* from hanging out with her. All she wanted was a small, anonymous life, but now things seem to be spiraling out of control.

Can Cecelia ever find her perfect ending, or will her escape prove to be more of a trap than she ever thought possible?

Just...beautiful. Up until today, I didn't know there was a sequel to Escaping Perfect, which I read about 1-2 years ago, and the general lust and addiction of this book may or may not put you in a reading slump for... oh, who knows how long! What I'm trying to say is, Emma Harrison, I salute you for not only Escaping Perfect, but for this beauty of a continuation in Cecilia's Journey in Finding What's Real. Definitely 10/10!

So the story is cute and it's an easy read. There was a lot of drama and it got annoying and the character growth was cliché. I'm annoyed at what they turned Cecelia's mother into.

This is the sweet story ending I was looking for ... wish I had this when I finished the first book a few weeks ago. Love the story and lessons that are portrayed. As we start the new year I will take "You can't be brave if you are not scared" and hope to push my limits and securities a little this year!! :)

So so good! I absolutely loved this series. I couldn't put it down! Lia and Jasper's story was definitely not your typical YA love story because it was so much better than most YA love stories! It really shows the truth behind teen relationships and the struggle when pressure is put onto them. Lia's mother is absolutely evil and shocked me every time she spoke. Harrison's writing is so detailed and well written. This is definitely a must read!

Cecilia Montgomery two weeks of freedom is up after finally being found after running away. Although her friends manage to sneak her back into Sweetbriar, she can't hide from her mother forever. Then her mother drops a huge announcement, that she is going to be running for president and decides to place her headquarters in no other town than Sweetbriar, the one place Cecilia thought she could be free from her mother. On top of that her friends are starting to warm up to her mom and leaving Cecilia upset with her friends.

This is the second book in this series and I'm so glad that the author made a second since the first ending in a huge cliff hanger, making you want more and this book definitely give you that. In this book you get to see all the repercussions of what happens to Cecilia after she runs away from her family.

Cecelia is back from her "adventure" in Escaping Perfect. Her mother has not changed one bit, and Cecelia is longing for her small town life (& the boy she left behind). So she goes back, but her mother and her mother's campaign for President follows her and as Jasper's music career takes off, Cecelia finds herself in the middle of paparazzi hell. And it's impacting everyone in the town.

It was fun to revisit the Montgomery family and see what happened to Cecelia after her first escape, but this one was a bit tedious. Perhaps I was just sick of Cecelia's rebellion and her mother's self-centeredness and her father's ineffectual/detached attitude. I'm glad I read it, and thanks to the publisher for providing an advanced copy, but I wasn't as enamored with this one as the first. Certainly worth reading, just not awesome and I wanted awesome.
