B&B

Amy Cross

B&B Amy Cross

A girl on the run, hiding from a terrible crime. An old B&B in a snowy city. A hidden figure lurking in the streets, waiting for his next victim. When Bobbie takes a room at the rundown Castle Crown B&B, all she wants is to get some sleep and make a tough decision about her future. Unfortunately, the B&B's other guests won't give her any peace, and Bobbie soon realizes that she's stumbled into a world with its own rules. Who is the mysterious bandaged woman? Why is there a dead man in the bathtub? And is something deadly lurking in the basement? Before she can leave, however, Bobbie learns that the city of Canterbury is being terrorized by a mysterious figure. Every time snow comes, the Snowman claims another victim, leaving their blood sinking into the ice. If Bobbie leaves the B&B and ventures out into the empty streets, she risks becoming his next target. But if she stays, her soul might be claimed by something even more deadly. B&B is a horror story about a girl with a secret, and a building with a past.

Eliza says

This wasn't my favorite read from Amy Cross but I did enjoy the mystery.

Bobbie, left out in the cold, literally, and on the run, after her crime, she seeks a warm place to lay her head down, rest and figures out what to do and where to go next. The thing is, the B&B she found by chance, had the last room available in town and some unsavory characters residing inside. Not only that, there's a killer on the loose who hunts during Snowfall.

The characters and plot were well thought out but the repetitive scenes make it hard to not skip through some sections. I'm always afraid I'll miss something when skipping, but with this book, I don't feel like I've missed anything big.

Amy Cross has a way of twisting your mind with supernatural beings and horrific crimes and this book definitely was not lacking in this department. I would have really enjoyed it had it not been for the constant loop the main character was stuck in.

Hollie says

This was my first time to read this writers work and I was impressed. The writing style was brilliant. The story was short but fascinating. Definitely one of a kind. It had a touch of horror but had more of a thriller feel to it then anything. The horror aspects weren't overly graphic and disturbing or anything. I will definitely be checking out more of this writers work.

Donna says

Cover/Title: The cover doesn't do this book justice. However, I feel that it would be hard to come up with the perfect cover for this book. It is intense. Same goes for the title. Yes, it does center all around the B&B but it is so much more.

Characters: I love the people in the B&B. They are all so strange! LOL

Plot: Bobbie takes a room in a B&B but the house and its occupants are as strange as can be. She finds herself stuck and trying to find a way out.

Overall: There is something so creepy about this book but at the same time I loved it. Anyone who has read my reviews knows that I rarely enjoy a book from this genre so much. However, I was hooked. I couldn't put the book down until it was finished. I must say that I would definitely read another book by this author. That is high praise coming from me about a genre I only read sparingly.

Erin Truxell says

Of course it was written by Amy Cross

This one is a bit weirder than the others I have read by her. Like all of her books there is that one moment, a twist of a sentence, and you never see what hits you. There is always a catch in the story line. While this is not as scary as some of her books it makes you think. Here is to you Miss Cross as I choose the next one of your books to devour.

Kevin says

Excellent spooky novella. A great little tale that plays with time quite a bit. Elements of it reminded me of Iain Rob Wright's Sea Sick and some of John R Little books. Another winner for Amy.

Jamie ?? submits to books ?? says

**** 4 "Groundhogs Day" Stars ****

This was a paranormal groundhogs day horror special.
I have no idea how to sum this one up. Some will love, . some will like, some will be lost and I was all 3.

Amy Cross...thank you for always scrambling my brain.

Robert W. Meyerholtz says

A Twilight Zone type chiller.

Yes, a chiller literally both in story and setting. Bobbie is on the lam after committing some type of theft. She arrives in Canterbury on a snowy night with no place to stay. Little does she know the city has a serial killer dubbed The Snowman because the killer only strikes during snow storms. The killer is the first of her troubles as she does find a room at the Castle Crown B & B. A strange place with strange characters that only gets stranger. Amy Cross draws you into a story as the B & B draws in Bobbie. It reminds me of some Twilight Zone type story, both psychological and thrilling.

Nat says

A quick and easy read which, to anyone who knows their horror genre, is very predictable. However, the snowy atmosphere and the characters staying in the b&b make this readable. I do think that the author may have watched the film 'Triangle' one too many times though!

Julie Powell says

An enjoyable, creepy read which centres around a girl on the run desperately needing somewhere to stay on a snowy night...then the fun begins.

I loved the unexpected twist in the story, the way it played out and the cast of spooky characters.

Atmospheric and chilling.

Recommended.

Karrie says

Mind Boggling!

Sometimes the repetitive happenings became a little much, but obviously it was necessary to a large extent. Other than that, it was a thriller that kept you wondering what the hell? I am still a bit confused about the ending, but I think it's part of the time warp theory. Not my favorite story by Cross, but not the worst either.

Angel Gelique says

4.5 stars, rounded up.

"One night, that's all."

Roberta "Bobbie" Simmons is a young woman on the run. On a snowy evening, she happens upon the Castle Crown Bed and Breakfast. Exhausted and out of options, she reluctantly decides to spend the night. It isn't long before strange things begin happening all around her. To make matters worse, there's talk of a serial killer on the loose--the "Snowman," who kills his victims every time it snows. Bobbie just has to spend a single night at the B&B. But will it be her last?

I'll admit, I experienced some confusion during certain parts of the story, but it wasn't a bad thing--it only added to the suspense. Everything comes together towards the end. I thought it was going to be pretty predicatable, but my assumptions were off the mark. This was a very well-written, unique, immersing story.

Now on to the next Amy Cross book!

John Morris says

Groundhog Day meets the Twilight Zone

Although this book seems to be laboured at times it's worth sticking it out until the end. Amy Cross is such a good author she draws you into her stories and won't let you go until you reach the final page. Perhaps this was not her best work but it was still bloody good.

Tammy says

My first time reading Amy Cross, and may or may not read more of her work.

Bobbie is running out of options. She's on the run and needs somewhere to spend the night, but the time is late and snow is falling. All the B&Bs are full. All but one... When she sets foot on the front steps, she's sucked into something she never bargained for.

Some of the characters verge on the absurd and for a while I wasn't sure if there was a plot or this was a running commentary of the creepy wackos in the inn and their efforts to prevent Bobbie from getting the sleep she desperately needs, but I'm glad I stuck with it. The main gimmick becomes clear around a third of the way in and after that you can play connect-the-dots as well as guess what would happen in the rest of the story. I enjoy stories where innocuous background objects play a larger role later on, and there was a good amount of that here. The ridiculousness of the characters even becomes humorous once you find out how they got there, especially the landlady with the bandaged face.

I might not have picked this up if not for the fact this was a novella. If it was a full-length novel it would have been a chore to get through, but as a novella it's short enough that even if you didn't like it you can console yourself it was only half a novel.

Chad says

This is probably my favorite Amy Cross book to date. It's executed on a level I can't even begin to contemplate. There is no way I could ever be as organized and disciplined as this book would require. A crazy paranormally driven premise becomes actually easy to follow along with when handled by a skilled author. Check this one out.

Toni Vincett says

Sadly it started off well for me and then got half way through and it kinda lost it for me. Not the best one I have read of Amy cross sadly.
