Sentinel: Age of Expansion Natalie Grey , Michael Anderle

Someone sent three fully armed ships to High Tortuga to back the slave-owners running the mines, and Barnabas and Shinigami are determined to find out who.

And take them down.

As they look deeper, however, they'll find traces of an organization that controls whole mercenary syndicates, industries, and even governments: the Yennai Corporation.

They have plans for this sector of space, and they are not about to let humans interfere.

So they're going to kill Barnabas, and they're going to make an example of the mine workers he freed.

After all, who's going to stop them? Barnabas is one human in one ship. They're sure they can take him out.

...Some people never learn.

NOTE: This book contains cursing. Perhaps humorous cursing, but cursing nevertheless. If this offends you, I don't suggest reading this book.

I am in awe

Thank you for this universe I am shocked and little embarrassed that other series universes such as Star Trek or Star Wars haven't done this. I know other writers have written different books in a universe but the way the Kurtherian universe is so intertwined is amazing and each author throws their own spin on a character and makes them interesting. Congratulations and a fine work of art.

Paul says

Amazing!

Yes, the plot is tight and the storylines are well crafted, but there is so much more. These are characters that we know and love and we watch them change and grow. It's as if we are uncles and aunts to them. We are sad when they hurt, we are happy with their joy; but most of all, we feel pride at their growth and accomplishments.

THAT is what has made the KGU the success that it is. And I feel the need to thank ME and all of the authors for allowing us to be surrogate family to BA and the group.

Laura Duval says

Way to go Barnabas!

So solid 5 star rating!

How could anyone not love reading about Barnabas? And let's not forget Shinigami. She rocks for being an AI.

This second installment to The Vigilante series kicked a\$\$\$. The action was rock solid, the main characters are amazingly loveable, and you also get to see some of the other characters from the KG series. All in all, I am anxiously awaiting the next installment. Way to go Natalie and Michael on continuing to create a world where readers love escaping to.

Barnabas

I love this series, Barnabus and Tabitha are some of my favorites from the Kurtherian universe. The style of writing that Natalie Grey and Michael Anderle use is my favorite. They write seamlessly together and I don't feel like I am watching a tennis match. Sometimes in some of the other series this is the case. Thank you for the wonderful stories you are creating for us.

Lois Alston says

Loved, loved it

So much happening in this story. Bananas and Shinigami o coed mucho butt all over space. Love that Tabitha is in this one. Lots and lots of adventure and excitement fighting injustice.

Sam Katz says

Wow! I love these books!!

Natalie Grey & Michael Anderle really know how to tell a story!! The characters are not only well developed, but are often laugh out loud funny, even in the worst situations! If you're a Kurtherian Universe fan, you'll love the continuation of Barnabas & Shinigami's adventures! If you're new, this book stands well alone, but you may want to grab book one, as well!

Protect

Barnabas is trying to evolve from Ranger One into a new roll. Perhaps Vigilante One. I like the appearance of one of my favorite characters, Tabatha. I like the action, snarky humor, and strategy. I look forward to the next book.

Diane Smith says

Barnabas, Shinagami and Tabitha oh my!

Super follow up to Vigilante 1, kicking butts and taking names! Seems like the bad guys never learn... Shinagami has a bigger role in this one and is growing up. And Gar is too!

John Derek says

Can't wait for the next

Great book. The characters stories and interactions are still top notch. The writing in all of the stories I have read (and I haven't read them all) make you care about the characters. It's what keeps me coming back for more. Oh and I love the humor in the KGU.

Veronica says

Explosive!

I was sad when the Rangers were disbanded, and so very excited to see Barnabas come back as a Vigilante! Sentinel is as good as all the other books in the Kurtherian Universe and now I can't wait for #3 to be published!

A Maze Ing

Loved this new vigilante novel and I can't wait for more.
Funny, heartwarming, action packed and thoughtful .
Please, petty please with sugar on top. Don't make me wait to long for the next installment.?

Debi Saterren says

Sentinel

Book 1 of the Vigilante Chronicles set a high bar. Up and over that bar with Book 2. Barnabas, Shinigami, And Gar are a great combination. Throw in the bad mercenaries AND Tabitha with the Tonto's and there you have the mix for a kickass story. Next book please.

Darla Phillips says

Enjoy Barnabus as much as Bethanyanne stories .

Great characters and good feelings after reading it. I do want to hear more of his story though.
Awaiting the next chapter eagerly !

Sandy Chapman says

One of the best in the KGU's many series!

Almost non-stop action that will have you on the edge of your seat, then falling off your seat laughing at the crazy antics of an unpredictable AI, Shinigami, who has a personality that is heavily influenced by Tabatha and Bethany Ann. When you mix this unpredictable AI with the dry, unexpected humor of a former monk the results can go anywhere! Matched with the action and adventure these two get into, along with the additional new crew member, Gar, the story is further enriched. Natalie Grey, once again, has taken the characters developed separately by Micheal Anderle, and enriched their characters further and in ways that

were unexpected. I have read most of Ms Grey's books and this one was my favorite! And this series is up there at the top of all the KGU series, in my opinion! (And I've read them all). Highly recommend this book!

Chung Low says

Deruke

You'll be glad to get a peak into this quiet 'monk'. Barnabas is his name. However it'd behoove you to task your questions to Shinigami, his AI ship. Whether she answers you depends. Don't bother Gar as he has more exhausting twraining.
