The Captain's Table Omnibus L.A. Graf

There's a space/time/dimension-spanning bar called The Captain's Table where the first round of drinks is always paid for with a story. Those who have held command over vessels of every shape and era can meet there and relax. This omnibus edition contains all six volumes of the series.

Angela says

This is a huge read, consisting of 6 full length novels. The idea of the Captains table is that there is a magical bar where only Captains can enter, and they must tell tales to pay for their drinks. The first book introduces the bar and has Kirk bringing Sulu. They tell a joint story about pirates and an interesting duel race. I found myself wanting to read the Sulu part more. The second is a Picard story, that has adventure and romance. The 3rd is a Sisko book, the 4th a Janeway, the 5th New Frontier, and the final one, a Pike adventure. It is well worth a read, some books are better than others, but as a whole, a very good read.

Jacques says

Not all 6 created equal...

Book 6 has an intriguing premise but it's not as good as the other stories in this compilation. Fun concept, though, and many of the stories are very enjoyable.

Joy says

This is all 6 Captain's Table books in one volume. I know in the past I've read more of them, I only felt like re-reading one. So, I re-read the *New Frontier* book "Once Burned."

There is a bar called "The Captain's Table." It transcends time and space. Captains from all over the universe come there to mingle and share stories. M'k'n'zy of Calhoun first visits the bar while still working to liberate his planet from the Danteri and is hailed as the youngest captain ever to visit the bar. The second time he visits, it is as the captain of the *Excalibur*. He tells the story of the *Grissom* when he was a first officer and how things went horribly wrong.

Marita says

One of my favorite presents.

Roger says

a compilation of stories, i think the only one i actually read was the Peter David story about Captain Calhoun from the New Frontier series.

this was given to me as a gift, right as i was falling out of the Trek book thing. i don't even know where my collection went to.

suffice it to say, i'm, out of my Trek book phase ... for the most part.

MBybee says

Some really entertaining stories (Picard, Sisko), some flops (Sulu, Kirk, Calhoun). Some *incredibly* bad editing, typos, and formatting here and there (ebook version).

Jose says

By various authors!

Enjoyed the different stories but cant recall details of which were better. Sorry!
