Night Star Alyson Noel

Haven still blames Ever for the death of her boyfriend Roman, no matter how hard Ever's tried to convince her it was an accident. Now she's determined to take Ever down...and destroy Damen and Jude along the way. Her first step is to tear Ever and Damen apart—and she has just the ammunition to do it.

Hidden in one of Ever's past lives is a terrible secret about Damen—a secret that illuminates new facts about her relationship with Jude, but that's so dark and brutal it might be enough to drive her and Damen apart once and for all. As Ever faces her greatest fears about the guy she wants to spend eternity with, she's thrust into a deadly clash with Haven that could destroy them all.

Now it'll take everything she's got—and bring out powers she never knew she had—to face down her most formidable enemy. But in order to win, she must first ask herself: is her own survival worth dooming Haven to an eternity of darkness in the Shadowland? And will learning the truth about Damen's past hold the key to their future?

Give me a minute while I attempt to drum up any enthusiasm for this series...you're probably asking yourself, "why is this girl still reading this series if she thinks they are so pitiful?" Good question. Two things: 1. For better or worse, I'm committed to the (probably) bitter end, and 2. I've actually come to enjoy writing these scathing reviews about Ever. It's like I love to hate her. This reminds me of Jim Carrey's line in Dumb and Dumber, "Hey, I guess they're right. Senior citizens, although slow and dangerous behind the wheel, can still serve a purpose." Great movie, but I'm way off subject.

Ever returns to school for her Senior year only to discover that Haven has used her new immortal powers to make herself the most popular girl in school. And oh yeah, she still blames Ever for Roman's death. Haven's first order of business is to break Damen and Ever apart and her hidden weapon is some heinous secret in Damen's past, involving Ever and Jude. Apparently in one of Ever's lives, she was a slave and Damen bought her from an evil master, thus forcing her to leave her family and Jude (who was her slave boyfriend) behind. Ever's family and Jude (in that life) end up dying in a fire and Damen doesn't tell Ever. Am I so immune to these books that I've lost the ability to react normally? Because this horrible, heinous, worst ever secret doesn't seem that bad to me. What about Damen had a child with another person and that child is Jude or that Damen, himself; set the fire to kill Ever's slave family so he could have her all to himself? These are both plots twists I might have considered to be horrible and heinous. Anyway, lots of dithering and visits to Summerland ensue accompanied by many descriptions of drinking the red immortal elixir. (Yes, YES, they have to drink elixir to be an immortal. WE GET IT. Please, no more descriptions of Ever fiddling with her bottle of elixir at lunch or talking about her "favorite red sports drink" with her aunt. Enough. End rant.) Okay, so somewhere along the way, Haven manages to learn what Ever's weak chakra is and she kills her...only as she dies, Ever suddenly defeats her weak chakra by having some revelation about it. Sigh. Anyway, not a lot is resolved by the end of the book (nothing new there). Perhaps the author is saving it all for the finale, due out this Summer. I won't be holding my breath.

Wait no more. Find out what I thought about the finale here: Everlasting

I am surprised at the negative reviews for this book. Trust me, I LOVED Evermore, completely HATED the 2nd book, "Blue Moon" and almost just stopped there. I'm glad I didn't, because after that 2nd book in the series, it really did get better from there.

This 5th installment of the Immortals series left me with hope. We start the book off with Ever and Damen training for the fight that they know is coming with Haven. After Jude killed off Roman in book 4, Haven is on the rampage, completely blaming Ever for his death and vowing revenge on her and Jude.

So Ever is dealing with the repercussions of Roman's death, trying to protect Jude, trying to deal with things at home as Sabine completely disbelieves Ever has psychic abilities after her near death experience, and also trying to find the one thing that will bring her and Damen together: the antidote to the antidote. She needs the shirt Romans was wearing when he was killed, as the antidote was spilled all over it and it's the only way she can find out what was exactly in it.

I liked the way this book was written. I always have seen Haven as the crazed girl in the movie "The Craft."

She reminded me so much of her that's who she became in my head at least.

I'm very much looking forward to the 6th book, due out in June and I'm hoping for that happy ending. I guess I don't have that long to wait, but it's a book I will have the day it comes out. Happy reading, this one was worth it.

Ever is still the most annoying character in YAF, but I tell you what, I've hated Haven since the first book so this book....better than the last ones.

Whenever Ever says she knows she's doing the right thing you know she has made the wrong decision and unfortunately, she says this a lot. What bugs me most is that she always thinks that she knows better than the guy who has had 600 years of life experience. She's so self-righteous it drives me insane.

Although, I will give her this...she has changed a bit for the better in this book. But really, I think it is Alyson Noel's writing that voices Ever so annoyingly. Since the book is in the first person there are too many conversations she has with herself that just grate on my nerves. That and the usage of the word 'gawd'. Gawd awful or gawd, shut up.

And Haven, oh Haven how I hate you so. And not the she's so bad she's good kind of hate, the villain you love to hate, but just a character I flat out hate. She was idiotic and snooty in the first book and now she's just flat out crazy and ridiculous. The clothing and makeup descriptions are just waaaaay over the top. Are you kidding me?

I honestly don't know why I read these books! But now, there's only one left so I have to finish. ;)

So. *The Immortals*, number five. Second-to-last in the series. Ever and Damen's story is almost over. Almost time for Tubby-by-bye.

Who gives a flying fuck?

Fuck's sake.

Cassie 'The Thinker Go Go Go Go' Mis. Roben Goodfellow'\Isabelle Lightwood says

Okay, first of all...the first couple of chapters were HORRABLE! Heck I don't even remember the first few CHAPTERS seeing as I'd started reading it and forgot about it and started other stuff then just now came back to it. And I must say CONGASTONS EVER!! YOU FINALLY DID SOMTHING SMART FOR ONCE WITHOUT BEATING YOURSELF UP FOR IT AND THINKING THAT YOU DIDN'T DO THE RIGHT THING!!! *CLAPS HANDS!!* Although the whole thing with her Aunt Sebbein or however you spell it. It's getting crazy! She ended up kicking Ever out of the house at the very end. And Damien....Good Job! I don't know why.. but good job anyways! (for whatever it was that you did.) Oh wait I remember now! You taught Ever how to take out Heaven if need be! And also you were able to actually walk up to Jude and tell him that you wanted to apologize for oh let me think... 6 centuries of actually owing Ever into liking you. (Although they don't call that in the book...well actually I shouldn't of said that but anyways.) And have him forgive you and then become friends in the end. That's awesome! So just for that you get a little clap. *clap clap*

Okay now for Heaven. Whole mother of hell! WHAT IN THE WORLD WERE YOU THINKING?!!! YOU CRAZY PSYCHO BITCH HEAD! WHY DID YOU EVEN DO THAT TO EVER!! YES SHE'S ANYOING AT TIMES, BUT STILL DID YOU HAVE TO PUNCH HER IN HER THROAT AND SEND HER TO THE SHADOW WOLD FOR A FEW MINTUES? !! DUDE NOT NICE! AND WHY DID YOU HAVE TO DO THAT TO JUDE TOO!! I MEAN YOU LEAVE THEM BOUTH IN HIS SHOP AS GOOD AS DEAD! WHAT IS WRONG WITH YOU?!! OH NEVER MIND I KNOW! IT'S BECAUSE ROMAN GAVE YOU THAT EXTILER AND YOU KEPT DRINKING IT AND IT WAS TO STRONG AND THEN YOU GOT ADTIDED TO IT!! THAT'S RIGHT!!! I'M GLADE YOUR DEAD! YOU WERE TO ANYOING ANYWAYS!

Okay, Now for Miles.(This one's going to be short..) Miles Thank you for being the normal simi rashnal one that actually thinks things though before going and doing it! For you just for doing all that----I THANK YOU!!!!!!

Well besides all that. It was kinda good at the end of the book, or more like the last six or seven chapters

were really good. Let me think....yep I'm done now!

Sarah says

This was a YA paranormal romance story which carried on from the previous book.

Ever was an okay character in this, she started to get a bit reckless with her powers at times though. One day someone is going to catch her manifesting BMWs in the street and she's going to struggle to explain what she was doing.

The storyline in this was about Haven trying to get revenge on Ever and Damen for their part in Roman's death, and about Ever trying to get hold of Roman's shirt in an effort to recreate the antidote to the antidote so that she could have sex with Damen. This storyline about them not being able to touch has been done to death though, and it's getting really old. The love triangle was explored a bit more in this book, with Ever suddenly not being sure whether she should be with Damen or Jude, which was a little odd.

The ending to this left us with some questions still. I hope things are resolved in the last book.

Safae says

Dear Alyson Noel during this book I've felt like you tried so hard to keep us interested in what you are writing, unfortunately, You failed, big time.

This book is boring really truly boring and the fact that I have to somehow find a way to finish it is utter torture "I never change my habits and one of them is to never give up on a book and not finish it" so here I am trying to finish the 200 pages that are left ,not much huh?!!

Btw I kept on reading the words "make no mistake ever" that I imagined Alyson Noel almost saying to us make no mistake people this isn't going to get any better! I mean what is it with the repetition? Am I the only one noticing it here? Hello? Anyone..?

And Ever goes on and on about how Jude looks at her how he observes her , oh poor Jude he loves me , he wants me ,oh poor Jude always getting his heart broken .. and then poor Damen being sad because of me , obsessing oh poor thing they all love me and I have to choose hmm such a difficult choice to make..

And just when I think the book is over like most books go you know? A beginning with a state of an almost calm atmosphere and then right in the middle there is the troubles and problems and everything gets fixed and we get to the end when everything is in a semi good way and then right before the book ends we see the opening for the new one (if it's a series of course) "and I'm sure all of these things have some grammatical name that I don't know of"

Well, well, this book have proven me wrong, since it has two big problems right in the middle with a great space of supposed calm between them and right when I thought the book was over –to my outer rage- it wasn't and it kept dragging on for a lot of pages which is a pure torture if you might ask me.

I had to get through so many pages to get to some –almost- good parts and then again I had to cope with some more. I can't believe how much time I've wasted not how many times I thought it'll get better , believe me IT DOESN'T .

And now finally there is a final book and despite how much I hated this one I'm gonna read it just so I could have a proper closure with this series.

And of course I'm giving it no more than 2 stars and that second star is because I enjoyed some parts so it is

only to be fair.

Kay says

So after reading the book, I'm having a few conflicting thoughts. but my major thought is: do we really have to have another book? Because honestly, I think the series should've end about, oh 3 books ago. I mean, how many times has Ever gotten herself into trouble and made the situation even worse? I've got a count of at least 5.

Personally, I think that if Ever had been sent to the shadowland two to three books ago and had her epiphany than the I'd like her and the series A LOT MORE! To me she just seems like a ignorant little girl who got turned into an immortal and has no idea what's she's doing.

But that's just me.

So, overall, I didn't enjoy this book. I thought Haven's 'transformation' was completely unrealistic(even for this kind of book) and I was still annoyed and irritated with Ever's stupidity and Damen's laid back demeanor. The only good parts for me were the parts Miles was in.

°??.:*?Arianna°??.:*? says

I hella could not stand this book. I just wanted to continue to satisfy my curiosity about what happens in the end and what Haven does to Ever. As I read a little of the book I just could not get past the characters that are just all wrong.

Ever. I was expecting more about her from the first book, but the series has just made me totally dislike her as a character. First, in the other books she couldn't seem to do anything her self, even with her new found powers. Like, your immortal, learn to defend yourself. What was really pissing me off though in this book was that she was hoping back and forth between Damen and Jude. Like first, Ever is determined that she and Damen are meant for each other and at first rejects other guys, but she still gets swayed by them. Damn. Hella annoying that when she starts to have doubts about Damen she goes running to Jude. Like, don't string the guy along just because you are unsure about your feelings!

Haven is even more annoying or maybe just as. (view spoiler) Haven is the worst friend that anyone could ever have. I mean, how the hell can you betray and seek revenge against your own best friend? She is just letting her new powers and jealousy get to her. I didn't even really like her from the start with the way that she got jealous of her friend. It seemed to me that she was ready to turn on her friends at any second if that meant that she got attention from someone that was good-looking or had to make a decision that would make her popular and loved by others. She really seemed that way with her choosing Drina and the jealousy of Ever, and I was right. She took what she could to make herself seem better. As the book went on I thought that she was a b*tch and how much I hated her for what she was doing to a former friend (view spoiler) I thought she was plain evil from that point, but later on I discover that she is not just a total b*tch but a psycho as well. (view spoiler)

The only decent character is the book seems to be Miles. He is a great guy, loyal, and (view spoiler)

Kristi-The Book Faery says

Initially, I wasn't going to finish this series which is fairly rare for me. Evermore was fantastic! Blue Moon was great and then it all went downhill from there. I was so frustrated with the main character's absolute lack of growth not to mention the fact that the author constantly threw a character driven wrench that was just to convenient--whether it be [...] doing something incredibly stupid repeatedly throughout the books or the author writes Ever into multiple conversations and just chooses not to finish them and begins another chapter like the conversation never happened etc... Leaving me thinking either a section is missing or Ever is just standing there stupidly with her thumb in her ear. Yes, this is fiction, but even fiction has its limits and it starts to become insulting to the reader.

I had initially selected this as a pre-order for my Kindle and didn't unselect it so I read it. This book was better than I expected although it had a few of the extremely insulting wrenches thrown in, I can honestly say it was ok.

Now, to the review:

Ever and Damen are together, as much as they can be. Haven has turned into a vicious tyrant, no surprise there; she wasn't a good person or friend before becoming immortal so I can't see how gaining power would enhance her personally but our dear Ever is **ever** hopeful.

Haven, along with wanting to kill Ever, is on a mission to start senior year as the new Queen Bee and knock Stacia off the hierarchy with a little help from Honor. Therefore getting all the attention she feels she's been denied all these years she's spent labeled as a loser.

Damen is supportive and patient as always. Ever catches him in some creative editing of her/their past lives and assumes the worse. He, of course, is there to assist and protect Stacia from the horrors of being a **gasp** loser. Heartbreaking as it is for Ever, she'll get by. Watching Damen protectively whisper in Stacia's ear and hover over her is nothing new.

Miles is back from Italy and he has some questions for Damen about some paintings that Roman directed him to. Miles is my favorite character; he is the most realistic person and is truly a faithful friend.

Sabine and Mr. Munoz seem to fade into the background, making rare appearances. Sabine's rare appearances being in turn worried, shocked and angry. Mr. Munoz's takes a turn at being supportive despite the fact that Ever has missed over a week of school.

We find Ever, once again battling an immortal to the death, once again making an impossible choice and once again 'the wrench' just happens to be there at the VERY second when it all goes down even though the 'wrench' wants nothing to do with said person involved. The reason the 'wrench' is there can be explained, I'm sure (hey-we all feel guilty about something) but it lessened the story when it could have been so much better. It was kind of a repeat with a different twist.

With that being said, there is a new premise being started that will hopefully give way to a new story-line for the final book. Exploration of Summerland has shown a new development there that bodes ill for Ever and might even offer up a new challenge. I certainly hope so, the sixth and final book is ready.

I mean come on, I could give it zero stars. I have never EVER read a series so ridiculously redundant in all my years of reading. Get over it already, honestly, an author that CAN write well should never EVER produce something so hideous. It's so disappointing when an author shows you she can write and develop a good story line (e.g. Evermore & Blue Moon, maybe even Shadowland) and characters and then puts on such a horrible display of mediocrity. It's a disgrace to her abilities. Maybe something is going on in her life and she's not into it anymore or it's for losers 12 year olds and she's trying to put out a message of celibacy, who knows?! I've given up trying to figure it out, I WILL NOT be wasting any money on the last one and for someone like me who is OCD about finishing what I started, that says a lot. To any other reader thinking of attempting to get through this catastrophe and you are already tired of the "can't touch you, I'm so immature and I make the same mistakes over and over and I'm super petty, annoying and predictable along with all the other characters" DO NOT expect a change.. it only gets worse, that's a promise. It would take a miracle of a last book to save this series. Too bad this author can't rewind time and actually write to the audience that wants to read this series.

Bianca says

This one was better than the last but even so only by a tiny bit.

I hated Haven from the start, what a bitch. I wanted her gone ever since she became an immortal. She is annoying... Not to mention self centered. (ALL OF THE TIME!)

Makes sarcastic surprised face Who knew that Ever would doubt Damen again>? I hate how she finally says yes I trust him and then one tiny thing, any bit of unknown information that he hasn't shared with her and she jumps ship. Right back to the I don't trust you anymore side. In the end she always realises she shouldn't have doubted him. Doesn't she learn>? She seems to run in circles. It's getting annoying. I mean the guy has been around for over 600 years, he can't have been 'perfect' all the time right? It's impossible, everyone makes mistakes. Ever should know that. (She sure makes her fair share.)

This book is just like the last 2 or 3 or 4 I honestly can't remember, it is all about Ever and Damen getting the cure. At the end they still are no closer than before. There is only so long you can drag one problem out for. The whole can't touch each other is really old. I just wanted them to hurry up and find the cure so that they could finally have sex and move on from it. Does Ever believe that all her problems are going to disappear once she and Damen do it? (Sighs) I feel it's an overrated problem.

I'm not sure I can handle another book about finding the cure, I will probably read the next one but I'm still waiting in vain hope that they get better again. I really liked the first one but it has been downhill since then.

Lina says

OMG THANK GOODNESS THAT'S OVER.

Oh LAWD, this series just it doesn't stop being dumb.

What am I saying, this is The Immortals series. At least this book didn't misuse Wicca, because that damn Hekate thing was going to make me choke a muggle.

Alright, new book, same shit. Ever and Damon still can't have sex with one another, but they manage to have chaste kisses in the memories in their past lives. In the mean time, they are dealing with Haven who [surprise, surprise] is evil. Plus, there is teen school drama with Haven trying to become the new Queen Bee. Ever and Damon deal with the fact that Damon has been editing out pieces of Ever's past live memories in order to blind her from the troubling issues.

(view spoiler)

It's really the epitome of chaste-teen melodrama. I mean Haven doesn't even curse, she says "fug" instead of "fuck", Ever and Damon literally can not consummate their relationship and Ever is frustrated that her aunt, who took her in and gave her everything she could ever need, just doesn't get her!

What I think made this book more irritating than the last ones is that Rowan wasn't there, very little Twin-action and Jude gets shafted. Those characters were some of the gems because they were more well rounded and kept Ever on her toes.

Also, the writing just took a series nose-dive. I mean the story is not good, but in the previous books at least the story was moving. Night Star has pages and pages of talking about bullshit. I mean there are so many adjectives, describing the same thing, on the same page, in the same paragraph, within the same sentence!

Ever just is so dense, instead of getting the job done and killing Haven or stopping that crazy bitch from doing all her dumb crap. But nooooo "she's my friend" "i want to give her a chance."

NO SHE'S A TROLL AND YOUR FRIENDSHIP WITH HER HAS ALWAYS BEEN A MYSTERY TO READERS AROUND THE WORLD!

/rage.

Get shit done Ever! You are an immortal, you have super-human abilities! Use them or give them to someone else.

This book is just horrible and I'm very glad that it'll be ending soon. Damon and Ever have the type of relationship The Purity Myth talks about. It's just so childish that it becomes uncomfortable. Their dependence on each other and the fact that for 600 years, Damon has been chasing her makes me wanna vomit actually. I mean they ride on a white stallion on dates >.<. Seriously?

Ugh, that's all I can manage to say about this book. I will admit I was tempted to give this book because (view spoiler), but that is not enough.

Sara says

Meh... I'm beginning to seriously hate these books. Not that the first 4 were amazing, but the first one wasn't

bad... then they all go downhill from there IMHO. How long is the author going to drag out this Ever can't touch Damon crap? I mean, geesh!! Give it a rest already!! As if them being able to touch will automatically create this happily ever after ending we've all been waiting for. It's getting completely ridiculous!

So once again, Ever sees something from her past that Damon kept from her... so once again, she doubts him and can't make up her mind until she (almost) dies and sees the truth for herself. This is just my opinion, but the "trust" she now has in Damon is total bull-S because when she floated in the darkness of the Shadowland, she saw everything he'd kept from her! No trust needed because she just HAD to see for herself. She's stupid, at times self centered and just annoying!! Add Haven on top of that and you have one hell of an annoying book!!

I have NO idea why I read this... I guess I was just curious... but I'll have to be seriously bored out of my mind to read the next book. Thankfully it was a fast read, a 5th grader could have read it in a day it was that elementary! At last I can move on to better books!!

Merary says

slowly wakes up and gives a big yawn

Thank goodness I'm almost over! I can't stand this books! Now I understand what people meant by the absurdness of this pathetic *Immortals* series. All I want is the last book to arrive, read it, and then get on with my life, mourning the loss of my neurons.

Even though the books were pointless and absurd, at least they were fast reads. But *Night Star* was BORING. It actually took me longer to read than the other four books. After page 80, I was still waiting for something interesting to happen. Then 30 pages later . . . nothing. This is the same plot over and over! Ever and Damen are still trying a cure for their chaste! It's getting old already!

[image error]

*Must. . . continue. . . reading--*SNORE**

Was I the only one who thought the awful secret that could break Ever and Damen apart was . . . pathetic? Please. I'd read worse secrets than that. Ever, get over it! Don't expect everybody to be perfect! Like I said before, you're not even perfect yourself! Do you remember the awful stupidities you had done during the entire series?

and Jude . . . Oh my gosh, he became so pathetic. Ever will never love you! Get it through your head, too!

Amazingly enough, the biggest complaint I have for this book wasn't Ever's tiny brain.

It was Haven.

She's a fucking DOG. I felt like tearing my hair every time she said something. We get it already! You're unhappy and pathetic! She reminded of one of those bullies who feel victorious with throwing whatever runs through their heads to their victims. I was rolling my eyes at her "tauntings". Please! Even if someone was threatening me like that, all I will think is how pitying she/he is! The words were EMPTY. It only showed her lack of incompetence. Haven is a waste of space and waste of a villain. Please, leave the tauntings to **REAL** villains. Haven, ever heard of *rehearsing*?

Leah Steele says

Let's play a drinking game...

Every time you see the words "tingle and heat," take a swig. I guarantee you'll be plastered by the time you finish the book in one sitting. We get it, your boyfriend makes you feel all warm and fuzzy. Move the hell on.

If you're not wasted by this point, go ahead and throw in another shot for every cheesy mention of a red tulip. If you're not three sheets by now, you have a heartier constitution than I.

I don't want to waste too much of my precious free time writing more about this book--I've wasted enough already reading it. The concept isn't terrible and in the hands of a better writer, it might not have been all that bad. But Noel spends way too much time mired down in how dreamy everyone is and the exact brands of cars and clothing represented that frankly I'm insulted on the behalf of teens everywhere at her insinuation that they're all vapid brand whores. But what really kills her writing style for me is the repetition. She seems to feel compelled to say everything at least three ways in just the course of one sentence. I don't know if she's attempting dramatic gravity or just trying to drive the point home, but she ends up beating it into the ground and spitting on it for good measure. Instances of this are far too frequent and close together to be effective--just annoying.

Add to the fact that basically the main conflict of the entire story centers around the main characters' failed, desperate attempts to get laid... It's just bad

Khalia Hades says

SPOILER ALERT!

First of all, this is the most slow paced book ever. No excitement, no nada. Okay so, Ever discovers that she was a slave in one of her past lives, who lost who family in a fire, and who was her hero? Damen. He rescued her by buying her, by later going back to try and buy her family. Little did he know that Roman snuck in the night a light the place in flames. Jude, who was also part of the salvaged family, decides to give it a go and try to win her back. Which, like always, he ends up butting in.

Damon, the sweetest guy I've ever read about, ends up protecting Stacia. Ever's enemy, thanks to God that she understands why he needs to protect her; she reminds her of herself with the hoodies, and the iPod. While Heaven tries her best to separate Damon from Elena, she blames her for the death of Roman.

Jude, a lost cost. I don't even know why he is STILL in the picture. Why would you butt in a relationship if you know it will never work? If you had a chance to see the past, and know parts of the future, wouldn't you want to change it? Yes. But when it's obvious that you are not meant to be with that person, then why keep butting in? You are only going to hurt yourself over and over again.

Finally, when Ever is going through the death experience all over again and ends up in Shadowland, she sees who she is really meant to be, and that her feelings for Damen were never mistaken. He is the man she loves and desires the most. End of Story.

I just hope the last book (Everlasting) is better than Shadowland, Dark Flame, and obviously Night Star.
