Jamie Jones says

From the moment I finished reading chapter one, I felt I knew these characters. I wanted to learn more about them, and each chapter drew me deeper into their world. THE BABY WHO SAVED DR. CYNICAL is a very good romance, well written, with some well-placed touches of humor. As Stephanie and Jason deal with the uncertainties of their futures, I was turning page after page until the satisfying outcome. I enjoyed their journey, and closed the book with the notion that I want to read the next Connie Cox romance!

Annette Bower says

This was a 4 tear read for me as well. Connie Cox fed Dr. Cynical's life in a little at a time to explain and not excuse his apparent brisk bedside manner.

Carol-Ann says

A lovely medical romance story well-written loved the characters of Dr Jason Drake who is a brilliant diagnostician the person everyone turns to when they cannot diagnose a sick child themselves, He hides a very painful past he does not show is feelings that way he can't get hurt,yet he as a burning passion for medicine and also for his boss, Dr Stephanie Montclair but there affair wasn't meant to last except there is a complication that is going to effect him and there no strings affair! Thank you Connie for your writting and such a lovely book!

Fiona Marsden says

On her blog Connie Cox told us why Romance Heroines are about women's rights. So I read her book against the list she gives.

The Baby Who Saved Dr Cynical

- 1.Romance heroines never settle for second-best when choosing who they love. TICK. Hero Jason is gorgeous and adorable and smart and....
- 2.Romance heroines are strong in heart and in mind and in soul—or they end up that way after growing through the conflicts in the story. TICK STEphanie is a strong accomplished woman
- 3.Romance heroines, like all strong women, are good role models for our daughters. TICK see above
- 4.Romance heroines don't obsess over their weight or if their hair looks good. They focus their energy on what is important to them. TICK (well mostly)
- 5.Romance heroines believe in the sanctity of a strong and faithful relationship and will accept nothing less. TICK You betcha baby.
- 6.Romance heroines choose mates who bring out the best in them. TICK Purrfect!
- 7.Romance heroines understand and embrace the power in being a woman. TICK
- 8.Romance heroines are brave enough to be vulnerable and fall in love. TICK (eventually)
- 9.Romance heroines believe in hope for a happy, healthy future. TICK (slow start but got there)

10. Romance heroines gives readers hope that they can be the heroines of their own lives. TICK
A lovely book that ticks all the right boxes, engages emotionally and leaves you satisfied.

Liz Talley says

Competent and capable Dr. Stephanie Montclair has a problem - she's pregnant with the child of the brilliant diagnostician on her hospital staff, and as administrator making tough choices and cleaning up Dr. Jason Drake, she's conflicted and afraid for a future with a man who can't commit to anything but his passion for his job. Dr. Jason Drake is a fascinating character, tragically flawed by his past and confused by how much he wants the sexy doctor who no longer wants things casual. Nicely balanced romance with heart-warming medical setting makes this a riveting read. Reminiscent of the TV series House, but satisfying in all the right ways.

Margaret says

This is a lovely romantic story that tugs at the heartstrings.

Lyn Morgan says

What a great book, funny, romantic and well written, this is a really fun read. When Dr. Stephanie Montclair, a wealthy socialite doctor and Dr. Jason Drake, a brilliant rebel doc many parents have turned to for answers when their child has a puzzling disease share a summer fling unexpected complications result. Stephanie finds she is facing an unplanned pregnancy. She delays telling the unsuspecting father-to-be, but canny Dr. Jason figures it out. These two brilliant physicians haven't a clue how to manage their new relationship but readers of the book will be sure they will figure it all out and become wonderful, concerned parents.

C.D. Sutherland says

Occasionally, we see perfect people in everyday life. At first glance, that's exactly what the love-interests appear to be in this delightful romance. Dr. Stephanie Montclair, the Director of Pediatric Diagnostics at Sheffield Memorial Hospital, the well-respected, dedicated, brilliant doctor, who is not only carrying on the family tradition as the daughter of two near-legendary doctors, she is also beautiful. Dr. Jason Blake who is talented beyond his peers, takes on the hardest of cases and is always there to help the other doctors in their challenges, and guess what? He is tall and handsome. Perfect to all who know them.

Except the more you get to know them in the wonderful romance, you discover they have problems--both in their earlier lives and now together. At the opening of the story we discover they have an unplanned pregnancy, the product of what was supposed to be just a physical relationship. How do perfect professionals deal with an unplanned pregnancy? Challenges abound as each of them have to overcome their personal challenges, professional challenges, and most of all their relationship challenge.

I observed, I cared about each of them, I cringed, I laughed, and being who I am--I did not cry--but that doesn't mean you won't as you probably will if love-stories sometimes do that to you. Yes it's a romance and yes it covers mature subjects, but this book is not only tastefully done it is written with the brilliance of a great writer, who has now become my favorite romance writer, Connie Cox.

Bravo, bravo indeed.
