Anarchist: Book 1 Jordan Silver

Law Daniels is an ex army sniper who's come home to the Western town of Starling Wyoming to bury his family, who has been slaughtered and burned out for the land that has been in the Daniels family for generations. The local sheriff is on the take and refuses to do anything to catch the man responsible. The wealthy and unscrupulous Royce Davis.

Now Law finds himself the head of a band of disgruntled residents who have somehow decided that he should be their leader in chief.

He isn't really interested in anything else but seeking vengeance for the blood of his family, but somehow he keeps getting sucked in. Now he's faced with the care of the young girl that crawled onto his place in the early morning hours after being worked over pretty good.

He can't turn her away, but can he resist her while he tries to protect her?

Nikki says

this quickie came to my attention when i was reading jordan silver's SEAL Team Seven #5. it's a quickie and introduces law and his makeshift mc family. the cliffhanger at the end will probably keep me reading until the end of the series because law's effervescent personality has me hooked.

Vashti says

Enjoyable, but I want the next installement already!

Barbara says

This is My ZON Review.... :-)

This I th first book in an SERIES that I think is going to be just as great as Lyons Series.... if ya ike that one ... then this is for you as well... Get One Clicking People :-)

I dig this Chicks Writing... :-)

Jennie Newell hartweck says

Well... I hate the way she ended it... damn it. She is mean lately. Love how the story is setting up though. He is sooo keeping her!!

BJ says

As always. Love some Jordan Silver

I cannot get enough of Jordan Silvers writing.

Her stories are soooooo steamy but still have meat to them.

Loving this new series.

Lisa B. Lovely says

I love this introduction to Law and his crew. Dana is a mess (and her parents are just horrible), the whole situation just stinks. This was a quick introduction to the guys and their MC and a great beginning to the series by Jordan Silver!

Dina says

4 Good start stars!!

Well, this sounds really interesting! I can't wait to read more!

Trina says

Very frustrating to read in tiny segments...but the romance was super sweet.

KelticKat says

Promising start...

Good background work laid for a potentially promising start to this story.

Law - strong loner type - finds himself back home after serving in the army and at the head of a biker gang - who are know to the locals as more of "Avenging Angels" as opposed to "Hell's Angels" - not exactly sure what he looks like but the fMC seems to think he's attractive.

Dana - just returned home from 6 yrs away at boarding school - only to be told that she is to marry Royce Davis - the local bad guy, who is older than her father. She refuses - and the story is what happens next and how Law becomes involved in this drama.

Really not enough meat in this - but might take a chance and read the series at a later date - a definite MAYBe

Jennifer Finn says

Another hot, sexy, possessive alpha male from Jordan Silver. Lawton Daniels came home from fighting for our country when he got a call saying his parents & baby sister were murdered. Luckily his younger brother, Kyle was still alive, he wasn't home at the time the murdered happened. Now he's pissed & wants revenge against Royce Davis, the man who was behind his family's murder. Royce is rich & wanted the family's land when he was told no he did the unthinkable & the corrupt Sheriff won't do anything about it. One day a young woman crawls her beaten & bloody body on to Law's land asking for help. Dana Sue is 18 years old & has just returned home from the boarding school she's attended since she was twelve. When she got home her dad told her that Royce Davis was the one who paid for her schooling & in return she has to marry him the next day. Dana refuses to marry a man older than her father that she doesn't even know so her father beats her badly.

Chantal ♥? says

4.5 THAT IS MESSED UP STARS

The heroine is beaten by her father and so she runs off into the hero's anti establishment Bike Club. It's an "unofficial club" founded by the hero to try and right the wrongs done to his family by the City's corrupt public officials.

It seems that everyone was in on the corruption. From the police chief to the mayor! So the heroine is to be a pawn in this game but she refused and so as a result seeks the refuge of the hero's club.

He takes one look at this sweet innocent and knows he must protect her and makes changes to his life to include her!

This is just the first part. Many more to come as we see how this couple (and the couples around them) deal with all the challenges and adjust to life together.

A great first book.

Sadly I have been told that KU no longer offers this book!

Safety: no cheating but loads of OW drama with the club sheep (worker/whore) and OM with her forced on her fiancé.

Original review

Promising start to a good series. And with kindle unlimited it's free. So why not.

The hero is trying to right a wrong and the heroine is struggling to stay alive. They both need each other but they don't know it yet.

Hope it stays this good.

Amy Miller says

A great series about brotherhood and helping others and revenge

Rhonda says

I like,I like, I really like

So I am not sure if Ms. Silver's new serial format is good or not. The hot alpha guy for the hero that works every time. I will be buying the next one when it comes out. I just hope it has some hot sexy action in it.

Jamie says

Definitely an interesting start.. short novella so lots of background we still need.. but good start.

A says

I just wish there was more of a description of each character. It's hard to picture them when there isn't a description of the males. Some small talk of the ladies bodies, maybe hair, or eye color. But not enough in my opinion.
