Folks, this is it. This is officially a new classic in mi casa. Toto bien, amigos and amigas. My son loves this book, I love it. It's simple, exciting, and well illustrated. Your children will love it. Go get this book.

This was accidentally ordered by my then two year old son before my husband and i realized we needed a password on our kindle! We did keep it, however, because its very informative and covered a simple day in the life of a fireman, complete with a wildfire at the end. The drawback is that the story takes too long, and even for my (now) five year old, it drags a little about 3/4 of the way through. Still a good book, though.

My Review: This book follows Big Frank on a full shift as a firefighter. It shows the ups and downs of a long shift and the different things that firefighters do to keep people safe. I really like the touch at the end to show that firefighters, while heroes are still family to someone. Munchkin really liked this book and talking about things he already knew about firefighters and fire trucks. This is a great one for fans.

Gracie says

This book follows big Frank the firefighter on a 24 hour shift throughout his day. We see him go to in elementary school to discuss fire safety, put out a car fire, and put out a terrible forest fire.

Phil Lemons says

This is another favorite for the boy. This is a good introduction to firefighters and their gear. It depicts the action parts of a firefighter's job, naturally. The boy likes to tell me what everything is and what it is for as we read.

I like that the book reinforces a positive image of local heroes that is not overly dramatized or exaggerated. I give it points for not including old cat in the tree rescue, as well.

The Brothers says

The story follows Big Frank the firefighter around for a 24 hour shift. He does everything from safety checkups at the grocery store to responding to a car crash. There's a big brush fire so Big Frank and his company have to work all night to put it out. Asher (5 years old) and Dex (2 years old) both love this book.

Great illustrations.

Walter Walker says

The illustrations and text go together perfectly in this book. I think it definitely inspires print motivation. The vibrant colors draw the eye to the pages. The story is great. I recommend for all ages.

Matt says

Big Frank is quite the firefighter and takes the reader along on a wonderful journey through his twenty-four hour shift. From helping a burning vehicle to testing a store's fire system, Big Frank is known for his ability to help. Big Frank is happy to also help out in the schools, by teaching everyone the joys of fire safety and then making his way to the front lines of a dangerous blaze. Big Frank can do it all, but still loves to return home to his family, where he always is sought with open arms. There are days that Neo expresses an interest in being a firefighter and he loved all the aspects of this book. Great to see not only the dramatic side of the job, but also how dedication and community involvement shape those who protect us night and day.

Mama says

Great bedtime story for kiddos who are interested and love fire fighters/fire trucks.

We follow Big Frank through a 24 work shift.

Performing safety inspections, teaching kids fire safety, having lunch at the station, taking a nap, and fighting a big brush fire that gets out of control.

My 5 yr old and 4 yr old listened and stayed entranced through the whole story.

Keely says

So great-- explains in detail what a fire fighter goes through during his shift (much more than just saving cats from trees and kids from burning windows). My 3 year old LOVES it.

Savannah says

Such a fun book to read about firemen and their jobs. My boys LOVE firemen, and firetrucks. This book teaches them more about what they do and what things are called.

Emerson and Theodore says

Absolutely loves it! We bought it for max this summer.
