Everbound Donna Grant

To live in the light, they hunt in the dark...

The power of Helena's magic has made her a target for the Coven. She wanted no part in the war of the witches, but it's out of her hands now. She has to make a stand--and she does that by helping the Hunters and their allies against their common enemy. And now, the witch who ripped Helena's future apart is coming. Sybbyl's vengeance is swift and terrible, pitting the two against each other. But Helena doesn't have to fight the Coven alone. A seductive warlock offers his aid. Helena is hesitant to give her trust to him--because it's more than her life on the line. It's her heart, as well.

As the most feared and respected warrior of the Varroki, Jarin is used to being on his own. But with the Coven's quest to find the bones of the First Witch escalating, he finds it increasingly difficult to retain his solitary existence. When Jarin encounters Helena, he is helpless to resist her. She's everything he didn't know he wanted and so much more, and with her help, he's convinced that maybe his people can finally defeat their foe. But there's so much more at play than they know—ties in blood and sacrifice—and the loss that's sure to follow may be greater than any of them can bear.

Amazing!

The story of Helena and Jarin was one of the best in this series. The direction their adventures took were both exciting and emotional. I couldn't put it down. Donna Grant always delivers amazing stories. I am anxiously awaiting the next book.

Meg says

Oh!

Oh man, I did not expect what happens here in this book.

As usual a great story which moves the series along. One of the things that keeps me coming back for more with this author is that each book in any of her series does not pause the series in anyway.

Eva Millien says

The newest book in The Kindred series is a gripping, emotional tale that holds readers captive from beginning to end. Helena and Jarin's are strong, energetic characters that easily captivate readers with their story and the chemistry between them is quite magnetic as they grow closer together during their hair-raising quest to put an end to the Coven. The relationship hits a few snags along the way but the passion is hot and strong which pulls these characters toward their happily ever after even though neither is sure they will live to see another day. Readers easily connect to both of these characters which makes them want to reach out and help them during some troublesome times.

Everbound is fast-paced with lots of thrilling and spellbinding events that keep readers on the edge but be prepared to shed some tears and gripped with some powerful emotions. Surprising twists keep the characters balanced on a razor's edge as well keeping readers guessing while the realistic feeling and magical battles get the adrenaline pumping and send chills down the spine. The characters in this story have grit and strength that surpasses most and the story grips readers by the heart and refuses to let go and since the author makes it so easy to become part of it, readers get an enthralling reading experience.

The Heart of a Warrior

Donna hit another home run with Everbound! It is simply amazing! The fight to take out the coven continues as Jarin and Helena come up against Sybyyl and the coven. Sybyyl having the staff of the eternal has boosted her power and her search for the bones of the first witch continue.

Jarin has given Helena the courage to stop running and fight with the hunters and the Vorraki. Every war is Not without loss and it hits close to home.....

Everbound is part of the Kindred Series by Donna Grant. This is a newer series by the author but follows her pattern of a romance within an overarching theme. For that reason, this paranormal series may be best read in order. However, this is my first read of the series. I had no problem following the romance or why Jarin chose to help Helena but still think my enjoyment would have been enhanced if I had read the first two books in the series first. I did enjoy this book enough that I plan to go back to catch up with the other books.

The story flows with a jump right into the plight of Helena, her powers and the danger that she is now in because of the Coven. Jarin soon runs across Helena with the two joining forces. The attraction is inevitable. Their story is complete but the enemy is not defeated in this book so there is a cliffhanger on the big conflict in the series.

An ARC of the book was given to me by the publisher through Net Galley which I voluntarily chose to read and reviewed. All thoughts and opinions are my own.

4.5 Stars!

I have been intrigued by Jarin from the start of this series and was soooo happy to read his story! The fight against the Coven is heating up. This book was full of action and secrets being revealed. Helena is so much more than she realized and Jarin is the one to give her her wings.

Love the time period, love all the paranormal and historical myth and really loved Jarin and Helena together. Such a strong couple and each made better by supporting each other. Yeah for Lady Maelene and the changes she is bringing among the Varroki. Prepare for lots of magic, romantic moments and heartbreaking loss.

Great addition to the series!

Reading Donna Grant's books draw you in and it is hard to put the book down. The characters are amazing and have strong personalities. You have your villain who is a very bad murderess witch and I cannot wait until they take her out in another book in the series. If you are soft heart as I am you will cry in this book. All of Donna Grant's books are worth reading. She is my favorite author and I cannot wait until her next book comes out. Take a chance on Donna's books and enjoy.

I thought that this was an excellent book!!

I couldn't put it down until it was finished, but unfortunately it left me wanting to know what happens next as it was left on a bit of a cliff-hanger and now I have to wait for the next book to come out to find out!!

I hadn't read the previous books in the series so it is fine to be read as a stand alone as I picked up the story very easily. I loved the characters and the author's excellent writing style was really showcased in the book.

It was full of twists and turns and a completely riveting story - 5 stars!!

Somehow every time I read a Donna Grant book I swear that it is my favorite one ever, but this time I think that will hold true, at least of The Kindred series. This book was not only what we have become accustomed to in a Donna Grant novel, the romance, the action, the twists and turns, (oh those twists and turns!) but also a deeply emotional journey for this couple, The Hunters, and The Varroki.

This is the third full novel in The Kindred series, there is a prequel novella, Everkin, that I highly suggest reading prior to this one. You can jump in here and not be completely lost, but I think your enjoyment of the series will be greater if you begin at the beginning. We jump right into the thick of things with Helena on the run from the Coven, surviving almost solely on sheer will, things take a drastic turn for her when one of the fabled Varroki show up. Decision and plans must be made, lives are put at stake, and love begins to shine for more than one couple.

I will be honest there is one completely shocking moment for me and I have no idea how Donna is going to play this. I see that there is a story being born but it is very difficult as a reader to walk away from the other,

especially in the dramatic fashion in which it occurred. It was truly a WTF did she just do moment and completely unexpected. I admit I love it as much as I hate it, lol.

There are so many twists and turns, a staple of a Donna Grant book, so giving you a run down of the book would completely tragic on my part and I wouldn't do that to you so there isn't a ton of information to give you except expect the unexpected.

You will fall in love with this couple. I love all of Donna's couples, their love always runs deep, but there is something to me special about this couple. The openness they have, the choices they must make, the emotional pain that Helena has endured and the solitary life that Jarin has lead, to see them come together and be exactly what the other needs is beautiful. If you are looking for a strong heroine look no further than Helena. She has made her own way for so long and will do everything in her power to protect not only the ones that she loves but all of humanity. Jarin, what can I say? He is one of those hero's that could have totally gone alpha bad boy but is instead a quiet beautiful soul full of strength and compassion. I am also entirely in love with Valdr and Andi, Jarin's extraordinary 'friends' that you must meet.

If you are looking for a fantasy read that will keep you flipping pages look no further. I am so ready for the next book in this series, until you have read it you can't know exactly how ready I am, haha. I won't say that there is a huge cliff hanger, but Donna definitely leaves us wanting to know who, what, and when. It can't come soon enough!

~ HAPPY READING ~

Everbound is the 3rd book in The Kindred series. I did not realize that but it didn't feel like it. It did end knowing that there will be another book. This is a Paranormal Romance and I loved the relationship between Jarin and Helena. Also Helena meeting everyone else and fighting the bad witch. I received this as an ARC for review.
