Anyta Sunday

Pisces Hooks Taurus Anyta Sunday

It's a time for searching, and a time for finding, Pisces: keep casting your line and you will hook what you're looking for.

Zane has it all planned out: land the perfect Meet Cute, fall in love, and live happily ever after. Should be simple enough if he put his mind to it. A little creativity and some thinking outside of the box, and voila, he'd be married to the woman of his dreams. It would be perfect. And it would be before his visa ran out.

But why are his feelings running wild now that the pressure's on? Why is his picture-perfect plan turning into a muddled mess of morphed metaphors he can't make sense of anymore?

Just as well he's met an English professor to help. And even though their first meet is anything but cute, this down-to-earth teacher may just be the realist Zane needs to ground him and give him a shot at love after all.

Don't cast your line too wide, Pisces. Your perfect catch may already have bitten.

~ - ~ - ~

Pisces Hooks Taurus (Signs of Love #4) is an MM opposites-attract romantic comedy featuring an unapologetic romantic and a broken realist.

More wit, banter and bad puns - and even more heart-stopping slow burn!

Can be read as a standalone.

Meags says

5 Stars

I've said it before and I'll say it again: no one does slow-burn romance like Anyta Sunday.

Hands down, Pisces Hooks Taurus is my personal favourite book of this series thus far.

Much to the shock and disbelief of some readers, I daresay MCs Zane and Beckett even surpassed the awesomeness of Theo and Jamie from book one. I absolutely adored these two exceptionally endearing men – as individuals, as budding friends, and certainly as eventual partners and soulmates. They complemented one another so perfectly. Their every interaction was delightful and often highly amusing, from their initial (hilariously awkward) meet-cute, through to their heart-warming love confessions – I relished and savoured every single moment they shared together.

The sweetness, the humour, and the light-heartedness of this story made me one happy reader. I laughed so hard throughout and probably highlighted passages to the point of over-excessive, but that just goes to show how much I was enjoying myself. (view spoiler)

Ultimately, this was another great addition to a continually charming series. Not only that, but this story is now certainly in the running for top spot as my favourite M/M contemporary read of 2018.

An utterly delightful read and, obviously, **HIGHLY RECOMMENDED!**

~4.5~

This book had me on quote 1: *We are all fools in love.*

Quote to quote, chapter to chapter, I became more invested in Zane and Beckett's story.

When we meet Zane, he's just purchased a faux bear rug solely as a pun. Later, the bear becomes a bull, but first Zane becomes homeless. On his sister-in-law's advice he texts Professor Becky, who is not a middle-aged woman as Zane assumes, but a man, a very attractive, cynical man who teaches literature and engages in word games for fun.

Zane doesn't know Tolstoy from Toy Story, but he's the most cheerful, lovable guy on the planet. He's NOT an Aussie, thank you very much. He's a Kiwi, and his life goal is to fall in love and get married, preferably prior to month's end when his U.S. visa runs out. But this is not a political move. It's a romantic one.

Zane doesn't do NSA (no strings attached) or any other acronym. He believes in love at first sight, even tough, according to Beckett, he's really more of a slow-burn kind of guy. None of Zane's dates with women

work out, and it's not for lack of trying.

It's because Zane has a boyfriend. He just doesn't know it yet.

Zane and Beckett together were bubbles and rainbows and unicorns. They played and they punned and they cuddled. Zane "bromanced" Beckett hard. He drew him pictures and brought him food and even sat in on his lectures. And Beckett encouraged Zane to write his own comic, instead of wasting his creativity on someone who didn't appreciate it.

The UST was its own MC. I mean, these guys were on (metaphorical) FIRE. Zane had no idea why he had a boner all the time. He was adorably clueless, unaware of Beckett's jealousy and quiet despair when Zane went out with yet another woman who wanted to maul him. Fortunately, Zane didn't want to be mauled. Well, he DID, but only by Beckett.

When Zane had his epiphany, there was no angst, no self-flagellation. Like with everything in life, Zane jumped in with both feet. And it was HOT. Trust me. The sex was well worth the wait.

And if all that cuteness weren't enough, we also meet Theo's grandma who advises hooking Taurus, and visit with Theo and Jamie who have two new surprises of their own. We witness Zane putting Beckett's ex in his place and the best Synonym Standoff of all time.

Pontificate!

I was in love with this story already. Then I read the last quote and grinned like a loon.

My prince indeed.

chandler ainsley ? says

this cured my depression and cleared my acne

mm romance is the cure to all reading slumps and you can't convince me otherwise. no tropes, no gender roles, just nice old fashioned love & banging. and this was such a lovely continuation to this series.

this book follows zane and beckett. zane is a free spirited comic artist who, through mutual friends, finds a place to crash at beckett's house. beckett is an uptight literature professor spurned by his former husband after only a couple of months of marriage. obviously: antics ensue.

what really made this book was the dialogue and the slow burn. i think that's what's been missing in the last couple of installments of this series. the characters have known each other for a while but their relationship/friendship backstory is unconvincing or the characters are *too* quirky.

but that wasn't the case here, i was swooning and squealing at least every 30 pages and i was DYING for these characters to make it work. zane was sweet and romantic and beckett was a fun lil curmudgeon.

but there were a couple things i didn't love

first, i felt like zane was too stupid. i know, that sounds bad. but he's a high school drop out who doesn't know the difference between **mahogany and monogamy**. if someone were really that stupid i don't think they'd be able to back a college professor. and i was initially really excited about having an under educated romantic lead since that never seems to happen. but i think it might have been milked a little too much. i would have loved to see him be a little wittier despite his lack of education.

and then the end felt a little rushed. there was so much build up and i appreciated all the non-romantic touches and whatnot. but the actual romance felt like it was sort of just shoved in there? i mean the sex was great. but i just wanted more time for them to be together.

also, the ending was extremely realistic but imo that was a downfall. i like romantic gestures, proposals, etc and this was lacking.

all of that being said, this book was so fun and such a good slump-breaking read.

Renée says

I love this series!

Zane and Beckett stole the show. These are two MCs that I want in my life! They just had the biggest hearts and both have been trampled on, particularly Zane.

Zane is the youngest sibling, and his family is from New Zealand. ***I'm not Australian!***

He isn't the sharpest tool in the shed, and the people he meets certainly make digs at him to remind him of that. Except his brother, Jacob, whom he followed to the US. Jacob and Zane have a special bond. But Zane's clock is ticking because his visa runs out in one month, and he has to go back to New Zealand.

In a totally random encounter, he meets Becky (Beckett), through his sister-in-law.

"Beckett."

"You're a man."

His lips played on a smile. "You're an observational wizard."

Zane decides he likes Beckett, A LOT, and Beckett will be his new bestie. A bromance for the ages.

Beckett doesn't have a problem with this at all.

The humor and banter in this one was more subdued, but definitely there. Just muted. And, since Beckett is a literary professor, there were lots of literary word plays.

"It's a bar where we professors drink Pinot Noir and pontificate on the pleasures of punning."

"Um...."

"It's a pretentious penis party."

Zane has always identified as straight up til now, but makes comments about Beckett increasing his number on the "kingly scale".

Zane is clueless until he isn't. But he's still leaving.....

This one definitely brought the feelz, as I know Sunday will always deliver.

I loved almost everything about this story. Theo and Jamie will always be my favorite, but Zane and Beckett wove their way into my heart.

I truly need an epilogue. I need to know where these two go from here.

Fans of the series won't be disappointed!

Virginia Books says

This is a sweet and funny gay romcom full of misunderstandings—and misadventures—where a cute kiwi is trying to find true love in the USA.

The thing is, his dream world is full of frogs not ready for him and his romantic intentions. Till HE comes to play. Beckett (my Beckett, for future references). The hot teacher, the gentleman, the super educated man who loves literature and wine. His opposite? Could be... in some way, since Zane is not *that* smart. But he compensated his lack of knowledge with the biggest heart ever. And he awakes all the tender in the world. So, what is the problem with the yummy clever teacher? Well, he's a broken bull who doesn't believe in true love and between his reluctance and Zane's oblivion... well, imagine the kind of things they will drive into. It's a good thing that Beckett is not a regular frog. It's a studious one, all elegance and intelligence.

Pisces Hooks Taurus is funny, sweet, lovely, and full of good banter. It is slow burn at its best with heartwarming situations and a few sexy ones.

This is —with Leo Loves Aries— my favorite in this series. I gave Scorpio Hates Virgo 4 stars and Gemini Keeps Capricorn 4.5, so I know the difference is not huge but something about this book got me from the beginning. I don't know if it was the top notch humor or the image of that big handsome guy being cute and romantic as hell and oh so lost in a world full of sharks (and frogs).

And I'm so kind that I'll leave here another pic of my new book boyfriend: Beckett (please note how much in love he looks):

A highly recommend read!

??

Judith says

4.5

All the love for Beckett and Zane.

I was swooning big time reading this. I'm sure I've said it before but **Nobody** does a slow burn romance quite like *Anyta Sunday*

Move over Theo and Jamie because **Beckett and Zane now hold the number one spot of my favourite couples in this series.**

Book Four but can be a standalone, although you'd be seriously missing out not reading the other books.

Zane has a dilemma.....

His visa is due to expire in a month when he will have to return home to New Zealand.

Ever the optimist, he has the romantic notion that he will meet a girl, sweep her off her feet and live happily ever after and if this solves the visa problem it's an added bonus. But things don't exactly go to plan, especially when he meets Beckett.

Beckett is an English Professor. Hurt by love before he's not looking to go down that road again. But his world is about to be turned upside down when Zane crashes into his life.

You can feel Beckett's ever growing attraction to Zane. Zane, however, remains adorably clueless. In fact he has another mission..... make him and Beckett have the best Bromance ever! He even researches it online (too cute!!)

I found 'How to Start a Bromance in 13 Steps' on WikiHow, and this other awesome blog full of questions to deepen our knowledge of each other."

This book is just delightful from start to finish

The Author wrote in her review that *she's terrified to let these boys go*

Me too!! I didn't want this to end.

More please!!

Highly Recommended.

Review copy provided by the Author for which I'm eternally grateful.

? Todd says

Awww, this latest chapter in Anyta Sunday's "Signs of Love" series was **everything that I love most about M/M romance**.

Twenty-three y.o. New Zealand native **Zane** was determined to find **true love**, and find it quickly, in order to remain in the United States. Mainly so that he could be there for his favorite brother and his newborn niece, the same way that his brother had been there for him. Well, that and... LOVE, because he's a **hopeless romantic**.

Then he met 30 y.o. literature professor and divorcee **Beckett**, who after being cheated on and having his heart pulverized to a fine pulp, **no longer believed in love**, thinking it a "*big, beautiful lie*".

I loved the dynamic between extremely-naïve Zane and overly-cynical Beckett. Their **playful push and pull dynamic** completely worked for me.

"Why are you chasing after a green card?"

"I'm not."

"Let me rephrase. Why the deadline to marry?"

"A deadline to fall in love and marry. If I'm not 100 percent head over heels, I will go back and stay back. But I'm just . . . determined to be head over heels."

But Zane's time was running out, with only a very short time remaining to **find the perfect Miss Right and seal the deal**.

If I'm being completely honest, I wasn't initially sure **how well I was going to mesh with Zane**. He came across as insanely unrealistic as to how those first online dates might turn into something real. Also, he seemed pretty... simple.

Yet leave it to Anyta to transform Zane into **someone I quickly found myself rooting for**, becoming his biggest fan.

As Beckett's attraction to his new houseguest's young Chris Hemsworth looks and eternal optimism grew,

while Zane cluelessly dated a string of overly-amorous female suitors, with disastrous (and often scary) results, well, **I got sucked in pretty quickly.**

I also loved **Darla**, Beckett's wise and seemingly all-knowing next-door-neighbor, who also happened to be **Theo's beloved grandmother.**

Anyta brought the slow-burn BIG TIME in this latest story, leaving Zane **pretty damn clueless** until probably 70 percent into the story, while the rest of us saw where things were going pretty early on.

And **I absolutely LOVED the ride.**

It did take a while to finally get to the **steamy bits**, which were very steamy indeed, but **events unfolded at what I felt were the right time**, with an adorable and hopeful "**soon-to-be HEA**" on the horizon as the book ended.

Theo and Jamie's book, the first in the series, is still my absolute favorite, but folks, this one came in **a damn close second**, which is nothing to sneeze at in this **feel-good, fun and flirty series.**

This story had **tons of banter**, but not really much of the snark found in Theo and Jamie's story, which was probably why this book came in just **behind** book 1 for me.

I'd rate this one at **around 4.5 stars** and highly recommend it to any fans of the series.

**** Note:** This story is loosely tied to the previous series, so it **'could' be read as a standalone**, but for full enjoyment, I'd recommend at least reading book 1 before this story, as Theo and Jamie did make a cameo appearance here.

My ARC copy of the book was provided by the author in exchange for a fair, unbiased review.

Elise ✕ a.k.a Ryder's Pet ✕ says

??????*Indifferent*??????

The book centers around comic drawer **Zane Penn** (23) and an associate professor **Beckett 'Becky' Fisher** (30). Zane is looking for love of a lifetime, marriage, and to get it before his visa ran out and he needs to go back to New Zealand. Needing a place to stay for his last four weeks left in the country, he ends up living with Beckett. A man who doesn't believe in love at first sight, but has never laughed as much in his life as he's done with Zane and Zane's completely missing what's right in front of his can be more than a *bromance*. But time is running out.

"You're not simple, Zane. You're charming."

"Really?"

A soft laugh. "Charming and ridiculously romantic."

"We all need romance in our lives—know what? You and me? We're gonna be two guy friends who are all about the romance."

"Bromance?"

Zane clicked his fingers. "Exactly."

Intelligent blue eyes met his, creased with curiosity, amusement, and detectable wariness.

"Should I point out we've just met?"

"Hook 'em from the start, right?"

Overall, the story wasn't for me. I felt like Zane was adorable but his clueless was too much. He seems to be living in his own bubble. As for Beckett, he too was cute, but none of the boys took my heart. I didn't feel much for them nor the story. **I felt rather indifferent.** I need characters who are more possessive and demanding to be honest. And more seriousness and more things to happen. Then there was the insta-love. I hate insta-love. But the book was still cute and had me smiling here and there, it just wasn't enough for me to fully enjoy it. I have felt like this for each book in this series except book one.

"My dying would make you mad?"

Beckett stepped up to him and clasped him around the neck. "I'm possessive. I don't like it when others take my things away. I don't like others even looking at my things the wrong way."

Beckett's clear, steady gaze made his toes curl with a flutter. "Am I your possession, Becky?"

A wavering moment, then Beckett steered them toward home. "Our bromance, yes. I'll hold on to that, thanks."

OTHER CHARACTERS:

→ **Jacob**, Zane's oldest brother. His wife, **Anne**. Their newborn baby **Cassie Greenwood**.

→ **Natalie Fisher**, Beckett's mother.

→ **Luke**, Anne's brother and Beckett's ex-husband.

→ **Darla**, an elderly woman and neighbor to Beckett. Grandmother to **Theo** (main character in book one) and **Leone**.

→ **Leah**, Beckett's sister.

→ **Harvey 'Books for Breakfast' Finnegan**, a friend of Beckett.

"A deadline to fall in love and marry. If I'm not 100 percent head over heels, I will go back to New Zealand and stay back. But I'm just . . . determined to be head over heels."

Quick basic facts:

Genre: - (NA? Adult?) Contemporary Romance (M/M).

Series: - Series (Can Be Read As A Standalone), Book Four.

Love triangle? - (view spoiler)

Cheating? - (view spoiler)

HEA? - (view spoiler)

Favorite character? - Beckett 'Becky' Fisher.

Would I read more by this author/or of series? - Yes.

Would I recommend this book/series? - Sure, I liked book one.

Will I read this again in the future? - No.

Rating - 2.5 stars.

????? ? says

Pisces Hooks Taurus: a summary

Fellas...is it gay to walk your best friend to work, and cuddle in bed, and make him breakfast and get irrationally jealous of his ex and generally want to settle down with him in a home you make together because he's the love of your li—*oh shit*.

Heather K (dentist in my spare time) says

I've been struggling a bit with Anyta Sunday recently, but Pisces Hooks Taurus was *adorable*.

If you want a super fluffy bisexuality-discovery story with one hopelessly clueless MC and another who is completely adorkable, then this is your book.

Zane is completely oblivious to his growing romance with his "platonic" new BFF, Beckett (Becky). I mean, clueless to the point where it was almost too ridiculous, but this is a *romance*, not a reality check, and Anyta Sunday seems to be really, really fond of clueless MCs.

The story was slow-burn in terms of their acknowledgement of their relationship, but the feelings seemed to be there almost from the start. Beckett had the patience of a saint, and Zane was a little (a lot) in his own world.

The plot moves along quickly, and there is a lot of witty banter, and (big YAY) some serious heat near the end. Lots of silly misunderstandings, but it was a purposeful comedy of errors, and it was really enjoyable to read.

The ending was super cute, and though this book is part of a series, you'll be just fine jumping in as a stand-alone. Recommended.

Lost in a Book says

4.25 Stars

Holy nerdtastic-wordporn Batman. Seriously, there's so much vocabulary foreplay going on that even I was questioning whether *I* had a kink for hot AF men throwing out alliterations, metaphors, synonyms, and other big words.

Anyta delivers another highly enjoyable slow burn full of adorably endearing characters with a huge helping of big-hearted cluelessness.

Zane's a hopeless romantic that wants to find *the one*. Unfortunately for him, he has to find that special person before his Visa runs out while sweeping them off their feet enough to get married. The meet-cutes aren't hitting home runs and to top it all off, he finds himself without a place to live. The stars align and Zane finds himself crashing with Beckett.

Beckett (Becky) is a divorcee that doesn't believe in love anymore. He's a literature professor that likes to pontificate in duos or groups. Beckett finds himself sharing space with a young Chris Hemsworth look alike that drops innuendo on the regular and doesn't even realize it.

I adore Beckett and Zane together. They're opposites that definitely attract despite Zane's utter cluelessness. Becky has a calming, realist nature that offsets Zane and puts him at ease. The slow burn is intense but not over the top where I was screaming at my Kindle to end the torture. The MCs together are very entertaining and I definitely enjoyed all the moments leading up to the end. But... at the end, I NEEDED more. Because I'm greedy. There's a HEA appropriate for their circumstances but I really wanted a glimpse into the future. *sad face*

I LOVE this series, I LOVE these characters, and it's a solid **4.25** stars for me. Theo and Jamie with their witty snark and antics will probably always be my #1, but this isn't too far behind. Definitely recommended.

Note: The blurb note states that this *could* be a standalone. It can... however, past characters make appearances and IMO reading enjoyment would be at peak levels if the other books in this series were read first.

Copy provided for honest review.

Mirjana **DTR - Down to Read says**

*****4.5 Stars*****

"People can be complicated. We can also be ridiculously simple."

"You're not simple, Zane. You're charming."

"Really?"

"Charming and ridiculously romantic."

I don't know how Anyta Sunday does it, but she manages to make a totally naive and oblivious character absolutely charming and endearing. My dear, darling Zane and his "bromance" with Beckett should have frustrated me, but instead I just wanted to hug him. I sat at the edge of my seat waiting for his "a ha" moment.

This book was sweet and nerdy and fun and touching and hilarious and romantic and full of delicious word porn.

I loved how easily Zane and Beckett's relationship progressed. Their humor and affection and openness to showing each other their vulnerabilities was everything I love about reading romance.

I love how instantly protective Zane was of Beckett and how Beckett wouldn't let Zane get down on himself at the fact that he felt intellectually inferior to most people. He never missed an opportunity to lift Zane up and point out the fact that being book smart isn't the only way a person gets an education.

I love how romantic Zane is, and how Beckett doesn't make fun of him for it. I love how Beckett has plenty of that romance in him just waiting to come out.

Most of all, I love how Zane is a genuinely, down to the core good person with a soft, squishy heart and I really love that Beckett never took advantage of that...and wants nothing more than to take care of that heart and the man it belongs to.

You don't fall in love and just keep falling. You fall, and when the ground catches up, you pull yourself together, climb back to the top of the cliff, and fall again. You do that over and over until you die. I'm not saying hitting the ground doesn't hurt. Not saying that it's an easy climb to the top. I'm saying that it's worth it to jump again."

Anyta Sunday says

We are all fools in love
~Jane Austen

Can I say that I love writing these Signs of Love books?

Can I say that I am excited to share Zane and Beckett with you?

Can I also say that I am *terrified* to let these boys go?

THANK YOU to all my beta and editing team for the work they are putting into shaping this romance. You

are magic.

<3

Who ever loved that loved not at first sight?

~Shakespeare

Wendy says

I have enjoyed each book in the "*Signs of Love*" series, and thankfully that includes this little gem ;) This one can be read as a stand alone, but I highly recommend reading all the books in this series, just because they are great :P

If you are looking for something **adorable, fun** and **fluffy** then look no further !

These two were all kinds of **cute** together and their back and forth banter was pretty awesome, even though Zane's cluelessness had me rolling my eyes a time or two :P

Now I am a big fan of **slow burn**, but not so slow that I want to pull my hair out...Thankfully Anyta seems to know just how I like it ;)

Zane and Beckett are definitely two **opposites that attract** and I loved that.... it's one of my favorite tropes... The whole "Toy Story" scene had me peeing my pants !!

As much as I enjoyed Beckett and Zane's story, Callaghan and Percy are still my fave couple for some reason and I have this feeling, they always will be !!

I highly recommend all books in this series ;)

Ele says

OMG this book! I just feel...

If you 're looking for a coherent review look here or here. This review is just me fangirling all over the author and her story.

This is my absolute favorite addition in the Signs of Love series and I think my second favorite of Anyta Sunday after rock.

I wish teachers stopped correcting papers and homework with red pen. Because for people like Zane, bleeding red x marks describe his whole existence. In school, among family and friends, and in love. At first I thought I wasn't going to like Zane very much, but I quickly found myself rooting for the underdog. So oblivious and naïve but such a funny and hopelessly romantic person.

We didn't get Beckett's POV but it didn't matter for me. His feelings were in plain view. If only Zane saw earlier what we, as readers, did.

I loved the possessiveness and jealousy both MCs felt for each other even when they didn't know where it came from. I loved the banter, the impossible situations Zane found himself in, the UST and the steamy bits (when they finally happened). And I definitely loved the ending.

In case I didn't make myself clear, I loved this book.

Highly recommended!
