Beautiful Nightmare Chrystie Q. Stotz

Who would think nightmares have anything to do with love? Or that a nightmare could ever be beautiful. But when your world has fallen apart, is a beautiful nightmare all you can look forward to?

When seventeen year old, Trystessa's parents die in an accident, she is forced to move to chilly New England, with the only people who would take her, to a town where the best looking guys just aren't normal. Between the high school parties, missing girls, glowing skin and cravings for blood, not to mention nightmares too beautiful to be real and ancient beings known only in folk tales. Can Trystessa find love or herself?

Amber says

Pretty sultry for a ya book. No sex, but a whole lot of um ... shall we say foreplay. It was kind of a fun read, although I was rather disappointed with Trystie, the main character...

Spoilers

...She was kind of tramp. I mean if my mother had told me the perfect man for you will look such and such, with purple eyes, and then you meet this guy who looks just like she describes, with purple eyes no less and you both have this tangible physical reaction everytime you touch. He is everything the teenage girl could dream of but then you go on to let your best guy friend (who has told you he wants you) stay in your room and sleep in your bed and then make out with the evil boy who suddenly shows up and then the other one too. So all in all she is making out with four different boys, I mean I am all for a good love triangle, but that is a bit much. She can't even let her dream boy go over to a girl's house he doesn't even really like to tell her he doesn't have feelings for, because she is worried about what will happen but yet she is ok snuggling up in bed with her best guy friend. Some how that just killed the romance for me between Trystie and Kamdyn. I couldn't help thinking, he deserves better than that.

Would have given it a three if not every male in the vicinity was after Trystie, it was just too much, made her unlikable.

Ariel Miller says

This is the second time I've read this book I really love it I can't wait for the series to be finished!

Justina says

Ugh!!! Where to begin? This is probably just my problem but I do not like love triangles. So when 5 (five) male characters all fell in love with the lead, I almost threw my kindle across the room, then I came to my senses and lovingly laid it on the table. Wait, that's not all. She is confused, she doesn't know what to do since she got naked with most of them, but supposedly nothing happened except a little neck biting with 2 of them. REALLY!!!! I am about as far from a prude as you can get and I love hot & steamy but this just pissed me off.

Right from the beginning I had a problem. The first male she encounters is sweet and very good looking, you knew right off the bat he liked her. Then she meets his best friend who is just as sweet and gorgeous, instant attraction, they touch and it's electric. Soul mate. Here comes stranger # 3 and he's all over her, she feels like she drawn to him, has no control of herself and can't move when he basically attacks, kidnaps, blackmails and forces her to leave her home, boy friend and best friends or else but she kinda likes it, to the point that she encourages intimacy letting him undress her. Enter stranger #4, she needs to know if what she feels for #3 is bonding because of the biting, she asks this one to bite her too. He has to undress her to do it also. Honestly. Well now she doesn't know if she bonded to all of them. Let's not forget evil creep #5. Who happens to be daddy to #'s 2 & 3. Who now wants her and will stop at nothing to have her. OMG!!!!

This would have been a great story, it didn't need to have everyone fall in love/lust with her. There was

enough going on with out having to go there. I was very disappointed beacuse it was so good and then all this ridiculousness started. I normally wouldn't get this elaborate in a review but this just rubbed me the wrong way.

Lori says

Okay, I'm only on page 82 of this 283 page book and I'm having a very hard time getting past the copious amount of grammatical errors. This author desperately needed someone to edit this book!!! I've lost count of how many times she has used the word "than" when it should have been "then" and vice versa. Also "trader" for "traitor". I'm sorry, but for me, this is just lazy, lazy, lazy writing and quite frankly, it is so bad it is now just making me mad. (Yes, in another life, I should have been a copy editor.) Good for the author for following her dream but GET AN EDITOR!!! Please!!!

As far as the story is concerned, I'm probably not far enough into the book to know if I like the story or not. I'll get back on that.

Brittney says

Despite all the spelling errors, and use of words in the wrong tense; I really enjoyed this book. It was well formed, the relationships were built beautifully. There are MANY spelling areas and the use of "threw" rather than "through" and would annoy you if you were a grammar and punctuation nazi, but if you can look past all of that then this a great book. I am constantly searching for books to download on my kindle, and came across this one. I wasn't disappointed! Although I believe the editor should probably never be allowed to edit again after letting this one slip "threw" their hands. The two things I would change about this story is first and foremost the editing!!!! And secondly, tell us what happened to her parents!!! They kept hinting at it, and that drove me crazy! Other than those two things, if you can look past the grammar errors, this truly is a great read!

Alexandria Sides says

Now , I wouldn't say this was a love triangle , because in the end there were 4 BOYS falling over her and one crazy king. So that sums it up to 5 guys falling for her .I see all theses comments saying they hates love triangles and stuff but this book was AMAZING how many books do you come acroos that are like this?! Please someone tell me this book was so unique that itblew my mind away. Yes she was kinda a whore with all this kissing and stuff but that's what alive triangle is and I adore them!! So overall this book is amazing!

Anne says

I shouldn't even give 1 star... One advice for your next book... Keep it to one guy.. Or even two is ok.. You made your lead girl turned to be a slut.. This book is worst than Twilight and I thought nothing could be worst than that but I was wrong. This is not a beautiful nightmare.. It's just plain nightmare!!.....

Lovey Dovey Books says

I hate to say how all over the place this book was; i really liked it. The chapters starting from where Trystie finds out about Kamyden to the end would've been better if that was the focus. I honestly started reading and thought it was a good start but it kind of came to a stand still. There wasn't much forward action until Halo came to town and the murders started.

The groundwork for the relationships should've centered more around Kamyden, Devlin, and Halo since, apparently, they're her 'guys'. As far as I know Jayson is still human so why does he get these strong feelings that don't have great importance in the story?

I really don't understand why the book took so much time to explain how much Jayson felt about Trystie when he obviously isn't important to the outcome of the story. And why, if Kamyden was her 'boyfriend', was there so much throughout the story that barely involved him or not at all. He was there but I just felt like he was put in the background so much even when he is evidently an important factor in the story.

If there is another book in this series, I really hope it's more centered and focuses on what will actually have an impact on the overall story. Although, it wasn't so easy to read I truly enjoyed Beautiful Nightmare.

Ciara says

This is by far one of my favorite YA paranormal books I have read. Trystessa, or "Trystie", has just uprooted from everything she has known because her parents have died and she has to move in wiith their best friends in Connecticut. Used to being the plain jane, she is very surprised to find that she is the shiny new toy at her new school and the object of everyone's affection. We meet Jayson, who although is her neighbor and becomes her best friend, develops stronger feelings then she ever thought imaginable, then there is Kamdyn, gorgeous and unobtainable, or so she thinks until he breaks up with his girlfriend, the most popular girl in school. When she finally gets the guy she wants she thinks all is good in the world until she meets Halo, and then Devlin, oh wait, there's also Corrigan. In this book it is hard to fall in love with just one of these delectable guys and you get to know each one and fall for them all. If only life could be this excitable! LOL I like how Trystie is a strong character, bever falling subject to bullying or dishonesty and always speaking her mind and not taking crap from anyone, even the boys in her life. So it is a little unorthodox to have so many choices to choose from on the dating front but when you see who they all wind up being and what role she winds up playing in the end, it falls into place and begins to make sense. I think everyone should gibe this story a chance, God knows I was sucked in and I can't wait to read the next one!!

Jo says

I'm torn between a two star or one. It had some positives that I did like but the negatives were so great I hardly remember the good! This book is all about foreplay! The girl is a straight up tramp! Skinny diving, sleeping in a bed with these guys (no sex, but no clothing!) come on she is like 16. I think I would have liked it better if maybe she was in collage or something I would never, never let my daughter read this book! I can not believe this is a young adults book! I can not believe someone would write about a child acting like that and want another child to read it!

Honey Palmer says

This book desperately needed an editor!!!!

I didn't feel like I was reading anything new or refreshing. There were so many grammar and punctuation mistakes that I wanted to start screaming! I do not recommend this book.

HOWEVER, there is a ton of potential to this story. The author's writing skills are good but they need to be stronger.

Miss Stotz, don't give up! Keep writing and get yourself an editor.

Dani says

SPOILERS

I would give it zero stars if I could. What kind of crap is this?? Hello, am I the only one seeing what a piece of dog crap this book is? To begin, Trystie (however you spell that tramp's name) is a total slut!!! Ok? Who in the world makes out with three. THREE different guys while you are dating someone?? Let's start with Jason. I liked him for one chapter and then he just got flat out annoying. Coming over to her house all the time, wanting to walk her to every single class. I know he likes her but come on. When Trystie meets Kamdyn and they start dating, she tries to keep it from Jason but eventually he finds out, of course. Then Jason's upset and whatever, boo hoo. Trystie obviously does not understand the meaning of the word relationship. When you are in a relationship, you do not kiss other guys. Ok? Throughout the book she tries to get Jason to understand that they want to be just friends, but he's an idiot and just wants to keep trying. Of course Trystie the slut doesn't mind. Oh noooo. Since she let him kiss her... Twice? And here's the part that pisses me off. If you are trying to get him to understand that you want to be just friends and you want to be with Kamdyn, WHY THE HELL DID YOU LET HIM FEEL UP YOUR SKIRT? WHAT KIND OF B.S IS THAT???? Way to give him mixed emotions. And then Halo comes in out of nowhere, and I feel like he served absolutely no purpose whatsoever. All the idiot did was steal Trystie from Kamdyn and keep her at his house. That is stupid. Trystie was playing along (or so she says) and she wanted to go back to Kamdyn and was going to do whatever it took to do that. So I guess her meaning of 'playing along' was making out with Halo with her bra off. Yup, playing along all right. And will someone PLEASE explain the meaning of Devin who Trystie also made out with (no surprise) what the hell was he doing in the story? As for the whole scene where Trystie was supposed to get married to Halo. Random and pointless and stupid just like the entire book. And then Kamdyn comes and saves her slutty ass and everything's alright, woo hoo. When all is said and done, Trystie stays with Kamdyn who is oblivious to the fact that she is a whore. Then Trystie says she's falling but she doesn't know for who and whatever because she likes Devin as well as Halo while still dating Kamdyn. And the ending was so cheesy. 'I feel so alone' really?

As for the title. She had, like, four dreams or whatever of her making out with Halo and getting the blood sucked out of her. The dreams have nothing to do with the book! I mean seriously.

I also hate that EVERY SINGLE guy she meets thinks she's just beautiful when the author describes her as an ordinary everyday girl. And what was the point of Samana always fighting her? I mean even though that was my only favorite part because someone was finally doing what I wanted to do. Beat her up. As for the characters, they are as boring as is gets.

Halo- some kind of vampire who steals his brothers girlfriend.

Trysite- an indecisive slut.

Jason- a desperate boy.

Kamdyn- an oblivious boyfriend.

Devlin- no comment.

I hated this book. it was awful and a complete waste of my time.

Monique says

I loved this bk. I'm all for the 4 guys falling for the 1 girl. I can see hw it would be hard for her to choose only one they all have characteristics that would make one perfect guy. I really hope that there is a second bk. U can't leave a cliff hanger like that.

Katrina says

O.M.G This book was awful. I wanted to stop more than a few times, but I paid .99 for this thing. Basically this book is about a girl named Trystie her parents die in an accident so she moves to live with some guardians. She meets this guy Jayson right off the plane and he gets annoying really fast. Then she meets Kamdyn and falls in love-ish with him, then theres Halo and she makes out with him randomly too, THEN Devlin ..ugh! This girl is a supernatural whore and maybe she has a competition with Samantha about how many people they can make out with in a span of 24 hours. I HATE love triangles..and this is so ridiculous. I will NOT buy the next book if there is one (I hope it's not true)

Mya says

WOOOHOOO!!!! loved, loved, loved this book!! I dont know any other way to put this, but Trystie is a hussy and I love her for it! So many twists and turns. I never got lost, but I was always trying to guess where it was going and never could. I really hope there are many more sequels to this!!
