The Walking Dead #1 Robert Kirkman , Tony Moore (Contributor)

Rick Grimes, Sheriff of a small town in Kentucky awakes in a hospital. Comatose after being shot while on duty, Rick finds the world abandoned of all things living and is faced with walking undead, who attack him on sight. He returns home to find his family, son Carl and wife Lori, gone. He meets his new neighbor, who points him towards Atlanta. After retrieving supplies from the abandoned Police Station, Rick sets off to Atlanta to search for his family.

Kim says

I am a HUGE fan/ Obsessed fan of the show Walking Dead and I have wanted to start reading the comics for a long time!!! However I am having a hard time finding them! My library was like.. What is Walking Dead? wtf really? ****slap****. I found issue one online. So it looks like I am headed to Barnes real soon here.

? Irena ? says

2.5

Of course I've seen the TV episode first. This short is not bad as an attention grabber, but only if you have the next too. On its own, it's an okay starter to the series.

I think I am the only person alive who isn't that much of a fan of the series (the TV series). This may as well be the way to get into it.

Dustin says

I owe a great deal of gratitude to Stepheny Zimmerman, for convincing me to try this in the first place, eons ago. Most likely, I probably wouldn't have ever tried it, let alone enjoyed it. Thank you, buddy.

Now, having watched *The Walking Dead* a number of times, I thought I knew what to expect, and I was both right and wrong. On the one handle, the comprising twenty-six black and gray pages are nearly identical to the pilot episode. On the other, there seems to be more heart and soul here; more anticipation.

One of the series' recurring themes-humanity itself--takes center stage, superimposing the carnage of the walking dead themselves. Another striking element is the artwork, a lot of which blew my mind and will haunt me forever. Seeing the characters made me realize just how **SPOT-ON** the show's cast truly is. Andrew Lincoln and Lennie James fully personify them as seen here. I can barely process it.

Said artwork of Robert Kirkman and Co. crept up on me, too. I can't emphasize this enough because the first few pages underwhelmed me, but before long, I had passed the halfway point and nearly every panel impressed me in some way or another. I cannot describe the feelings better than that. Looking back on page one, there's some disconnect, as the two look and feel almost like polar opposites of one another.

It was neat to see it all unfold in another medium. It felt akin to magic to behold the immaculate likenesses of Rick, Morgan, and little Duane. Seeing them in general was spectacular, and I greatly anticipate reading this series, which I love even more now. I never it was possible to love and admire the hard work and dedication more than I already did, but somehow I do, and that's a powerful thing.

Now I just really, **really** need the the next issue, and the next, ad infinitum.

Hayat says

This short graphic novel is free on Kindle

I wasn't interested in The Walking Dead graphic novels until **I began binge watching The Walking Dead TV series with my son as a way to get over a bad case of the flue** (I've been pretty sick for two week and wanted a bit of escapism) and also my son wanted to try out this show because his friends loved it so much. That was few days ago and **we just finished watching the second season and I can honestly say, the show is brilliant, the plot is addictive and the character development and relationship drama is fascinating.** I'm getting attached to some of the characters and that makes me nervous because there are sudden twists in the storyline, things go wrong fast, characters die at each turn making it difficult to know who'll make it to the end of each episode and each season.

The TV show is full of nail-biting drama and action but **it also made me curious about the graphic novels that inspired it**, so I decided to try reading this short free graphic book...this is my first comic/graphic novel ever!

This Graphic Novels is free on Amazon and it's a great introduction to The Walking Dead comic/graphic novels and the TV show. It covers only the first day when Rick Grimes (Sheriff from small town in Kentucky) wakes up from Coma in hospital ...

Rick finds that the world has gone to hell, the dead are walking and trying to eat the living

Somehow he has to find his wife and son but in the meantime he needs to learn to survive in this new world. This book sets the scene for all the drama to come and it also adds a hopeful optimistic note in the form of Rick's new neighbour Morgan Jones and his little son.

So far, the adaption from comic to TV is pretty accurate but I'm sure there'll be differences that add to the enjoyment of the plot, world building and characters in each comic and I can't wait to enjoy all that and see my favourite TV show from a new angle and also learn to enjoy reading from a new medium.

I've already got The Walking Dead, Book One full of twelve volumes and I can't wait to immerse myself in The Walking Dead graphic novel whilst watching season three of the TV show.

Inés Izal says

Comienza mi verano de maratón The Walking Dead.

Alex ? Deranged KittyCat ? says

There you go. I read the first issue. I also saw the first episode of the TV series, and that's about it. I have no further knowledge of The Walking Dead, but I felt for a long time now the need to see what all the hype was about.

I like the art even if it's a little different from what I'm used to. We shall see.

Moxie says

This is my first adventure in comic land. I know, I know, someone needs to revoke my nerd card. But, I wasn't sure I would like it. I don't really care for illustrations in my reading. It takes away from my imagination of the situations I'm reading about. But, I'm a The Walking Dead fanatic. From the show to the games, I just love it. So, I figured I would go to where it all began, the comics and guess, what? I liked it. It's something new and different but enjoyable. So give me my nerd card back because I'm off to binge read all these things.

Sarah says

Having watched the last episode in the new series on the television, I was getting major withdrawal symptoms at having to wait another six months before the next new series. So, it hit me that I should give the books/comics a go in the meantime.

I was a bit dubious as I have a kindle paperwhite and had no idea if a comic style book would be any good on it and even more worryingly, am I too old for comics?

I didn't have to worry though. This is one set of comic books that definitely is for adults only. I loved comics as a child and it took me no time to get back into them. Obviously having watched the series first, there is going to be a lot of differences in the comics that the show is based on. To be fair though this issue is very similar though obviously a lot shorter with it being a comic.

Highly enjoyable though and can't wait to read more.

Steven says

Moderately entertaining.

Cathy (cathepsut) says

At first I was a bit confused, because Rick doesn't look like Rick. And then I wanted to smack myself, because the comic came before the TV series, correct?

I really like the black-white-and-grey pencil work. Minimalistic, but great in telling the story. Very good artwork.

Stacia (the 2010 club) says

Yes, I am one of those lame people who watched the show before picking up the comic. Apparently, I wasn't cool enough to realize that this world existed before AMC introduced me to it. Well that, and I can honestly say that I'm fairly new to this whole world of graphic novels, comics and manga. I'm pretty sure that my love of Archie comics as a child (TEAM BETTY!) doesn't count.

This review will have some pics because I want to show what's going on in the book.

Not gonna lie...I find show Rick to be sexier than comic book Rick. I'm sure you find it strange that I'd even think to assess the hotness of a comic book character but I can't help it now that Dimitri Belikov has set the bar high on my pixel fantasies.

Yes, I would tap that - paper or not. Come to me, Dimka.

shakes myself back to reality Where were we? Oh yes, Walking Dead.

I had more fun than I'd been expecting. Comic Rick seems to more "everyday" than his t.v. show counterpart. I kind of liked that. He's just an average suburbia joe waking up to this shithole of a world.

Oh, and he rides a bike! I don't know why, but this made me giggle incessantly for at least a minute.

And is it just me, or did I notice Rick wiping away what appeared to be TEARS on more than one occasion? Show Rick doesn't cry THAT MUCH! No, I'm not counting a certain recent incident where he was ugly-facing it up on the ground over something that should have made him dance in the blood of freshly slain zombies!

I think I'm going to have to read the next comic now to see if Rick cries any more. Okay, well also for the zombies.

[image error]

comic spoiler ahead that was not mentioned on the show! (view spoiler) Thank goodness. I might have felt a little queasy if I'd seen any such nonsense!

Anyway, two mangled thumbs up!

If you're a fan of The Walking Dead but not really into comics/manga, might I suggest a regular (non-picture) book which features a story that could be straight out of a WD episode? ---> The First Days <---- Awesome fun w/a little bit of adult romance in it for people who wouldn't mind a little sexy time along with their gore and zombie killing.
