I'm up to book five of the Discovery! I can't believe how fast I devoured this little series—literally within days!

I actually have delayed writing my reviews because I enjoyed them too much and wanted to savor the story by musing over it and thinking about what to write!

Once again I'll point out a disclaimer on this review (for those that haven't read the other reviews of this series) that while the story is fantastic—the price is a bit expensive for mini-novellas! Hopefully they'll be released in a combined book format at a later date!

Luke finally remembers his name but he has no recollection of his life otherwise. At this point I was getting a little frustrated because things were starting to progress a bit with Meredith and Jonah! Granted, I really felt that Jonah was a bit too pushy and I started to dislike him at this point.

Meredith's baby has been born and life is going on for her. I began to seriously dislike her Mother-In-Law at this point though. While I agreed she needed to slow things down a bit—she was totally obnoxious and possessive of Meredith to the point that I wanted to reach through the pages and give her a good whack!

All in all, I really have loved this series. Some of my frustrations with characters are peeking through in this review but I must say—emotion evoked in a reader is the mark of a good writer! The feelings I have expressed are not a bad thing!

If you can find this little series at a bargain price then they're well worth the read! You won't be disappointed with the story but as I said prior—you may be frustrated if you pay full price for them as they are only around 124 pages long with a \$6.99(ish) price tag!

I received this book free from the publisher through Netgalley. I was not required to write a positive review. The opinions I have expressed are my own

Another good installment in this series. I'm really enjoying the smaller story size, because it makes it a little easier to stop once you've finished one than if you were to just pause in the middle of a book. There were a couple of times I thought something was going to happen, one was with the hot air balloons, but it didn't and I was glad about that. Definitely excited to see how the story wraps up in the last book.

Michele says

On my gosh! She knows how to leave you hanging and ready to get the next installment of the mini-series. Luke has just remembered his name and Meredith is being courted by Jonah.

Debbie says

"A Revelation In Autumn" by Wanda E. Brunstetter is another five star novella.

In this fifth part of the "The Discovery- A Lancaster County Saga" Meredith's baby is born with Laurie's help and Jonah arrives and is able to find a phone shanty and call 911. Nope, not telling the name, you have to read the saga, but I think the name is great. In this story he finally asks Meredith if they can court and she agrees.

Luke, aka Eddie, is released from the hospital and moves in with Susan's ,his nurse, grandparents to help them with chores.

Sadie, Luke's mother, is not happy about Jonah and Meredith at all. Laurie, Meredith's sister, is planning her wedding a missionary trip. So changes are coming for everyone!

Luke and Meredith almost meet again when they are at Paoli to see the hot air balloons! But they don't really see each other because Luke is in the air in a balloon. But Susan and Meredith talk to each other. I was hoping that Luke and Meredith would see each other and get back to being Luke and Meredith. I like Jonah but Meredith and Luke belong together.(just my opinion of course.

Well this ended with a cliff hanger also, what is it about a pocket watch that looks familiar, that is what Eddie is wondering also!

I was given a pdf file copy of this by NetGallery for my honest review.

So they're courting now, and just as Luke remembers his name!!! Oh man, now I really need to find out what happens. I suppose I get why her mother in law is being so over-protective, but as far as they all know luke is gone and there's nothing wrong with Meredith trying to make a new life for herself.

Sara Smith says

More drama and the adventure continues. I'm ready for the final book and to see what happens in this fast-paced series.

Linda Bourg says

Enjoyed the fifth book in this series. At one point i was on the edge of my seat, and just wanted her to recognize Luke, but he was afar off so it didn't happen, that made me sad. But on to the next and final book of this series. I sure hope they find their way back to one another.

Marie Buccellato says

Very good story - Discovery series
Love Wanda E. Brunstetter

Hard To Put Down!

Meredith is worrying about finances. Will she have enough money scraped up to pay taxes when they are due? While she still misses Luke she knows she must get on with her life. Should she move home with her parents and rent out her house? Is that the answer to bringing in extra money?

Jonah is still hoping to win Meredith's heart. Should he let her know how he feels about her? Is it time to ask Meredith if he can court her?

This book ended with another cliffhanger! I can't wait to read A Vow for Always, the last part of this saga. I hope it ends the way I want it too!

This is a book you don't want to miss!

Megan Rang says

Can hardly wait to read the last book in this series!!!

Christine says

I found this book boring and decided not to finish it.

Sarah says

Another amazingly emotional story, can't believe this series is nearly finished I don't want it to end! For a more thorough insight into this series look at my page and read my review on the first book, it has something for everyone:)

Rhonda Gayle says

My Review: This series, A Lancaster County Saga (The Discovery) is a wonderful 6 part series. They can be read quickly and I have fallen in love with the characters. What is hard is that, not only do I like Miriam and Luke, I also like Susan and Anne and their grandparents. I can not tell you much about the actual plot of the story as it would ruin this for readers who have not read this far.

I will tell you that I have a hopeful feeling as I read Wanda Brunstetter's words. She is so descriptive with her writing that I feel as though I am transported to the Lancaster, Pennsylvania Amish community and I am getting a "mini-vacation". I did not even have to pack my bags, just my kindle! This series has made me reflect on times when I have also had both disappointments and grief, as well as joy and peace. How can those coincide? Read the book, A Revelation in Autumn, along with the other 5 parts to the saga to find out for yourself.

I received a complementary pdf version of this book from netgalley in exchange for my honest review.

Melanie says

He remembers his name!!! Ahh, what an ending! I am eager to read the last book to see how everything plays out. Meredith just agreed to start courting Jonah and I know there is going to be drama in the next book when Luke finally remembers everything about his life.

April Wood says

A Revelation in Autumn, by Wanda E. Brunstetter, is the 5th installment in the Lancaster County Saga. I'm starting to panic knowing that this saga is coming to it's end, next book. I truly enjoy this heartwarming story.

In this book, Meredith has her baby in a horse buggy, assisted by her sister Laurie. The baby is born healthy, and she names him after her grandfather, and her late husband; Levi Luke.

Jonah asks Meredith if he can court her, and she happily accepts, much to the chagrin of her mother-in-law.

Meredith and "Eddie" have a close encounter and they don't even realize it. This was a very suspenseful scene. I was sitting at the edge of my seat, biting my nails...

In the end, "Eddie" picks up a memory from looking at a watch that resembled his own from the past. He jumps up and declares he remembers his name is Luke!

I'm looking forward to reading what happens in the final installment. Will Luke and Meredith finally reunite? What will become of Meredith and Jonah, and Luke and Susan? Ideally, Luke will regain his memory, his wife, and unite with the son he doesn't even know he has! What I really enjoy about these

novellas is that they leave you wanting MORE. As with every novella before this one, I look forward to the next!
