Wow Linda! Your book has me excited with some new perspective for another Wisconsin winter, and here I was already feeling depressed at knowing snow is coming next. Your book is incredible. I loved the simplicity of it, as well as the great suggestions for gardening issues, and above all the recipes! Who would've thought at making zucchini pancakes?! Did I say I love you for giving me another way to use one of my favorite veggies? I know many gardeners, and even though I am far from an expert one, I feel there is something for everyone no matter what their knowledge of gardening is in this book. All it takes is someone else's suggestion for gardening for some of us to say, "why didn't I think of that?" Thank you for the awesome book, and the opportunity to share it with others. I will be getting several copies for others for Christmas!

I loved this book. It contained a large mixture of gardening tips, stories, and recipes, and I could relate to so much since Linda writes about living in and gardening in frigid (yet also sweaty) Minnesota. I plan on buying a copy to keep so I can try more of the recipes out. Definitely recommend to other Minnesotans!
