## Poems of Darkness Subhajit Ganguly

'My beloved isn't dazzling light, Darkness is my beloved - The reason I'm so fond of her...' The poet gives his reason for loving his darkness. The all-pervading darkness is primordial, it is something very pure. The poet shows that it is not something to be feared, but to love and to embrace. Darkness is the song of the profound silence, to be listened to and to be enjoyed...

### Elaine Cantrell says

I found Subhajit Ganguly to be an interesting author. In my experience, people with a scientific mind, which as a physicist he certainly has, aren't usually poets, but this author does both. I believe the key to understanding Poems of Darkness lies in the knowledge of what darkness is to the poet. When I think of darkness, I think of something undesirable, but he doesn't see it that way. To the poet, darkness is pure, silent, and good because it speaks to the primordial nature we all still have somewhere deep inside. I enjoyed the opportunity to read his work and found it quite enjoyable.

### CS Patra says

A nice book of poetry filled with all kinds of poems. There's darkness as well as light found within them. Some of the poems did take time for me to understand but once I got them, everything made sense and I saw just what I was reading. The poet has done a good job in picking out which poems to show case. A good read in general, especially for those who love poetry.
