One Little Bite C.C. Wood

After a painful break-up with my cheating ex, I'm ready to flirt with someone who gives me tingles in all the right places. For the first time in months, I'm going to have some fun, no strings attached.

Leave it to me to go from a hot fling to profound heartbreak in one night.

This novella is only the beginning of Ricki and Calder's story. The culmination, Love Bites (Bitten, #4), will be available in Spring 2015.

Amber J. says

This was a hot and sexy quick read that gives you the back story to Rickie and Calder's night of passion. Totally worth reading!

Jessica Frances says

I read this after book three, which is how it is placed on Goodreads, however given that everything is explained and moved on in book three, I recommend reading this one after the second book. I enjoyed seeing what happened on the night in question, and boy do Ricki and Calder have some smoldering chemistry! I look forward in continuing their story to find out how they deal with things between them after the events which took place in the third book. A must read for fans of this series.

Nyce75 says

Calder! Yum! I have to say this was exactly what I wanted it to be. A quick, hot, steamy intro to Calder and Ricki, and it was worth every penny! I absolutely loved it. I don't normally read PNR about werewolves or shifters, but I couldn't get enough of these two. Their chemistry is off the charts, and I couldn't wait to dive into their story, book #4!

Mandy Parmenter says

I voluntarily reviewed this book and I have not been compensated in any way.

Ricki is human and has recently had a painful break-up from a cheating ex but wants (for the first time in months) to flirt with someone who gives her tingles in the right place. However she goes from hot fling to heartbreak in the one night.

It might only be a novella, but I loved this story as it fit very well into the series. It was full of drama and excitement as any story with shifters/vampires is likely to be. It was well written and everything was well explained and I could empathise and relate to all the feelings and emotions experienced by the characters.

phoebess says

One Little Bite ventured into the past and showed us how Calder and Ricki met each other. Or, to be exact, how Calder and Ricki had sex. It was fun but clearly an appetizer. Now I'm ready for the main course.

Natasha says

Great short story for a lead up to Ricki and Calder's relationship. They definitely had some animal magnetism going on there at the beginning and I don't blame Ricki for running off like she did. She's obviously been hurt so many times in the past by cheating men that seeing what she saw naturally she would think the worst. But it was great to read Calder's pov too. It shows how much he really did adore her.

Holly J. Handy says

Good book.

I liked this story because it gave a little more insight into their relationship. I'm glad they were able to work out their differences so they would stay together.

Lisa Lawson says

Donna's human friend Rikki goes to Donna's party looking for some action and found the smoking hot werewolf Calder. One night of passion and a misunderstanding leaves Rikki running and Calder angry and bewildered. A very witty and passionate story.

Phe says

4 Stars - One Little Bite is an adult paranormal romance by C.C. Wood and a novella in her **Bitten** series.

The sexy, erotic prequel to *Love Bites*, **One Little Bite**, which first appeared in the *Shiver Anthology: 13 Sexy Tales of Humor and Horror*, was also eluded to in *Bewitched, Bothered, and Bitten* when Kerry receives a frantic phone call from her friend Ricki after she hooks up with Calder, a werewolf and beta of the MacIntire pack, at Donna and Conner's Halloween party.

Though Donna had warned her that werewolves had a tendency to hook up with two, three, sometimes even four different people in a night, Ricki hadn't listened. She'd thought Donna had been exaggerating. She'd thought that Calder had wanted more than a one-night stand. She'd enjoyed their verbal sparring and his smart-ass remarks. And he'd seemed so interested in her and not just for sex. That was, until she'd woken up to an empty bed and had decided to go looking for him ... and find him she did—shirtless and barefoot with another woman wearing only a minuscule pair of lace panties and sheer matching bra.

Ricki had thought they'd had this amazing connection, so it had hurt that Calder could screw her six ways to Sunday, then go chasing after another piece of ass as though what they had shared meant nothing. Reminding her of all the times her father had promised her mother that she was the only one, and her lying, cheating exes had promised her the same, Ricki does what any self-respecting woman would do and gets the hell out of there.

But in her distress she forgets Rule #1 when dealing with a werewolf: *Never run*.

Though the story ends on a bit of a cliff-hanger, which is to be expected with a prequel, overall, I found **One Little Bite** to be a very entertaining read. Ricki and Calder had a great dynamic and the chemistry between them was off-the-charts hot. With that said, the story is summed up quite nicely in *Bewitched, Bothered, and Bitten*, and therefore not absolutely necessary to the continuity of the series. But for the price ... the author certainly packs a lot of detail into the 12 chapter, 57 page sexy, erotic short story, making it well worth the read!

Content: graphic language, explicit sex and oral.

Stephanie Berrios says

This complete book series deserves a TV show :) whose with me?

Sylvia Schneider says

This is a great intro into Ricki and Calder. It helps us understand why Ricki acts the way she does towards Calder. I look forward to the two of them overcoming their issues and becoming a couple. It should be great fun!

Naughty Mom Story Time says

A quick read and gave me the details of Ricki and Calder's first night that I had been so curious about. I knew that had some seriously hot chemistry and this proves it was explosive from the beginning.

Katy Birch says

Holy.....

This is a novella but chuff me its hot. Calder is one hot dominate wolf that gets you hot under the collar and if you ask me Ricki is one lucky lady. That is until she sees something innocent but under the haze takes it the wrong way and runs. Calder's advice, never run from a wolf....

Teri says

Whew Calder my man my man!!! I love me some Calder. I don't think Ricci deserves him but what can I say. These two are fire and brimstone personified. Love them and that she stands up to him and holds him

accountable for all his silly moves, poor thing hasn't got a clue. Great prelude to them and how they get started and almost end.

Loving this series. Great concept, great writing, great friends, great plot!!

Vanessa says

I love this series!!!

I can't get enough of the bitten series. I love all the the characters. I love the friendship between the women and they are hilarious. I was very excited to read this book because I don't read PNR with werewolves and I loved it. The chemistry between the two characters is amazing. I didn't realize this was a short story when I bought it at only 57 pages. I just about cried when I got to the end! This is a must read series for PNR lovers!
