I love how M.S. Parker has managed to do it yet again, I have no idea how she manages to deliver such amazing stories, but yet this is one of them. I love how each book that you get drawn in because that's what authors want to happen and M.S. Parker can deliver that each time. I knew that this book was going to be good just by looking at the cover and being honest I was actually surprised by the turn of events throughout it.

I love how Sara is such an intendant women, the fact that she has only had her uncle since such a young age pretty much shows how she has grown as a person. The last thing that Sara is expecting was for her to come home to her fiancé and find him in bed with another women and her husband watching them so when she goes mad I honestly don't blame her because she has every right to be mad considering after helping a guy save his life, she then has to do with the fact of losing her one job so yeah it's understandable for her being angry.

Dorian is intrigued by the woman who saved his father, but when he tracks her down after doing his research he isn't sure if meeting her is the best thing for him. However when he does see her he is honestly taken back because he can already tell that she's nothing like any of the girls he's been with, but then again he wouldn't exactly know considering he doesn't want to commit. The sparks are flying between the two of them but with one of them having just come out of a relationship and the other never committing to any women how will things work out? Trust me this is such a good book, which I think you'll just love.

Received this complimentary arc copy from the author for an honest review

Threesthey say good or bad things happen in threes. What a day Sara. Firstly, saving a mans life, losing her job then to top it off, finding her boyfriend cheating on her. What a weird day.

Sometimes, there are silver linings and on this day, due to saving a mans life, results in Sara being offered a job with Dorian Forbes.

A quick, fast paced story of life changing decisions, chemistry, friendships and lust, hot sweaty sex and two people who are just meant to be.

A brilliant novella and wished I could read more about Sara and Dorian. Tyrell was an interesting character too. Maybe more of him in the future.

Loved it all.

Sara Carr just lost her job. Only to come home to find her fiance Gordan, in her bed with another woman while the husband watched. While running in central park she comes across a man who falls to the ground having a heart attack. Sara immediately calls 911 and begins CPR. If she only knew at the time who he was. And how her life would forever change. A very good story. I hope we will come across Dorian and Sara again.

I really enjoyed this short and steamy book! It was awesome to see that 2 people that didn't want love and weren't looking for it.... in the end found it in each other. Sara & Dorian were a good match for one another! I haven't read an M. S. Parker book, that I haven't truly enjoyed! If you haven't read it..... Go get it now!

This is a short story. Saying that I really enjoyed it.
It also has a Bonus with giving you the start of a new book. Relating to the Club Prive Series.
Anyway back to The Client. A short but steamy read. It has the right amount of sexual tension at the start. I love the characters of Sara and Dorian. The way they met. It forces them together. Which you can feel they want but rebel against the idea.
Would like to read more about Sara and Dorian.

Indie Editor Nancy says

As the title states, this book is steamy and short and the characters are interesting and exciting in true M.S. Parker style. Sara finds a man in the park after he has a heart attack, she keeps him alive until help comes. Sara is at rock bottom when Dorian the ex fighter shows up and offers her a job.

"For the first time in a long time, I'd found someone who genuinely intrigued me."

"I wasn't cruel, but I always put myself first. I didn't know any other way to be."

"Maybe I was just an idiot when it came to men."

Excellent writing, the storyline is fresh and original and this book was gifted by the author for an honest review.

Another great book by M.S. Parker!! This one is short and HOT!! I've never read a book by M.S. Parker that I didn't love!

Sara is an independent woman and takes nothing off anyone! Gotta love a woman who takes no crap!! Then there's Dorian who is your typical playboy!! But, who knew when Sara saved his father's life and he offered her a job that sparks would fly!! Will those two give into their attraction? This is a must read, for all! There's a lot of hotness packed in this novella!

Patti Correa says

What a sweet steamy story. What starts out as a jog in Central Park turns into the opportunity and love of a lifetime for Sara Carr.

The day starts off with saving a life and hers turning to crap. Only to become much better a few days later, when the man she saved son comes looking for her.

Dorian is a playboy that needs a new trainer because he cannot keep it in his pants. He has got his eyes on Sara once he sees how she can fight.

These two are hot from the start! 5 STEAMY STARS. M.S Parker Never let's me down.

Monifer says

The Client was a nice quick read. Sara Carr had several unfortunate events that left her without a job and alone. Dorian Forbes is your typical playboy who doesn't get attached. But when Dorian wants to meet the woman who saved his father's life, he never expected to be amazed by her. He offers her a job as his personal trainer. The more time they spend together, the harder it is to deny their attraction to each other. Overall I enjoyed reading this novella.

ARC for honest review.

This book is an amazing two for one deal, in it you get a standalone novella and then book one in a start to another hot and steamy series.

Novella review

Sara Carr on her way to work, sees a man having a heart attack, saves his life and in doing so gets fired from her job for being late. In walks Dorian Forbes hires her as his personal trainer, after he fired his for her getting jealous for him being intimate with someone other than her, and from there sparks fly. For how long with they be able to resist the attraction to one another before they cross a line???

Series book review

Leslie feeling left out that all her friends have met someone and are starting to settle down, and she wants what they have, but why can she not seem to meet the man of her dreams like they have.

Paxton is the star of band and his band includes a back a singer who also happens to be his druggie wife, and when he comes home one night to see what her friends have put his daughter through when they need her bed, he finally realizes its time for a divorce.

Crossing paths with Leslie cause and instant attraction for both Leslie and Paxton, but if they act on that attraction will Leslie still be able to be Paxtons lawyer for his divorce????

Both parts of this book were amazing and cannot wait for book two in Leslie and Paxton's story.

Tracy Grieve says

Wow short and steamy.

Sara is having a bad day after saving some guys life she is now late for work and then she gets fired then she finds out her fiancé is sleeping with someone else and this is all before she has had her morning coffee. Dorian Forbes is a former fighter and now after his father ill health he is running the family business but he has just lost his latest personal trainer and is in need of a new one and when he finds out that Sara saved his dads life he wants her and after seeing her in action he wants her more.

Looking for that something whilst on your lunch break then this is the story and you get book one of Club Prive - Leslie's story thrown in as well.

Jennifer says

I love this author but I will admit to not liking short stories. The reason behind this is I prefer a story to be explained more, ie scenes not jump from one to the next with little to no explanation of how it got there.

I enjoyed this story but due to the reasons mentioned above I could not enjoy it as much as I would have if it had been even slightly longer.

The story is a good one and the characters gel well with one another. The sex scenes are steamy and supporting characters intriguing should they be. Developed further in other novellas/novels.

I received a copy in exchange for an honest review.

Carrie Renteria says

I absolutely loved this novella.

Sara Carr is a trainer that is on a run in Central Park who happens upon a man who collapses. Long story short she performs CPR until the paramedics get there and then goes to work. This story progresses rather quickly. Sara's life changes so fast she goes from having a job and fiancé to having a part time job and nothing else. But when she meets Dorian Forbes and starts training him. Holy Smokes the chemistry between these two is electric. I have to say it was steam that is for sure. The title of this book definitely says it all. It's full of emotion, drama, and some incredibly sensual, sexual and steamy scenes that will heat up your reading.

The Client

Short story, Dorian and his bachelor ways, had given up his fighting days, not a relationship kinda guy, was a one time thing with girls, no attachments. Then his trainer quit, needing a new trainer. Sara had been jogging, came across a man having a heart attack, did CPR, saved his life, then one morning she finds a limo following her, then a guy seemingly trying to catch her, to thank her for saving his dad's life, consequently ends up with a job offer to be his trainer. Hold on, great ride, cute story, loved it♥?!
