New Moon Lisa Kessler

Jaguar shifter Sebastian Severino is an enigma. He lives alone, works alone, and will die alone. But the night he's attacked by a female werewolf, nothing will ever be the same. And when his young niece is kidnapped, Sebastian, the deadliest assassin Nero has ever produced, will be forced to choose a side...

Isabelle Wood has never taken the easy path. As a bounty hunter and now a bitten werewolf without a mate, she's searching for answers to her father's disappearance while helping to lead an Alphaless Pack. The night she gets the opportunity to take out their enemy, with her blade at his throat, her wolf discovers her mate in the last person she can be with.

Each book in the Moon series is a standalone, full-length story that can be enjoyed out of order.

Going into a series on the last book isn't generally advised, but I managed to follow Sebastion and Isabelle's story well, if I had read other books in the series I do believe I would have felt more of connection to the other characters.

Sebastion is a shifter and is the son of the baddie of the series, Sebastion is not the baddie he appears, he attempts to curb his dad's badness where he can.

Isabelle is Wolf shifter, something she chose.

Isabelle gets a shock when she touches Sebastion - she planned to hurt him a lot, but her wolf wouldn't let her as the she-wolf recognized its mate!

This book is a mixture of romance and action and I imagine if you've read the other books, stories are being tied up.

I enjoyed this book but do wish I had read in order just to get that extra bit out of the story.

Diane Vice says

Wow!! I have loved the other Moon Series books that I have read, but Lisa Kessler truly saved the best for last, in my humble opinion! This book is sensuous, sinister, scintillating, and suspenseful all rolled into one. Sebastian has appeared as the heartless assassin in some of the other books in the series, and he has always acted as a puppet for his nefarious father. In this book, I actually got to see the many layers that make up the real Sebastian.

Isabelle hates Sebastian and everything he stands for, and she is tasked with assassinating him. When the time comes, she is not sure she can kill him.

This story pulled me in from the beginning and kept me there through the end. There are twists and turns that I absolutely did not see coming! I highly recommend this book and the Moon Series.

Sissy's Romance Book Review says

Book Review For: New Moon by Lisa Kessler New Moon by Lisa Kessler My rating: 4 of 5 stars 'New Moon' by Lisa Kessler is book 8 in the "Moon" series. This is the story of Sebastian Severino and Isabelle Wood. I have read the last few books in this series but feel this can be a standalone book. Isabelle is looking for answers in the death of her father and she thinks Sebastian's father might be the one to have been involved. So she attempts to attack him to get those answers but her inter wolf won't let her. Isabelle's inter wolf recognizes him as her mate. Sebastian doesn't approve of his father and his actions, so he is always trying to be a step ahead of him. Isabelle's father was actually a mentor for Sebastian and he cared about him alot. Sebastian tries to stay alone and not connected to people because of the tragedies in his life with the lost of loved ones. But Isabelle is calling to all his protective needs and he is fighting his feelings for her. But these two can't fight their feelings for long!"My honest review is for a special copy I voluntarily read."<https://www.amazon.com/gp/profile/A2H.....> <https://www.facebook.com/RomanceBookR...>

I LOVE a good redemption story. Jaguar shifter Sebastian Severino has always been chaotic neutral. Doing what is best for him at the time and let the chips fall where they may. But for the last few books, since he discovered his half sister, he has become conflicted. New Moon may be the last book in this series (pout) but it is a whole new beginning for Sebastian and a large part of that has to do with wolf shifter Isabelle Wood. Secrets come out and justice is done. A really enjoyable read.

Samantha says

This is the first in the series for me and I sorta wish I had read the first 7 to have a better understanding of what was going on.

Sebastian is Nero's best assassin. He does what he has to and no one knows the secrets he's keeping. He doesn't openly defy his father, but he does make it very difficult for him.

Isabelle is a PI and bounty hunter. She's used to going up against the bad guy and getting what she wants. However facing off with Nero to find out what happened to her father isn't going to be as easy as she thinks. When her wolf makes a decision that takes her choices from her....it's going to be a long ride for these two shifters.

Kidnappings, killings, plans for revenge, finding family, and so so so much more. It was quite a great book and I couldn't put it down.

Elizabeth Neal says

Sebastian, a jaguar shifter, has a reputation. Some, okay, most, of it is earned, while the rest is simply because of who he is, as in part of the Nero Organization and son of the leader. He's done some bad things in his life and there are those that only see that part of him, not the good he's done. However, he's about to meet the one person that will truly see all that he hides from everyone else.

Isabelle, a turned wolf shifter, hasn't had an easy life since she and her sister, Raven, lost their parents. When Raven was bitten against her will, Isabelle didn't want her to be alone as had Raven turn her. Since then, they've overthrown the corrupt evil Alpha responsible for it, Raven is now happily mated, and Isabelle wants revenge on the man she believes killed their father. But she never expected who that same man would be to her, nor what that connection would entail.

As the dance, one wrought with danger and intense chemistry, between Sebastian and Isabelle begins, former enemies become allies and Sebastian must make a choice between all he's ever known and the woman meant to be his.

But what happens when it's discovered that Sebastian finally has a weakness and her name is Isabelle? Will

Sebastian and the Reno Pack finally put everything behind them in order to take down their biggest threat? Can Sebastian and Isabelle overcome all obstacles to be together? Or will Sebastian make the ultimate sacrifice to save the woman he loves?

Oh my gosh! It's Sebastian, people. One-click, one-click now! If you've read the previous books in the series, and you should because they're fantastic, plus, you lose a lot of the story without having the whole background, then you know Sebastian and the part he's played in everything. He has enthralled me since first being introduced. It was such a joy to follow his journey toward a much deserved happiness as he meets Isabelle and forges a new path.

****I voluntarily read and reviewed an Advanced Reader Copy of this book.****

My Thoughts - 5 out of 5 Unicorns - I loved it!!!

*****I choose what I read and review based on what intrigues me!! Yes, I got a review copy of this book, but no one tells me what to think, feel, or write about any book! I have bought my own copy of this book and already have the rest of the series!**

The cover is good, but it would be better with his beast as well!

This is the 8th book in the series, but it is the first one I'm reading. I'm not sure what is wrong with me, but I haven't read any of Lisa's books before now. The sad part is I own this whole series. I do plan to fix this problem in the future. This is for adults only due to the violence and steamy content.

Isabelle is pretty amazing especially that she can see past another's shady past and make her own decision on his current actions and trust him. Sebastian seems to have a very twisted past thanks to his daddy. I couldn't put this book down. There is tons of action, back story, and a demented daddy. I loved all of the connections that this book brings to light.

I highly recommend to any shifter fan who loves a good complex storyline with plenty of action! I can't wait to read the rest of the series!

Elaine says

I've been awaiting this novel with a mix of eager anticipation and dread as it is the concluding story in the Moon Series by Lisa Kessler and, whilst I wanted to know what happens, I also didn't want the series to actually end.

I've loved all the previous books and certainly also did this one, too, but that is also tinged with sadness as it feels like the end of an era and I've thoroughly enjoyed 'catching up' on the characters through this enthralling paranormal series and now there are unlikely to be any further updates! Having typed that, I have to say it was great to explore the whole saga through the eyes of jaguar shifter Sebastian Severino and so many puzzles were solved, especially regarding his relationship with his father and his role at Nero, as I read more of this novel. It is such a change to read the story from Sebastian's point of view, especially as he now has the added dilemma of finding his mate to add to the components which make up his complicated life.

This is a thrilling conclusion to an enthralling series and, whilst sad at it now being concluded, this was a fitting finale with the perfect mix of angst, turmoil and romance that is usually found in novels by this talented author. Talk about drama - right from the start this story is packed with it! I'll certainly be rereading the whole series again in the not too distant future and have no hesitation in highly recommending this book and the whole series to anyone who enjoys their mystery/suspense/thriller with a healthy dose of paranormal romance!

I requested and was gifted a copy of this novel via NetGalley and chose to read and review it. This is my honest opinion after reading the book.

Dirty Dayna says

First off I want to thank the author for gifting me this ARC through the publisher. I am new to Shifter books but I enjoy the complete change of story. In shifter books Mates are very much a real and intense thing. I requested this book (initially not knowing it was book 8 in a series) so I could read it and then gush about it to my friend who is OBSESSED with shifter books. I read a few reviews which stated it could be read as a standalone.. and I felt the same way reading it. I couldn't get over the actual words and sentence structures. there wasn't a cohesive thing.

My wolf wanted him , shh I told my wolf
I want him dead, my wolf wants him
I could have killed him but my wolf thinks were mates
over and over again but her character is supposed to be this kickass wolf but internally shes a lost puppy.
strong one minute and weak the next.

it didn't work for me.

Sandy Kelly says

Lisa Kessler is a new author to me, I thought I would try her book because it sounded good. I am so glad I did! This is a series book, which I didn't realize. I have since gone back and gotten those books because this book was so great! This one is about Sebastian and Isabelle. I loved them together from the very beginning! I was hooked from the very first paragraph. Sebastian is a jaguar shifter who is trying to keep people safe from his father's craziness. Isabelle is a wolf shifter who is trying to find out what happened to her father. She is a fierce woman who can see what is behind the walls of Sebastian. I highly recommend this series! There were twists and turns and I loved it all!

Book # 8 in this series Jaguar shifter Sebastian and newly turned wolf and bounty hunter Isabelle . Isabelle is after the jaguar shiftier but she cant kill him hes her mate. After all the ups and down Sebastian leaves his Father (Nero Org) and band with the wolves and his half sisters packto save her daughter and become his own man . A better man with a wolf mate.

Mindy Lou's Book Review says

I'm pretty good at jumping into the middle of a series and for the most part, not get lost. I wasn't necessarily lost in this book, but because of who the main characters were and where the story left off, I highly recommend starting with book one.

The writing was very good. The plot was exciting and lots of good side characters. I liked that the H was an anti-hero. He has done bad things for his father who is not a nice guy. In this book you see Sebastian has some heart and while he can't erase his past, he is working towards keeping everyone safe.

I loved that Sebastian didn't just turn good all of a sudden. He struggled with doing the right thing and still be the person he was with his father. I know once I go back to read book one and work up to this one again, I'll get even more enjoyment out of the story.

Linda says

New Moon is as exciting and intensely gripping as the first book was in this series.

"The wolf demands her mate. But the woman loathes the man."

New Moon by Lisa Kessler is the stunning conclusion of her fantastic Moon paranormal urban fantasy series. This is jaguar shifter Sebastian Severino's and werewolf Isabelle Wood's story. The story is told in the alternating points of view of the hero and heroine allowing the reader to be aware of the thought processes of each. Sebastian has been a villain throughout this series and his redemption will not be easy.

The Moon series takes place in and around Reno, Nevada, home to a werewolf pack whose future has been on a collision course with the Nero Organization. Each installment in the Moon series has been fast paced and action packed. New Moon is the eighth and final book in this series. While all the other books have worked very well as standalones, I would be hesitant to recommend jumping into the series with New Moon as Sebastian's story has been building since the first book. Lisa does seamlessly integrate historical information necessary to newbies so they are never lost, but, honestly, if you can, start with the first book and read the series in order. It's an awesome adventure and you won't be sorry.

Sebastian is the heir apparent to the infamous Nero Organization, a nefarious covert quasi-military corporation, which supplies assassins for hire. The Nero Organization's focus has been on creating the perfect shape-shifting slaughtering machine because killing is their business.

As this story opens, Sebastian has been tasked by Antonio, his father and the mastermind behind Nero, to gather forces to attack and take down the Reno pack. Antonio wants revenge for Damian's, his other son's, demise at the hands of the Reno pack – a death that the Reno pack was forced to execute in self-defense. Sebastian is having second thoughts about this mission as his father has demanded that he also kill Adam, Lana's mate, and Lana's son AND deliver his sister and her daughter, Sebastian's sister and niece, back to his father and Nero.

Lisa has done a great job ingraining a dislike of Sebastian from book one. That said, since Sebastian found his sister mated to Adam, the Reno's pack's alpha, with two shifter children, Sebastian hasn't been as hard-core evil as he was in the first few books. One obstacle to Sebastian's redemption is Sebastian himself as he

has to be convinced that redemption is a path open to him and that he is worthy of being redeemed. Sebastian grew on me as this story progressed. I still wouldn't call him a series favorite, but, I will agree that he has suffered enough for his misdeeds.

Isabelle's life hasn't been easy either. She is a bitten werewolf and works as a bounty hunter. Sebastian is her latest target. She shoots him, but then her wolf won't allow her to kill him. I was captivated by her internal fight with her wolf. Her human side has a strong dislike of Sebastian; Her wolf wants him with every fiber of her being.

Will the couple's love and chemistry be enough to overcome Sebastian's past and to thwart Sebastian's father's plans?

Following please find a few of my favorite quotes from New Moon:

"Making me fall in love with you and then dying would be a dick move."

"I could shoot you in the foot."

"Please do. At least then I wouldn't have to endure this sock humiliation any longer."

"He brought up both hands to hold my face. "I would die for you, Isabelle."

"No." I shook my head. "Live for me."

"I never dreamed redemption would be this good."

I've been of huge fan of Lisa's for like forever. I've read everything Lisa has ever published and I love, love, love her books. She is a storyteller extraordinaire. The entire Moon series has been a wild thrill ride to read. New Moon is as exciting and intensely gripping as the first book was in this series. If you are a fan of paranormal urban fantasies and howling hot shifter romances, I would highly encourage you to check out the Moon series today!

A bit Godfather, a bit Romeo and Juliet. I enjoyed this even though I haven't read the others in the series. Full review coming!

Petula says

Jaguar shifter Sebastian Severino is an assassin for the Nero Organization owned by his father. He has, however over the years come to understand that what his father is doing is wrong. The only way he can see to put things right is by staying at the heart of it.

Wolf shifter Isabelle Wood is a P. I and a bounty hunter. Her target this time is more personal, it's the man who killed her father.

This is part of a series that should be read in order to understand fully what is happening and why.

Trust is the really big issue in this story. Our heroine finds out something she really didn't expect, and that throws everything she believes into a spin. Our hero knows he has done many evil things, but there is a line he will not cross.

A very exciting and action packed story that will have the pages flying past. I loved every page, a great way to round off the series.
