## From Reader Review The Little Vampire Moves In for online ebook

### IL says

Me gustaría haber conocido y leído esta serie infantil cuando era pequeña para saber cuales hubieran sido mis reacciones ¿me habría gustado? Después de primer acercamiento en el 2016 con el primer libro del Pequeño Vampiro, decidí dar una oportunidad a esta serie ( Ya saben! nunca es tarde...) y bueno si bien el primer libro en resumen es un acercamiento general con ese escenario fantástico donde un niño común y corriente se hace amigo de un pequeño vampiro. En esta ocasión ahonda un poco mas en esta gran amistad y una primer aventura, de varias que tendrán.

Si bien el primer libro me gusto, este segundo tengo mis dudas. Todo el libro lo vivi con una frustración constante, como si yo fuera Anton, no solo viviendo en constante angustia por evitar que descubrieran que en su sótano tenia un vampiro, si no también el hecho de que a Rüdiger no parecía importarle del todo los problemas que estaba ocasionando, y su falta de interés en TODO, ni se diga!

Por otra parte, no entiendo muy bien que clase de relación se daría entre Anton y Anna pues se supone que aun son niños, dejando de lado la obviedad de que uno es humano y la otra vampiro. Creo que sus acercamientos corresponden a alguien un poco mas mayor, no se si solo sea cosa mía o alguien mas piense lo mismo.

En general es un libro muy fácil de leer para una persona adulta, para un niños yo lo recomendaría para los que están entre 9-11 años. Es divertido y te tiene a la espera de lo que pasara, aunque después de tantas peripecias la autora corte de tajo, te de la solución y el gran final muy a prisa.

### Fran says

kangen baca seri novel ini

---

### Suvi says

Simply lovely. I have to read the whole series someday.

---

### Hege says

Herlig gjensyn med Anton og Rydiger!  
Moro å lese de samme historiene for ungene som jeg selv leste som barn :)

---

### Soobie's scared says

A dodici anni, Soobie scriveva:

Secondo libro della saga di *Vampiretto*. Bel libro. Vampiretto viene bandito dalla cripta in cui vive e va a rifugiarsi nella cantina di Anton. Guai assicurati.

### **RainbowGirl86 says**

Every single ,little vampire'- novel makes me feel better.

This series since I was 7 years old and I just discovered a few months ago, how many of the stories I haven't read yet.

Even I am 31 years old by now, there is no way, I'd stop reading these books.

At the moment, I am on the last two, I still know from when I made my mum read the stories to me. :)

But I still love it so, so much!

This kind of friendship, the trouble they both are willing to go through to stay in touch. Even it looks like Anton is suffering for Rüdiger (Rudolph?) you always notice every now and then, how important Anton is for the little vampire.

### **Sharon Tyler says**

The Little Vampire Moves In is the second book in the Little Vampire series by Angela Sommer-Bodenburg. I did not read the first book in the series, which might have helped me know about each of the characters and the particulars of this world, but I do not think it had much of an effect of my read. Rudolph, the little vampire, has been banished from his family's vault because of his friendship with humans. He is now living in the basement of Tony's apartment house. Tony is afraid that his parents will find out. While Rudolph is being very unhelpful, the scent of vampire seems to be growing and a neighbor complains about the smell.

The Little Vampire Moves In is a neat little story about a normal boy, Tony, and his not so great friend, the vampire Rudolph. Tony is a bit of a loner, and likes his monster movies. But, for the most part he is a typical boy. Randolph is a vampire, more than a bit self centered, and smells. Yes, apparently vampires literally stink, and seem to be proud of it. Randolph's younger sister is a much more sympathetic character, as she tries to resolve everything and keep the peace. I liked the moments when Tony is introduced to more of Rudolph's home life and the vampire lifestyle, especially a couple action scenes.

I was left feeling a bit luke-warm about The Little Vampire Moves In. I think the series has a certain charm, and might appeal to young readers that are monster obsessed, but it is not a series that I would go out of my way to find or recommend. Although, I have a niece that has a particular love for Germanic authors, and she might get a kick out of trying to read this series in the original German.

The series was originally written in German and translated to English. At this point there are a total of twenty books in the series, and while the first was made into a film at one point, not all have been translated into English, yet.

### **Anderson says**

katalina(me) I love vampires

---

### **April Taylor says**

The Little Vampire (AKA My Friend the Vampire) did a fantastic job of introducing readers to the core set of characters, and this entry greatly expanded the world created by Angela Sommer-Bodenburg.

The Vampire Moves In is more ambitious than The Little Vampire and just as exciting to read again approximately 30 years after finding it in a bookstore for the first time. This series is perfect for children who have an interest in the macabre and adults who collect children's lit.

### **Andrea Montessoro says**

Definitivamente uno de mis favoritos al crecer. Lo descubrí en un closet abandonado en un viaje a Xalapa y decidí darle, como adulto, otra oportunidad.

Es un libro obviamente bastante ligero, un buen cuento para dormir. Y gracias a esta app me enteré que es el segundo de una serie larga de las aventuras de Anton y Rüdiger. Espero un día poder conseguirlas todas.

Súper recomendable para niños.

---

### **Heidi (KosminenK) says**

Synkempiä sävyjä lapsen todellisuuteen, kun ystävyys on pettymys ja aikuiset epäluotettavia tai jopa vaarallisia vaanijoita. Antonille kiehtova vampyyrienkin maailma näyttää kolealta ja julmalta. Onnellinen loppu.

---

### **Daniele Iuppariello says**

l'ho letto mille secoli fa prendendolo in prestito dalla biblioteca! chi me lo vende?!? :)

---

### **Laetitia says**

I didn't enjoy the second book in this series as much as the first one.

---

### **Berfin Kanat says**

Serinin ikinci kitab? da en az ,ilki kadar ?irin. Küf kokan, y?rt?k p?rt?k pelerinleriyle mezarl?klarda ya?ayan vampirleri çok ?irin bulacaks?n?z. ^.^
