Little Family on the Homestead Kara Larson

Thad had thought that he was saying goodbye to Jamie forever when he left eleven years before. Like the Pony Express, their relationship was supposed to die out quietly, gracefully. What he hadn't expected was how much Jamie Boyd and that little patch of Nebraska meant to him, and how much he wanted to spend the rest of his life on that Pony Express station turned homestead.

Eleven years later, and Thad's happier than he's ever been, helping Jamie's cousin raise her five girls and making sure that Patchwork Ranch runs as smoothly as can be. But that all changes when Mattie Alden, the actual impetus that drove Jamie and Thad apart years ago, steps back into all their lives. With Mattie come complications, like men interested in both Jamie's family and the ranch itself. Thad's not the only one who has to make the journey of self discovery, but he's not sure they'll all survive the journey if they have to make it together.
