Carriers in Combat: The Air War at Sea

Chester G. Hearn

Carriers in Combat: The Air War at Sea Chester G. Hearn

Engaging combat narratives from World War II, Korea, Vietnam, the Falklands War, Desert Storm, Bosnia, Kosovo, Afghanistan, and the current Iraq War Razor-sharp analysis of the roles of ships, aircraft, commanders, tactics, and strategy

Aircraft carriers surged into prominence during World War II--mainly in the Pacific, where the U.S. and Japan fought history's greatest carrier battles, like the Coral Sea and Midway. Since then, although there have been no engagements between carrier groups, carriers have played an important role in world events, serving as distant launching pads for attacks on targets around the globe. From the first improvised wooden platforms to today's nuclear-powered supercarriers, Hearn explores how combat experiences have driven the development and use of carriers in the world's navies.
