I've only skimmed over this book so I cannot yet rate it.

Clayton Chase says

Having played extensively throughout every part of Utah, I was surprised how many other gems are left to explore, and I have already started following some of the routes. Kudos to my classmate that put this together - go get it!

Good information

Jill says

Excellent guidebook of Utah's scenic drives. Nice maps show clearly the areas of interest along each route. Definitely a good resource for trip-planning.

Brain says

Having traveled a fair amount of Utah, this really does capture some of the best drives. The information is appropriately detailed enough to get you comfortable with time and safety resources needed to get to/from your destination (or is the journey the destination?).

Vickie says
