Arlyn says

I wasn't sure what to think of the female protagonist after the first two "play with me" scenes in the book but I kept an open mind and read on. Knowing that the author's main characters are typically good-hearted (if a little off-center), I decided to just read it through and let the story unfold in the fashion in which it was intended. The ending didn't disappoint.

I'm in complete awe reading this short but funny,sexy and steamy read!!!

I was intrigued by the title and the description and it was free from smashwords that is why i read it.

It was about Tina, she invited 5 different guys for five days. Each guys have different personalities and different ways to have sex with her.

Tina was a woman who wants to prove something with her husband.

But I was completely shocked with the ending. I was very happy seeing one of my favorite poems at the end. and of course the steamy sex was awesome!!!

A thumbs up for the author!!! I lurvvveeddd it!!! :)

Lisa says

A short book which took less than a hour to read.

I struggled to know what rating to give the book. It would have been higher except for a couple of things. I guessed what was happening after the first page, mainly because there are no condoms used and that the Biker actually left love bites.

A good read though.

Noreen Corrigan says
