When I looked on Amazon checking for new books, I saw this one! The first book was pretty good and I had to read how the story ended! I thought this was another good read! Of course it brought in some other characters I've read about, you know I am not a spoiler so you will have to read the book to understand. Can't read this one without reading the first one.

I was really excited to get into this book because I loved the first book. I was ready to see if Capo and Nae would actually get back together and if nothing really happened between her and Chink in the hotel that night. Capo wasn't ready to forgive Nae for most of the book, but yet he didn't want her moving on at all. Most of the book was the same argument between Capo and Nae. One day the child is his, the next he needs a paternity test. There was a little action thrown in, that I did appreciate. Some characters from another series did make an appearance as well. If you read the first book, I do recommend reading this one, there are no loose ends left.

Nice sequel

Still moving a little slow, we've only progressed another 9 months, but the story is sweet. At this rate the series will be 10 books long, and that's ok because I like the characters lol.

Story was alright considering the errors. I lost a bit of faith in Capo because he didn't come off as a boss like he was supposed to be. The whole Reese thing was a bit confusing because she came out of nowhere with little information on who she was or what she did. I didn't understand the connection with Dirty, Blue, Reese and Capo but I'm guessing they're in other books. The way they went about the BK and Gary situation was by far a silly thought. It was just really unrealistic and left field all I could do was laugh, not to mention all the phone talk then to add emails and...let's just say you'd have to be really young to take it into consideration. After not taking it too serious the story was good. I really want to see what happens with Chink next though with the way Capo did him. Also I want to see if Trouble shows back up and I have a feeling Lani still hasn't learned her lesson.

Hood Love 2

A very heartwarming story about love and family. Now that Capo & Nae have their twin boy and girl babies, let's not start more drama. Chink is still alive and trouble, plus her old childhood friend Shakiesha is Cray-Cray.

Love it

I loved this book Leondra did it again. Book two was just as good as one. Normally book two sucks but she did a great job continuing this series. On to book three I go. Great job!!!

I Loved The Characters Just Not The Writing Style It Seemed Rushed The Author Has A lot Of Potential Though.

Brittney Green says

I love happy endings. I love when relationships can weather the storm! this is exactly what Leondra LeRae brought in this second part.

Capo was upset to find out that Nae lied to him about the whole Chink situation. He did not know how to handle her little white lies; so he left her, pregnant and all. Nae moves in with Boog and is having a hard time adjusting her life without Capo end it. Capo is being stubborn and doesn't listen to the fact that Nae says that she didn't sleep with Chink. Capo loves Nae, but he's scared of being hurt and he's even more scared that the babies might not be his. Definitely don't want to give away the exciting parts, so you will have to see how they navigate through these issues.

I loved the little surprise that the author threw in there about some other characters from another book.
Hmmmm! <3

I really enjoyed this story....I loved the flow of the beginning of the story...How Capo could not let go...I was worried at first...but the further it came along I kind of figured he would work it out...I felt as if Janae should of gave him a dose of his own medicine when it came to the Leah Chic...I gave this story 4 stars because the ending was a little rushed...i would of love to see how her relationship worked out with her mom...as well as some details on her kids that was not shared...It also would've been nice to include his sister in the story as well...but for the most part...I think Mrs. LeRae did a good job...
