Mixed Feelings!

The reason for my mix feelings was the fact I didn't like the ones where you have a girl calling someone daddy (step-dad) and then screw him. It's almost the same as f@k!## your own father. The other stories however, was very hot ahh steamy. Such an amazing writer but could leave the step-dad out.

I so totally enjoyed reading the stories. It is a must read for anyone that is adult and loves the erotic books. Check out some of the authors too! Some have great imaginations and I love that!

Wow I usually can over look grammar errors, but not this time. Some lines I read over a few times and figured it out, other times I couldn't. I knew it WAS short stories but wow didn't know each one was less than a 5min read.

Amber says

I really liked the stories except for the spring errors.

Cassie Hess-dean says

Great read of 10 short stories. Each story has it's own style. Each book was enjoyable. Some even have the potential to become great books;-)

When I started this blog, my intention was to read as many types of books as possible and it seems I may have neglected erotic fiction even though I did read one romantic/erotic book last year. When I came across this, whilst perusing the 100 free best selling books on Amazon, I thought it was a good opportunity to redress the balance. It contains 10 short erotic stories from different erotically named Authors! To be quite honest I don't know a lot about the world of erotic fiction but I have a nagging suspicion that some of the stories are written by blokes and maybe some are written by the same Author. But what do I know, I'm a bloke and consequently I don't think I am the intended reader of this one.

I didn't find any of the stories the least bit erotic in nature. As can be expected none of them are a work of literary genius but more importantly all of the stories lacked any exciting or enticing sensual build up. There was something rather cut and pasted about them and every one of them could have been lifted from a seventies porn magazine. Rather than being erotic each story was just one explicit sex scene to another and even though I am a red blooded male, they didn't do anything for me. And I've been married for 10 years!

I haven't given up on erotic fiction but maybe I will have to chose my next one more carefully. The most erotic thing about this book is the front cover.

Not bad but maybe more for men than women.

Norma says

Only two stories were worth reading. The one about the cop and the other was about the coach.

Jackie says

Not all of the stories did it for me but in a collection of 10 stories you will have some that knock it out of the park and this book definitely does. Great value for money (esp with Kindle Unlimited)! Overall very hot!

Erotic Bundle

Fantastic! I loved every one of these stories. They didn't leave anything to the imagination, which is really surprising and enjoyable.

This anthology includes 10 stories of younger women and older men. The men are teaching the young women what a real man is like. I liked most of the stories. Not all were the same quality and on some the proofreading could have been better. Quick, hot read.

There were a few things I really liked about this Erotica Bundle, 10 Sexy Stories Thank You Our Readers Erotica Bundle. First, I really loved that it was a compilation of stories by various different authors and that they were each focusing on different aspects of male-dominant erotica and second, I loved that each author had a section that included a little bio and directed you where you needed to go to find more work by the same author (brilliant).

I read this while camping with my nephews and I was sorry I didn't have any suitable adult male company after having read it. heheh. It was definitely hot. The short story, "Her Father's Best Friend" by Lolli Love was probably the one I found most erotic out of the whole book. But that's just my personal preference, they were all very sexy (if you like male dominant erotica, if you don't, this probably isn't the book for you).

The most solidly written short story, in my personal opinion, was "Cowboy Romp" by Sky Ashton. I loved the descriptive phrasing used, for instance "In the evening, haze hovers over the fields like a translucent amber blanket waiting to put the crops to bed, tucking them in sweetly before the chill of the night descends over all." and "It's muggy, but a comfortable kind of humid, like natures hug on your sun-kissed skin."

Those types of descriptions are what really draws me, as a reader, into the story. I want to know what it's like to be there, in that place, at that moment...and those kinds of phrases do that for me. I love it! I felt kind of bad for both Kendall & her sister, Carly in that story though. They both seemed like lovely girls who were in for nothing but heartache at the hands of Andrew. I know I'm probably reading too much into it, it's erotica, after all, and it's supposed to be hot (and this story was) but still, I couldn't help but care about the characters and THAT'S what good writing does, even though the story was only a few pages long, I really cared what happened to the characters portrayed. Very nicely written!

The only complaint I have regarding the entire book was that there were several fairly glaring grammar errors, which were probably just missed during proof-reading but they did not detract from the stories themselves at all.

In summation, many compilation stories claim to have 'something for everyone', everyone, that is, who enjoys the generalized theme of the book. This erotic compilation delivers on that better than most. If you like 'male dominant' stories you'll find something to appeal to every taste...then you can follow the trail of breadcrumbs that Candy Young leaves to find more of the same!
