Good repetition for first-readers. Not enough substance for older readers; Still good for little ones.

Lia Keriotis says

Easy to understand, illustration kept in time with the text so you could see what was happening as you read the story.

Erik This Kid Reviews Books says

This is a review done my my little sister Josie. :)

I like that the library in his book has read to a pet day. We are allowed to bring our dog on our bookmobile. The librarians Miss Lydia and Miss Kara give our dog Clyde biscuits on the bookmobile. I think it is funny that in this book biscuit finds his book at the library to read. The words in the book are really simple and I think little kids who are just learning to read will love this book. I liked finding all the pets in the pictures. I like Biscuit books and I think this one is great!

NOTE We got a free copy of this book in exchange for an honest review.

Summary: Biscuit goes to the library!

Why I Read This: It appeared on one of my "best of" lists.

Review: I always liked the idea of biscuit because he's an adorable dog that reminds me of my adorable dogs. This was my first time actually reading a biscuit book, and it was pretty good: simple and clear with good illustrations. I'd definitely recommend it.

OK I have to change my mind Biscuit Goes to School, it is no longer my favorite. Biscuit loves the library has taken first place, because we love the library too! And I love the "perfect book" Biscuit finds. Plus it's at the right level for the 6 year old Little Bug to read by herself.

BISCUIT LOVES THE LIBRARY is at the early First Grade Reading Level. There are 137 words.

"It's Read to a Pet Day!" So girl and Biscuit are off to the library. The library environment is shown as well as other animals that can be pets. It's hard for me not to like this book as it is so Library Friendly.

Besides doing it's service as a primer for newish readers, this book can be used with younger children to show them what to expect when they visit a library. In the artwork we see book baskets, books on shelves, various reading areas, as well as puppets and earphones. The girl points out that the library has audio materials so they can listen to stories.

It's a bit strange to see a fireplace at the library, but I'm sure some library somewhere has one. The only other thing you might have to explain is that they are unlikely to encounter pets. (Though our library does have a good sized turtle.)

Mister David says

I'm not a big fan of the Biscuit books, but I know children who are!

Caryn Caldwell says

It's Read to a Pet Day at the library, and Biscuit and his girl are attending. Together they explore the children's area, looking at books on topics ranging from bunnies to bears to dinosaurs, listening to the audio books, and playing with the puppets. But when they find a cozy spot to read, surrounded by all the other pets and pet owners, their day is made.

Biscuit Loves the Library is a positive introduction to some of the services offered at libraries, and Biscuit's enthusiasm may help motivate some children to make library visits of their own. Those who look closely at the cover will likely be delighted to see that the book Biscuit is reading is also Biscuit Loves the Library. And the dog in that book is reading...you guessed it! Biscuit Loves the Library. As in other Biscuit books, the dog's repetitive "Woof" does become quite repetitive when read aloud, but it can be helpful for beginning readers attempting the book on their own.

Synopsis: *"It's Read to a Pet Day at the library! There are so many fun things to see and do! Biscuit plays with story-time puppets, visits with friends, and listens to recorded books. Before he goes, a librarian helps him find the activity that he loves most of all."*

Biscuit Loves the Library is a My First I Can Read book, which means it's perfect for shared reading with a child. The easy-to-read, joyful tale of Biscuit—everyone's favorite little yellow puppy—will help cultivate a love of books and libraries in children who are learning to read."

My Review: A cute beginning reader book. Munchkin actually was able to sit through the book and enjoy it. He loved making the woof, woof sounds on each page and finding Biscuit. I really hope that I can cultivate Munchkin's love for books, though our library is sadly lacking and we have more books that our library does.

Nick says

This is perhaps the cutest of the series to date, because it is so firmly based in reality.

Biscuit is being taken to the library, which is having a "Read to Your Pet" event. Our own library has a program called "Barks and Books," in which kids can read to a dog. It turns out that dogs are really good listeners, and rarely dispute the contents of the book or the style of the story.

In any case, this book is a good primer on what a library can be like, as Biscuit sees his surroundings with the fresh eyes of a child on his or her first visit to the library. Very clever, and the artist had a lot of fun with the cover design, which is of Biscuit reading this particular book.

Katelyn Agnone says

I thought this book, Biscuit loves the library, was simple and sweet. The book only had a few words or sentences on each page, making this a pretty quick read and simple for new readers. I like that this is a great book for new readers because it shows most aspects of the library and how great they can be. The illustrations were clear, colorful, and straightforward pictures of what a library looks like. I think that incorporating animals into the book makes it even more attractive to children because almost everyone can appreciate the cuteness of a puppy! There weren't any aspects to this book that made me want to share it with a higher grade child. This book would be useful for teachers of a young grade when introducing the kids to libraries and trying to engage them in the activities within them.

Emily (Obsessed Reader) says

So cute and fun for kiddies!

Courtney says

Now, I don't know about anyone else, but my children LOVE the library; however, I can absolutely say with certainty that they would love it even more if there was a puppy there to play with.

"Biscuit Love the Library" is completely adorable, with a tale about children being able to take there pets to the Library so that they can read to them their favorite stories. This little puppy tend to find himself in some sticky situations, but everything always seems to work out for the best in the end.
