Untouched

Amy Marie

Untouched Amy Marie

For over a decade, Nicole Ridley has only been with Brad, her high school sweetheart and husband. Even though her dreams of being a journalist were put on hold so she could care for her four children while he worked his way through medical school, she knew there was a light at the end of this very long—and lonely—tunnel. They always found time for one another until it started to slowly fade away, and then her world was rocked to the core with four words she never thought she'd hear...

"I want a divorce."

Untouched by another and feeling unloved and unattractive, Nicole sets out on a journey to rediscover the strong, desirable woman she once was and knows she can be again.

New job. New house. New sexy as sin boss who has his eyes set on her. And a soon to be ex-husband who realizes he's made a horrible mistake.

Will Nicole give in to the temptation of another man, or will history and love win?

Alena&Karin says

Loved it, strong independent heroine. This is what I want to read? Great book.

Deborah says

I absolutely LOVED this book! Even though it's part of a series, I truly believe it can be read as a standalone!

Marriage is hard work but if you throw in a demanding career and a home filled with children...shudders. Will Nicole and Brad become a statistic? Did their love completely die away? Is there hope? The descriptive writing was real and the dynamics of the storyline were perfect!

An absolute must read!

Talltree says

2.5 stars

Anna VanTheemsche says

Amy is one of the authors I follow and wait patiently until a new release comes out. Untouched did not disappoint and leaves me waiting yet again for another book.

Untouched is a story about young love and what it evolves to. It's not always happy, beautiful and easy. Love is work... especially when you've been together so many years. Amy does an amazing job of reminding us that real love will overcome but sometimes you need a kick in the butt to keep it going. I also love that Nicole didn't just lay down and wait for Brad. She worked on herself. Wives and moms often forget to take care of ourselves. This was a great reminder.

Amazing book. Out of this world author. Must read this series, not just the book.

Lauren Lascola-Lesczynski says

I love Amy Marie...she is easily one of my go to authors.

I also love this series!

Nicole's journey is one I think that lots of women can relate to, which always makes for a better story...in my opinion. She is strong, fierce and she not only talks the talk, she walks it as well.

I know everyone will fall in love with this series just like I did.

Samantha says

I was so excited to read Nicole's story. This book was emotional and had my feelings all over the place. I was never completely sure about what path I wanted Nicole to choose. Amy Marie wrote a very compelling novella and had me eager to see how things would work out in the end. I loved this story and its sexy, emotional plot.

Norma says

Easy read, loved it!

Brad & Nicole fall into the trap of many married couples. Stay at home mom, realized things aren't good. Brad suddenly says he wants a divorce. Never saw that coming. Nicole decides to get a job & chase her dreams she put on hold to support her husband. She's finally happy with herself. Brad sees the change & is having second thoughts. This has so many twists & turns you just can't stop reading it. This story was written in an area I'm personally familiar with & it drew me more into the story because I would remember towns and places. Loved this book & could put it down!

Kim Whitehead says

Fantastic story of forgiveness and sacrifice!! Love always prevails!!

Tiffany says

Okay predictable read
