I hate casual killings and murders onto nameless bystanders, therefore it's quite obvious to assume I dislike zombie stories. Untrue. I dislike zombie stories when the main story is diluted by gratuitous death sequences. This book lost a star for that reason. I just sometimes wish the pop culture fascination would someday go the way of sexual-vampires and get its ass into dormancy.

I hope the ending is a sign that this arc is going to improve. I feel like Harley's character is going backwards.

I think I have a problem with Harley's hair and clothes, the way they are mixed. I like her blond hair with pink and blue, only not in combination with black and red clothes. In the Suicide Squad movie, her clothes were cherry-red and blue. That makes sense with her hair dye. But classic-red and black... they just don't mix well with the hair.

And I really prefer reading about her adventures with the Joker or the Suicide Squad. I'm not convinced by her solo act. And those zombies... Still weird.

Speed-read this earlier at In-N-Out while waiting for my order. This is more like The Walking Dead meets DC Universe!

So much better than I thought it would be! I wasn't a huge fan of the first issue, but boy oh boy, did I enjoy this issue.

I would say that I really appreciate just how radically different this is from all the other DC Rebirth comics I am currently reading. I'm not sure if this would be a fair comparison, considering that I have never read a Deadpool comic, but I almost feel like Harley is DC's call to Deadpool. They're both zany, weird, teen and adult-oriented characters with very bizarre plots and stories, and I love it.

So far, this Harley Quinn run is like a horror zombie show (set in a carnival, so Zombieland, lol). However, I do appreciate that while this is very much a serious life-or-death situation, no one who is being bitten or infected is being turned into Zombies as well. It's a nice change of pace, and I don't really think I would have been up for watching Zombified versions of these characters.

Last issue, I could have cared less about the characters with how they were introduced, but this issue, I absolutely **ADORED** Harley and her cast, as well as her interactions with them. This comic is truly radically different from all the other Rebirth issues I have read so far, and while it's not perfect, it's a hell of a fun B-rated series, and definitely a good start for me with Harley comics.

Oh, and also, Ivy!

Wowza Zombie apocalypse! The plot from the last book escalated very quickly continuing into this one and Harley is just trying to help her area neighbors - too bad they are all zombies and he likes to attack things. This installment was very violent, Harley had to defend herself and maybe had to much fun doing do. It was gritty and bloody and Harley kicks zombie butt (literally). I like this plot because it is funny but I think it is moving very quickly and I am not sure where they are going to go after the zombie situation has passed. BUT as is the norm, I will stick with it.

Me gusta muchísimo que este Rebirth más que mostrar de nuevo los orígenes de Harley, nos muestra su evolución y sigue la trama de los Nuevos 52 que ya conocíamos. En este tomo, Coney Island está siendo plagada de zombies y Harley deberá tratar de ayudar mientras pone a salvo a sus amigos y a si misma.

Im not getting this series and the story is a bit all over the place. I understand Harley is at the height of popularity at the moment with suicide squad but her character deserves better.

Diana says

And still a 1 star because there isn't a 0. We are going back wards with Harley and with the world of comic books and story telling in general. What is this sh*t?

Review: 8.8/10

It's a lot of the same just with a zombie twist. I kind of don't have a lot to say about Harley Quinn the series anymore. It's alright. Some issues are better than others. I will continue reading. But I'm kind of looking forward to a new team picking up this series since it's been more of the same for so long. Or at least a new form of storytelling to be used.

'Harley Quinn #2' by Amanda Conner and Jimmy Palmiotti with art by Chad Hardin is a bit of a chaotic mess, but that's exactly what you want from a story about her.

This story is 'Die Laughing' part two and picks up from the first issue. A zombie plague has broken out on Coney Island and seems to be centered around some famous brand of hot dog. Harley's friend Red Tool has been bitten and in the previous issue, she cut off his arm to stop the spread of infection. This issue is about getting him help and killing some zombies.

Harley Quinn has a group of brightly colored friends. I'm not as familiar with this series, so I don't know what they do. The issue is crazy and chaotic and the zombie killing is more in line with films like 'Zombieland' or 'Shaun of the Dead.' I thought it was a lot of fun.

I received a review copy of this issue from DC Entertainment and NetGalley in exchange for an honest review. Thank you for allowing me to review this comic book.

Utena says

The zombie apocalypse is in full swing.

And the cause of this zombie apocalypse? A runaway adolescent alien who was unfortunately introduced into the food chain via hot dogs on Coney Island.

Now Harley and her gang of misfits are trying to fight to keep themselves alive and also find a way out of there.

But when they find themselves cornered, someone comes to their rescue - Ivy!

It was great seeing Ivy pop up in this issue and that it was she who saved the ragtag band of misfits belonging to Harley.

This issue was fun and drama-filled. Harley seemed to be enjoying herself a bit there as she took down zombie after zombie. I mean who stops for a moment and eats a soft pretzel - only Harley could.

Seriously I am liking this series and I am not a fan of Harley!

I was stuck in a reading funk and decided to give a comic a shot. Little did I know I would become a huge fan of Harley Quinn that I have been devouring all her comics. I love the art and the stories paint her in a light I never expected. I have enjoyed every installment so far and looking forward to reading them all. Highly recommend she's quickly become my favorite DC character.
