## **Of Gods and Fae** Tom Keller

You see plenty of strange things when you're a P.I. in Las Vegas, but even that couldn't prepare ex-cop Robert Hoskins for what was to come. At first he couldn't believe that all those stories he'd been told as a child were true. But hearing that the Fae had taken the casinos over from the mob was something else. Elves, Dwarves, Werewolves and Faeries were just the beginning and battling dark Mages, the opening act.

Having banished his enemy to the cold hell of Tartarus he'll now have to travel to the Fae lands to claim his birthright. Along the way, and after, there's Demons and Dragons to fight and a trip down the river Styx to the gates of Hades itself is on the playlist if he'll want to defeat the dark Fae's minions and undo an ancient curse.

From the author of "Return of the High Fae," this is book two in the Vegas Fae stories but a standalone novel in its own right.

Sin City will never be the same.

Completely re-edited and remastered to address issues brought up in the earlier edition.

## From Reader Review Of Gods and Fae for online ebook

### Jay Collins says

3.5 to 4 stars, I really do like this series/book. I will continue with the series.

---

### Todd says

**The adventures of Robert Hoskins continue. A tantalizing mix of The Lord Of The Rings, Star Wars and Twilight.**

The second book in the continuing adventures of Robert Hoskins. Hoskins is a retired Cop turned PI who learns he has mysterious powers that have been hidden from him for his entire life. He learns that the the only world he has know is intertwined with one he just learned about and both are interconnected yet independent of each other. The reader learns that Hoskins has come to terms with the powers he possess and now is beginning to understand and learn how to use his powers. He begins a quest to free the oppressed and the adventures continue from Mount Olympus to the Gates of Hell.

The characters continue to evolve in this book and new characters are introduced. Hoskins continues to deal with his new found powers and adjusts to being royalty, sometimes with great success, sometimes not so much. The author is able to paint a picture the reader can easily envision. There are dwarves, elves and fairies accompanied by vampire like creatures, werewolves, dragons, demons, gods and more.

This book is well written and very enjoyable. The reader does not have to read the first book in the series to understand this book although doing so will certainly make the reading experience much more enjoyable. I look forward to more in the series.

---

### Raquel says

This was a fun next installment in the series. I enjoyed the plot progression and the way some loose ends from the previous book were resolved. The characters in this series are so enjoyable.

I think this book lacked some of the punch that the first book had. For all the action that was going on, the reading experience didn't carry the same excitement as the first book. That said, I really enjoyed it and look forward to more.

---

### Jcad6169 says

Still flat,not much change between the world building and the fight scenes. Hope the series improves .

---

### **Alan Bisset says**

#### **Top notch**

A fresh take on urban fantasy, really enjoying binging the series, highly recommend. I need to use seven more words ;)

---

### **Sereki says**

Honestly not the best series I have read but its getting better as I go on with the series

---

### **Ricky Tuggle says**

#### **Again, another enjoyable read.**

Mr. Keller has a wonderful imagination. Three stories in this book. I was very impressed how Keller blended each story. This author has test when allows sex to enter the story. It never is extreme or over done.

---

### **Julian Thomas says**

great follow on from the first book. author is getting settled into what looks like a very well drawn out story line. looking forward to what comes next.

---

### **PCress says**

Great read. Love the concept of a "Coming of Age" type of discovery story for a middle aged character.

---

### **michael fultz says**

#### **Fantastic journey**

Absolutely thrilling ride as are high far embarks on the continued adventure trying to put the pieces together,a couple of possible new characters emerge on an excellent story ,very well told with just enough humor.

---

## **Richard Plummer says**

### **God but predictable**

Not a masterpiece or a classic but worth the price and worth buying the next installment.

Anything new is better than old Anita Blake filler.

---

## **Harry Royster says**

### **A sequel that lives up to the first book.**

I'm beginning to like this series more and more. It really should be on tv or at the movies . There is action, drama, romance and intrigue. I'm ready for book 3.

---

## **Lisa Norvell says**

### **Highly recommended**

Hope the third is already done. I have thoroughly enjoyed both books, and sincerely hope that the wait for the next isn't so long!

---

## **Kellie Allen says**

### **Enjoyed It**

The second book in this series flowed much better. It still seemed to have distinct parts as each challenge was met and overcome. Loved all the supernatural mix, elves, weres, dryads, angels, demons, dwarves and a little of each of their stories. I truly hope book three is just around the corner, I really look forward to the evolution of the story. This a light enjoyable read.

---

## **Sue says**

This 2nd book was as good as the first. Sure is amazing what our strong hero can cope with! Also involved in protecting him and the other Fae are a Great Dane (mostly) dog and a black cat that can be a panther. These animals talk to Robert, and the other Fae. It makes it fun and interesting.

Now the troops are going to travel into the lands of the Fae...and Robert will meet those he is set to be King over. Interesting development...with lots of action and plenty of quick-thinking and politics, with myth and legend mixed in nicely.

I am really enjoying this modern day tale of Myth!! Now book three...
