**Her Cocky Firefighters** Tara Crescent

We're playing with fire.

Six years ago, I had a smokin' hot one-night stand with two firefighters. Then I find out they live in Goat, Oregon. My new hometown.

*Awkward.*

The chemistry between us is just as strong as ever, and I can't resist feeding the flames.

*Falling in love? I've been there, done that, got the t-shirt. Never again.*

There's only one thing I want from Sean and Nick.

I want to hit their hydrants. Handle their hoses. Slide down their poles.

*No promises. No lies. Just raw passion.*

But things are about to get complicated. Goat's in crisis. An election is tearing the town apart. An arsonist is on the loose. And the spark between us is growing to a *blazing out-of-control inferno*.

We're about to get burned.

## From Reader Review Her Cocky Firefighters for online ebook

### Renee says

I received a copy of this book to review.

Welcome to the small town of Goat, Oregon. There are so many fun characters that live in this town and I love every second we get to spend with them. Who would have thought though that the hot as sin firefighters that Hailey had a one night stand with six years ago would be from her small hometown of Goat. Imagine her shock and surprise when she finds out. She has no desire to fall in love with either Sean or Nick, both of them for that matter. However, sometimes the heart wants what the heart wants. You just have to read to find out what happens but this book will keep you reading from beginning to the end quickly.

I loved every second of it. Nobody does meange books quiet like Tara Crescent.

After finding out a week before their wedding that her fiancé was cheating, Hailey had a one-night stand with two sexy firefighters. Now she has moved to Goat and is shocked when she learns Sean and Nick live there as well. Sean and Nick are surprised at seeing Hailey again and don't plan on letting her get away again. I loved this steamy ménage read! The characters are great, the sex is hot and the story is fun and entertaining. Plenty of suspense, mystery and emotion to keep you glued to your kindle. I great read!

We once again return to Goat, Oregon, where the town sign reads, "Embrace Your Weird," where the businesses are named Goat Morning, Goat to Eat, and The Nanny Goat. Six years ago, Hailey Martell's fiancé and ex-best friend ran off together. Now her online magazine, Girl Power, is near bankruptcy. Her expenses are through the roof. She just can't afford Portland anymore. When her best friend, Lana, tells her there's a job at Goat Weekly, Goat's local newspaper, Hailey jumps at the chance. But are things ever that easily fixed? Hailey soon learns that Nick O'Sullivan and Sean Keefer live in Goat. What are the odds that the men she had a one-night stand with six years ago, on what should have been her wedding night, would live in Goat? It was the single hottest and most erotic experience of her life. Hailey's never forgotten Nick and Sean. It appears they've never forgotten her either. But Hailey's sworn off relationships. She doesn't believe in love. When Sean and Nick want to pick up where they left off, Hailey offers an outlandish alternative. Can either man even consider it? The chemistry's just as magnetic and irresistible as it was six years ago. But can any of them truly be happy with the deal they've made? As the relationship goes from one extreme to the next, things in Goat get weird...or is that weirder than normal? The local mayoral election hits a fever pitch, and Sean, the local fire chief, is squarely in the middle of the action. Nick's not unaffected either. He's Sean's best friend and a volunteer firefighter as well. To top things off, there's an arsonist loose in Goat. Sean's in danger of losing not only his job but the entire fire department. Hailey, Nick, and Sean have life-changing choices to make. Who's behind the push for a new mayor? Why are they so dead set on closing down the fire department, especially with an arsonist around? Just who is the arsonist? Why would anyone be setting fires in Goat? When the fires threaten lives, just how much will Nick, Sean, and Hailey have to sacrifice to bring the arsonist to justice and save the town from destruction? Can they make this work? Or will everything, including the town, go up in flames?

Tara Crescent is another favorite author. I absolutely love ménage stories, and Ms. Crescent has written another inventive, creative, whimsical installment in this series. It's alternately funny, scary, joyful, heartbreaking, mysterious, and incredibly hot. The plot is well-developed. The characters are eccentric in the best of ways. The setting is unique and offbeat and is the basis for much of the plot's sense of humor. It's very unusual to find a true sense of humor and silliness in such a hot, erotic ménage novel. You'd think it would be hard to take a town named Goat seriously. While it's a funny name, it lends itself to the uniqueness of the story Ms. Crescent's created. It's clear Ms. Crescent has done her research into every aspect of small town life. The physical descriptions of the town, the surrounding countryside, the major cities nearby, are very accurate and detailed. I loved the relationship between Hailey, Nick, and Sean. Each of the three has a very distinctive and unique personality. The three certainly don't seem like they would fit together in any way. But I loved how the relationship took all kinds of totally unexpected twists and turns. The mystery and unpredictability of the story drew me in and held my interest from the first page. I was fascinated from the moment I started reading. I give Her Cocky Firefighters five stars for the very special combination of quirkiness, humor, and hot romance. It's an unusual combination, and one I think Ms. Crescent has done very well.

One final note. Please be an informed reader and consumer! This is an ADULT book. It contains explicit language and sexual scenes. If you don't enjoy this genre, think hard before buying any book you know you won't enjoy. There are book synopses and reviews available on Goodreads and all booksellers' websites. Use these resources. DON'T LEAVE A NEGATIVE REVIEW WHEN YOU KNOW YOU WON'T ENJOY THE BOOK. It's not fair to the author! She works extremely hard to provide a quality work product. If you know you'll object to the book's subject matter before you buy it, you're doing yourself and the author an extreme disservice.

Thanks for reading my review and happy reading!

Thank you, Tara Crescent for giving us another visit in the lovely small town of Goat, Oregon. It has an eclectic group of residents, some are downright quirky, creative names for their stores and their motto is that you are "Encouraged to embrace your weird". :-)) The characters were sexy, and lovable. I enjoyed reading this well written HOT story. It was funny, sexy, fast paced, great characters, mystery, suspense and fires in the Community. Yes! Warm, HOT fires in the bedroom and ones they had to subdue to save a business or take those lovely HOT, STEAMY bodies into a burning building to save someone! The chemistry between Nick, Sean and Hailey is electric! They fit well together but will they overcome their past misgivings about relationships and find a place together? This story has it all!! Tara Crescent continues to give her readers a wonderful story!

Can you say hot, hot, hot! Welcome back to the town of Goat, the last place that Hailey ever thought she would move to. A self proclaimed city girl, who moved to Goat to save her magazine, found herself face to face with the men of her dreams. She'd had a one night stand with Sean and Nick 6 years before, and they were the ones she couldn't forget. When she walked into the bar and came face to face with them again, the years faded away and the passion and longing remained. But will the physical be enough or will love ensue? Another fabulous, fun and sexy read from Tara Crescent!

If you have been following my reviews you know that I am a big fan of Tara Crescent's books, they are not only steamy but they can usually be read in just an afternoon. Her Cocky Firefighters is the second book in The Cocky Series which can be read as a standalone although I highly recommend reading the first book Her Cocky Doctors. So hot you'll need two firefighters to douse your flame, let's be honest who hasn't had a fantasy about a sexy firefighter....or two ;)

After 6 years, Hailey runs into her one night stand again. Nick and Sean! Not wanting to risk her heart again, they decide to be friends with benefits, but that is put to the test in this story. Throw in some suspense and a twist or two and Tara has created a great story with these 3 characters. I was hooked from the first page.

### **Heidi Petersen says**

I voluntarily reviewed an ARC copy of this book.

Hailey is a 20 something year old, who doesn't trust men after her ex and former best friend were having an affair a week before their wedding. Her magazine is about to go bankrupt so at her friend Lana's idea she's taking over her job and moving to Goat to cut costs.

Nick and Sean are best friends, 6 years ago they spent the night with a woman and never saw her again, until she walks into Nick's bar.

I thoroughly enjoyed this book any of Tara's to be fair.

Because rather than give that deluded bitch who started #cockygate any more attention by adding her books I've decided to start buying books from the authors that she's trying to take down. I see a lot of Cocky books in my future but none of them will be written by FH!

Tara I'm very happy that Amazon listened to reason and added your books back to their site while RWA fight this ridiculous trademark issue.

### **Tiblu says**

**Soooo shallow, couldn't even fill a shot glass....**

Dang, I hate the sentence I'm about to type, but here goes ...

I really wanted to like this but .....

Dang I hate it when you really like a book but there just isn't anything to it really, what makes it doubly disappointing is that finding a TRUE M/F/M where all the romantic and sexual is completely centered on the woman isn't easy....too many books that call themselves M/F/M menages are really MMF menages where the men are bi, not the same thing ppl .... just because the women gets the attention sometimes but there is m/m going on, it's soo NOT. THE . SAME.

Soo I was really hopeful.... I'd downloaded the first book with the doctors but this one sounded sooo interesting w/a kinda second chance at romance thing going on I skipped ahead, can't say I regret that choice but yeah....

Ok, you have a quirky lil town in the Pacific Northwest,, two yummy firemen, arson, supposed intrigue, a supposed second chance.... sounds good right ?

Deep sigh, it might have been if the h wasn't a tired bitter cliché , "my man cheated on me! Soo I'll never lie or trust again!" Right, I call it cowardly and ironic for a woman who has the nerve to call herself a feminist is letting a d bag of a man have control over her life choices 6 years on....

Six years ago the man she "thought" loved her left her for her supposed "best" friend , but sadly as horrible as that was instead of using it to make herself better to be she was just bitter... I mean what else can you call it ? Here's a woman of supposedly 28 years is supposedly brave enough to keep trying on a failing business over and over and over but get her heart broken once and that's it ? I call BS! You can't live out your life on this planet and not get your heart broken at least a few times.. it's life it's how we learn... it's how we grow.. But th3 characters here don't grow ... why ? Because this is more like the out line of a story than a true story...

We are told time goes by in this relationship weeks pass, a month passes but we are told not shown... we get see them have "sex" but nothing all that steamy to me, why ? Well where's the steam id there's not chemistry or build or time to get to know anyone or time to build a relationship? Other wise it's just tab A into Slot B... big deal...

There is plenty of upset and angst at time about a supposed election, and some jerk wanting get rid of their small town volunteer fire department, and other little niggles here there like a romance diet years in the making finally coming to a head but sadly it was all build up but little to no pay off...

Every thing was kinda melodramatic and wrapped it's self up mainly off camera just as you were hoping something good to finally halon...

Hailey isn't that bright in my opinions, was stubborn mainly for the sake of it and couldn't be bothered to think past herself to save her live almost ....

Guys were nice enough but the whole story was basically shallow and superficial..... wrapped up way to easily w/out any work or effort on anyone's part...

One moment Hailey almost dies in a fire ?, next she's finally saying "I love you " to them, next it's a year later and no weddings or babies and a complexly HFN ending ...

Never again Ms. Crescent .... never again....

Ps. Hailey had to have always been an idiot because how the heck could your bff and bf be having an affair and you no have even the slightest clue ? The two ppl closest to you and you don't see a thing and your calling yourself a journalist ? Riiiiight!

What else would you expect from a town whose slogan is "Embrace Your Weird?" It means anything can happen, and weird is normal in the little town of Goat. Hailey shared a one-night stand with Nick and Sean, but she wasn't looking for anything more than that. Six years later, she's moved to a new town, never thinking she'd see her hunky duo again. Nick and Sean are firefighters, and they sure know how to burn up the sheets with Hailey! With some twists and turns and some good suspense added into this quirky mix, this was an absolutely fun read!

Dam I love a man in uniform - and Tara gives us two!!! Hailey is trying to get over her heartbreak, starting again in the quirky small town of Goat. Then who would step into her life - two hunky fire-fighters Nick and Sean who set her world alight once but can they convince her their smouldering flames can turn into a blaze of passion and love.

Tara once again spoils us with a passionate and heated romance with a bit of suspense and drama thrown in just to keep things moving. I love all I read by Tara and am never disappointed when she whisks me away with her tales of steamy hot men and their loves.

I wonder what's next.....

Happy moves to Goat, OR to save her online feminist magazine. The last thing she expected was to find that the firefighters and had a one night stand with seven years ago live in Goat, and they want a relationship. Funny, sexy read with one reluctant feminist and two firefighters. This book has some danger and suspense, and I think that makes this an absolutely must read manage romance with a happily ever after. Fantastic book!

I am voluntarily leaving an honest and non-incentivized review of this book.

2 Sexy Firefighters, 1 Hard Working City Girl & A Town Called Goat = 4 1/2 Embrace Your Weird Stars

Her Cocky Firefighters is a seductive and charming menage romance. This story takes place in an offbeat town with interesting characters. The reader will be captivated by the chemistry between Hailey, Sean & Nick and by the storyline. Her Cocky Firefighters has twist and turns, romance, suspense, and humor. The reader will also experience blackmailing politicians, arsonists, and some scorching menage scenes.

Hailey was left heartbroken weeks before her wedding. She was drowning / wipe out her sorrows after learning that her maid of honor and fiance wanted to get married to each other. That night 6 years ago was when Hailey met and had a one night stand with two sexy strangers. Hailey is a writer, who works very hard to keep her magazine, Girl Power, going. After a few setbacks, Hailey decides to take a friends advice and move to Goat, Oregon. This town's motto is "Encouraged To Embrace Your Weird". Goat and the people will be a change and a surprise in more ways than one for this city girl, but Hailey is determined to do what has to be done to save her feminist magazine.

Sean and Nick are friends and firefighters. The men are surprised to see Hailey in Goat. They want to spend more time with Hailey and be with her. Sean and Nick know that she has been hurt in the pas. Since Hailey doesn't want to jeopardize her heart, the three decide to have a friends with benefits relationship / agreement. Will they be able to stay only friends with benefits? Will they be able to find love and a happily ever after?

Her Cocky Firefighters is another amazing read. I highly recommend this book to others. The reader will definitely be engrossed from the beginning until the end. If you want mystery, drama, fun, and steamy menage, then this is the book for you. Two bossy, cocky firefighters who how to handle their woman and treat her right is an extra bonus.

Overall Story - 4 1/2 Stars

Chemistry - 5 Stars

POV - Alternating

Menage - Yes (MFM)

HEA - Yes

Series - Yes, but can be read as a standalone

Cliffhanger - No

Recommend to Others - Yes

I volunteer for an arc. This is my unbiased review. I choose to purchase a copy to show my support for the author.
