The Essential World History, Volume II: Since 1500 William J. Duiker , Jackson J. Spielvogel
Explore world history in a brief, balanced, highly readable overview that examines common challenges and experiences that unite the human past and identify key global regional patterns over time with THE ESSENTIAL WORLD HISTORY. This brief overview of world history covers political, economic, social, religious, intellectual, cultural, and military history integrated into a chronologically ordered synthesis to help you gain an appreciation and understanding of the distinctive character and development of individual cultures in society. You can use the book's global approach and its emphasis on analytical comparisons between cultures to link events together in a broad comparative and global framework that places the contemporary world in a more meaningful historical context.

From Reader Review The Essential World History, Volume II: Since 1500 for online ebook

Terri Lynn says

This, like its companion volume (volume 1 which covers the years up to 1500), is an excellent, well written, colorful college text on World History. For an introductory text, it thoroughly covers the time period and is written in a conversational, easy to read way. For history lovers, it is a pleasure to read and students who take courses with this as the text are lucky.

Salimah says

I absolutely fell in love with this book!! I read it like it was fiction. The writers/editors did skip and skim over a lot of important details, I feel, with some topics. For example, they do not call the Berlin Conference by name. And they mention the 'scramble for Africa' in a passive way. Although they do explain the outcome of this event, it is the moniker here that is important. (Please look up the Berlin Conference if you are unfamiliar. It will maybe blow your mind, move you, or, if anything, compel you to learn more about some part of history that you are definitely apart of).
