The Puppeteer Tamsen Schultz

CIA agent Danielle "Dani" Williamson never stops believing that one day she'll find the man who killed her parents and stole her childhood. And when the nightmare she relives in her dreams is played out in carbon copy and linked to a group the CIA believes is planning a terrorist attack in the US, Dani thinks she might finally have her chance. Detective Ty Fuller loved being a Navy SEAL, but after seeing one too many innocent children killed, he was no longer able to stomach the world of politics, manipulation, and death. Now, as a detective with his local vice squad, he likes to think he's helping kids by keeping drugs off the streets--local problems, local solutions. But when Dani and her team arrive, they bring a case bigger than anything Ty's small New England town has seen in decades, drugs in exchange for weapons-lots of them. And as the case unfolds and the tensions simmer between them, Dani and Ty discover that all is not what it seems. Uncovering a web of manipulation that spans the globe and reaches all the way to the US president, they know the price for justice will be high, risking not just their fledgling relationship, but their very lives.

Vicki says

Likeable main characters, however I found the story a bit confusing, so many names thrown into the mix.

Katherine Otterbeck says

So-So

I rated this as I did because it slowed down and dragged me along in several instances. There were several times when the details became boring. The characters were lively and wonderful as well as interesting which really makes this book. I would recommend this book to friends.

Sherry says

Enjoyed this book very much. The characters were likeable & it had a nice thriller/mystery to it. I would recommend this book to anyone who loves a mystery.

Michele Bekemeyer says

Agent Danielle "Dani" Williamson and detective Ty Fuller are working together to solve a high-profile case. What they find is a tangled web of deceit and manipulation that reaches further than they ever imagined.

If you're looking for a story that will keep you on the edge of your seat, look no further! Tamsen Shultz delivers strong, multi-dimensional characters, realistic (and witty) dialogue and a unique style of writing that you can't help but fall in love with. This is writing at its finest. I can't wait for more!

Joanne says

Loved it...easy read

Kiersten says

Too repetitive about the romantic story line. Didn't finish it

Vicki says

I got 30% through this book and couldn't finish it - it just didn't hold my interest.. I may get back to it some day - I may not.

Marti says

This book could have been quite exciting, but seemed to drag--with a lot of conversation about how Dani's parents had gotten killed years ago, and she obsessed about actually seeing the killer get done in. Perhaps, she has been in the track them and nab them business too long. She has a sister and brother and starts a relationship with one of the guys on her team. Some of this just doesn't seem to ring true. Will Ty come home unscathed? The part about the surprise for Ty is another sort of contrived bit.

Shirin Reum says

The Puppeteer

I really enjoyed this book! Had me on the edge one minute and rooting for love the next! I will read more from this author!!

Rebecca says

This was an easy read and entertaining enough. My main gripe is the end of the book just seemed to come to quickly. It was as if the author got bored of writing and tried to just "get it done." I don't wait to spoil the ending, but if you read it you'll know what I mean.

Jennifer says

Really enjoyed 95% of this book. The characters are interesting people that you want to know more about, the puppet government and espionage are a little conspiracy heavy but believable in the realm of the story. The ending was rushed for me. She did not leave loose ends but seemed like she gathered them all up, tied off the end with duct tape and bailing wire. She left a LOT of the story on the table. It won't stop me from reading the next in the series though!

Barbara Eichler-Cline says

Kick butt & Romance

Enjoyable strong characters and relationships. Plenty of action and suspense. Not my usual read. Nice romance with a gratifying ending.

Sherri says

I really enjoyed the action and suspense tempered with romance. Dani was a strong, accomplished woman and needed some softening. I was drawn to the story and characters and found many excuses to sit and read for a while throughout the day.

Kathryn says

Moved a bit slower than I hoped but this story was really good.
