Decent

My son wasn't all that interested in it, he liked some of the pictures, but that was about it. I thought it was a bit too plain.

Great book

Nice pictures and easy to read. My child loves this book although the numbers should have been written more clearly.

Handbook for Toddlers I like it!

I was excited when I reviewed this book. There are several mini chapters all in one book.

It would have been nice if I purchase this book first. Other books are repetitive book (chapters divided into single books).

This book deal like the old "Teachers Edition.?"

Great colors, well excited book.
