Anna B. Doe

Lost & Found Anna B. Doe

I don't know what I want to do with my life. The only thing I am sure of is that this is not what I imagined my life to be. So, instead of staying and trying to figure out what is wrong, I choose to run away. I choose the unknown. I choose the adventure.

My name is Anabel Majer, and I'm lost.

I have it all—well, almost all: family, health, money, fame, career, women, you name it. The only thing I am missing is a Super Bowl ring—or so I thought until the night everything changed. One night, a small Tinkerbell collided with my life, and I am gone.

My name is William Price, and I found her.

She is everything he wanted.

He is everything she needed to stay away from.

What happens if at the end of the journey you lose more than you find?

4 Stars

This was a great story!

Anabel has moved to the US as an au pair, she needed to get away from her home country and is basically feeling lost and not sure what to do with her life.

Will is a star quarterback and at the top of his game, he can pretty much have any girl he wants but when he sets eyes on Ana he instantly wants her.

Ana plays hot and cold with Will but he sticks with it trying to win her over. He is a brilliant hero to this story whereas Ana it was kind of a love/hate for me.

Cannot wait for more from this group of friends.

Andrea says

After passing her final exam and getting a degree in English, life should be all sunshine and song for Anabel Majer, young Croatian student, but it seems far from it while she sits on a bench in front of her university. Should she continue with school? Or get a job? Or something completely different? It seems like there's no solution that would put a smile on her face. But a simple phone call changes it all – her best friend has the perfect solution. So Anabel opts for something else – she decides to pack her bags and go to the United States and take the job as an au pair. Despite her parents' disagreement masked behind support, Anabel sees this as an perfect opportunity to take a break for a year and, from a pretty far distance, comes to terms with her future and what she wants from it. Shortly after coming to the States, she meets beautiful model Sienna, sister of her boss Lisa, and the two become instant friends. Sienna will take Anabel deep into the world of glamour and party, a world that never interested Anabel because she's just not that kind of girl. On their first night out she will meet him – William Price, huge, beautiful quarterback for the New York Knights, and the electricity will burst. Palpable chemistry will draw them together although Anabel is sure he will be the end of her if she succumbs. Her time in US is limited and he is the golden boy of the NFL, recognized at every corner, rich, gorgeous and desirable. Anabel will make it her mission to fight against this passion while Will will make it his own to make Anabel tear down the wall and become his. The struggle is real, Anabel and Will have a lot of obstacles to overcome, the biggest being her inevitable return to Croatia. Will they overcome those hardships and have their happy ending? There's only one way to find out :-)

I was completely smitten by this book. It's by far the best thing I've read by Croatian author written in English – and I have read a few. Mind you, I'm not the biggest fan of NA romance novels because...well...they tend to be a bit vulgar. Don't get me wrong, I like me some explicit scenes but if they serve the storyline and are well written – Anna has both fronts covered so I really loved it. The storyline, the characterization of protagonists and their development through the story, the feelings, everything is spot

on...and, to be honest, I have a feeling that Anna will be the new (but Croatian) Colleen Hoover...mark my words :-)

Need I mention that this is a must read book for the summer?

Tania's Book Blog says

I voluntarily accepted an advanced reader copy of this book.

This was a cute sports romance. Anabel was an au pair from Croatia when she met hot quarterback William. She didn't even know who he was. The minute William ran into her he knew he wanted her.

William didn't stop at nothing in trying to win her over. Anabel was worn down and eventually stop fighting her attraction. He was all alpha and hot and she was good.

They had a misunderstanding and a moment that will break your heart but their ending was nice.

The secondary characters were just as good; not bad.

Tjaša says

I liked the story and their characters, however, I do think that Anabel exaggerated quite a bit. It's not like Croatia is that far away and especially since William is a famous, rich athlete, there should be no problems in them seeing each other again. There are many long distance relationships happening in the world.

All congrats for writing a book in your second language, although I do think there is where I had a slight problem with, namely, the sex scenes and the sex talk 'rock-hard cock' stuff and putting too many curse words where they just shouldn't be. They just spoiled the vibe of the story for me, I don't think they belong where the author put them.

Overall a nice summer read, with a few details to alter.

Socially Book Nerd says

Will she won't she, if you like a book with lots of chase, then this one is for you. Anabel and Will go back and forth hot to cold. and at times you wish you could shake Anabel, I get it being in a foreign country and working has to be hard for her but, Will is so amazingly paicent.

Milica's Bookshelf says

The book has a potential but... OMG Anabel went on my nerves with stubbornness.. The narration style as well as the writing is perfect but side characters are more interesing than main ones. Can't wait to read Sienna and J.D.'s story!

Crystal's Book World ~ Crystal Cordova says

I really enjoyed reading Lost and Found by Anna B. Doe. The drama was so different than other romance novels that I have come across. The complexity was intense. I was always wondering what Anabel was thinking when she did her best to push William away.

We can get from the Blurb that Anabel is lost in this world. She is from a different country and travels to the US to regroup if that is what you want to call it. She was stuck at the moment of her life and decided to venture off. Little did she know that she was in for a rocky ride. Her life seems to be turned upside down by a hot professional football player. With that being said, you would think this would be part of the Sports Romance genre. There is definitely romance going on, but in Lost and Found, the sports aspect of the book does not overwhelm it. I actually forgot about the football part until I wrote it in this review.

William is the most kindness and caring "jock" that you will meet. He can have any woman of his choice, but his heart stayed with Bel from the moment he first saw her. The anxiety I got when he worked like h\$ll to catch Bel. She would just slip right pass him. I love his loyalty and his attitude that is down right sexy.

There are other characters that play a huge part of this story. You can hear them screaming at you that they need to be heard. So I can not wait for the second book in this series to come out. The angst and the hope I have for these characters was so surreal. Lost and Found is a book that is one-click worthy!

Katja says

I'm not the greatest fan of romance novels but I like Susan Elizabeth Phillips and Nora Roberts (her old novels) and so I do occasionally pick them up when I want something easy to read. I quite enjoyed Lost & Found and found it really amazing that the author wrote a book in English although English is not her native language. So I applaud her for that! The language was really good though there were some minor errors, especially with the commas (too many of them). But other than that I would never have guessed that a non-

native speaker wrote the book.

The story was pretty good, I liked the fact that the main character was from Croatia and she went to the States as an au pair. William was just lovely, the ideal book boyfriend but Anabel got on my nerves A LOT. She kept running away from William and making up some stupid excuses (Croatia is in Europe, not somewhere deep in the jungle, you just hop on a plane and you're in America) and I felt that William was super patient for putting up with that.

Some parts were just too cheesy (seen-them-before) so I just skimmed through them. Siena and J. D. were so interesting I can't wait to read their story! And the girls were adorable. Overall I enjoyed the writing but not so much the story. It was your typical geek-girl-meets-jock-love-story and if it weren't for William the story wouldn't be nearly as good. So again, congratulations on writing a whole book in a language that is not your mother tongue and I look forward to reading more.

"I'm working here Anabel," he says with a goofy grin on his face. "It's nice to see you again. Looks like destiny has something special planned for us."

Will and Anabel pulled me into their orbit from the very first few pages. They had a long road ahead of them, with Anabel being afraid to fall in love with Will, knowing that after her year in the US was up, that she had to leave. But Will being Will, he gave her no choice. He was just so sweet and persistent, that there was just no chance in hell Anabel could survive that year without falling in love with him.

William Price confuses me. He makes me question my sanity. He makes me think about things I didn't think much about before meeting him. He makes me open up, makes me see the girl that is somewhere inside me, and I wasn't even aware of that up until now. He is—just as I remember confessing last night—dangerous for me. For my heart. For my very soul.

I feel for this story and these characters so freaking fast, and I do mean all characters, not just Will and Anabel. The whole bunch of them was amazing, and having read all 3 books in the series, I damn well am gonna miss them.

So yeah, it's obvious I recommend this series. Lost & Found is a slow burn sports/college romance that you'll love. Give these characters a chance because they're worth it.

"Are we just friends Anabel?" I murmur softly. "I told you before, but I guess I'll have to repeat myself: I want you Anabel, not just as a friend, but as a woman, and I'll have you. You can run as long and as far as you'd like, but I'll find you. That's a promise."

ARC provided by author in exchange for an honest review

Such a cute book!

I got sucked into this book from the beginning and I loved every part of it. This is a really sweet, funny, well-written new adult romance. It's great for summer reads.

Anabel is young student, au pair working in the USA and she is lost in this world. She wants to find herself. William is professional football player, gentleman and Mr. Handsome. I love Anabel and William, especially because they're not a typical couple but they are a perfect match. William is one of the characters that you just can't forget. He is perfect book boyfriend. <3 They have their ups and downs, they are lost in themselves. I like this Tinkerbelle nickname. :)

I loved this book so much. Everything about it was perfect: the characters, the story and the ending... I really enjoyed it and would recommend to all. And look at this amazing cover! I couldn't wish for more perfect ending. I love happy endings. What a great start to a series! I can't wait for the next. Anna did a great job...

Citaholicarka says

I was kindly provided with an ARC by the author in exchange for honest review.

I'm a such big fan of jocks or sport romances, and especially if it's about American football. I think it has to do with sports that in our countries/continent are rare or non existent. ?

If you want to meet a perfect book boyfriend than that's what William Price is. He's a jock, tall, ripped, tattooed, gentleman and has a nerves of steel! Cause that's what you need for our lead female character, Anabel.

I'm not a fan of a slow burn romance, I like instant attraction or love. Which is also the case in this book, but also a case of blue balls.

I'm not a big fan of Anabele. Sometimes I understood her and sometimes she was getting on my nerves big time!

You gotta know what you want girl. Will is a saint...but with blue balls. ? Everyone has it's limits and I guess Will had a high level of tolerance, which is hard to imagine for a real guy. So that's why he's a perfect book boyfriend.

Overall, I really enjoyed the story.

So four stars from me and big congrats to the author for releasing her first book. Can't wait to read about Sienna and J.D. ♥?

Rose Strong (Kljuc za knjigu Book Blog) says

I've been given this book by the author in exchange for an honest review.

Today, I'm writing about *Lost & Found*, a debut new adult novel, and the number one in *New York Knights* series by Croatian indie author Anna B.Doe.

Anna created a story about growing up and maturing, about the struggles and questions that all of us who lived a college life could relate to, sooner or later. Who am I? What am I? What do I want to be? Who will I disappoint? Is it all worth it?

What do we do after everything we thought we wanted changes? After we lost?

Who will help us find our way?

And then again, this is the story of taking risks. The step into the unknown. So it gets more complicated. The love is born. Yet again, all the plans, everything changes.

I'm Anna's character. You are too. All of us who changed during the time when we were supposed to know what we were doing, we're all Anabel.

This warm, beautiful love story between two young people who weren't happy with the way they lived, will make you question the power of true love.

After reading the review, I'm sure you still have many questions about both the novel and the author herself, so I'm happy to be bringing you the exclusive interview with Anna B.Doe here:

Sophia says

An Au Pair girl and a Football Star! I love unlikely romances so I was happy to give this one a go.

Anabel is somewhat lost and drifting after school so she agrees to a new opportunity to leave home and travel to America for a job. Will Price is a star athlete and determined to help his team win the Superbowl. He's all in and ready to try for romance when he meets Anabel, but unfortunately, she's skittish and confused so he has his work cut out for him.

Lost & Found is told first person so I had the opportunity to be caught up in both Bel's and Will's head. Gonna be honest here, Anabel tired me out. She was hot & cold, angsty beyond need and I wanted to give her a swift kick in the butt to just knock it off with the attitude. I honestly couldn't see what had her so off-putting with Will. I get that there was an expiration date since she had to go back home to Croatia eventually, but seriously, she liked him and wanted to be with him so why act like Croatia is Pluto or that there's no communication out to America?

But, the redeeming side of the story is Will for me. He's got the hot athlete things in spades, but he's not a

jerk and is well grounded when it comes to his celebrity. He wants a real thing and he sees that in Bel even when she's being frosty or sending mixed signals. I was really cheering him on to get his happiness.

The pair of them had some sizzle for sure. I liked that the author made Anabel a Croatian as a nice change and I enjoyed the cast of characters surrounding Bel and Will especially Sienna.

So, while Anabel drove me nuts until she finally decided to try with Will, I thought this a moderately engaging, sweet, and passionate romance that I can recommend to New Adult and sports romance fans in particular.

My thanks to the author for the opportunity to read this book in exchange for an honest review.
