I've loved Nancy Drew since I was Itty bitty but this definitely wasn't a favorite. It takes place at a dance hall with a dance company and I think maybe that's part of the reason I didn't care for it too much?
Did love the drama/tension between Nancy and Ned though!

All I felt during this book was sadness. Really, what fun is a mystery when you've solved it before page 40? Too predictable. I mean, I still enjoyed the action and all that, but I didn't have as much fun when I knew who had done it. At least I had to keep reading to find out the motives.

Knew who it was from the beginning. Nancy was a little annoying too.

I know Carolyn Keene is a collective of authors and I shouldn't be expecting consistency; but, Nancy Drew Files are my least favourite of the various Nancy Drew series.

I guess it stems from the fact that I've been idolising Nancy Drew since I was maybe 9; in fact she's one first heroes and one of the earliest motivators for my later feminist ideologies. Now, when you take such a figure from my life and make her angst over her chocolate-eyed boyfriend, I guess it just rubs me the wrong way.

Apart from that, my qualms with this particular book:

- 1) It was like a DIY mystery with the solution staring at you in the face even before you reached the halfway mark.
- 2) The motive didn't live up to the shenanigans pulled.
- 3) Please point me to that one building where a guy running around in a black face mask wouldn't be noticed! What? So, you got to do the criminal-ing, but first order of business is to go, change into your all-black, look-at-me-up-to-no-good costume complete with a black face mask?! Come on!

4) Girl be too mean to her rebound guy...In fact, its the writer being too mean to both the rebounds. Subtlety was thrown out the window in their haste to convince me that they're just not as perfect as our perfect couple. Humans are flawed, man; that's ok! Is what I wanted to tell them.

5) I don't know...it just didn't tingle me as it used to... I know that's not a good enough reason, but, I'm the reader and it's my review. So there!

BOTTOMLINE: Well, never thought I'd give my childhood hero two stars; but, I guess that's what growing up does to you... And angsty heroines.

Ned is a douche. Nancy is hard done by.

A Quickie Review

Much like a TV serial, this book series delivers one fun adventure after another. They may be a bit cookie-cutter, but, they're still great reading, and this one is no exception.

Score: 4/5

Kevin says

Not a bad mystery but I had the "how" and "who" figured out way too early (and that was with a 30-year break between readings).

Samantha says

I thought this book was good. It involves the mystery of the stolen Raja Diamond. Ned's new girlfriend is then accused of the robbery. When Nancy has been asked by her ex-boyfriend Ned to solve the mystery to prove his new girlfriend innocent, Nancy gets jealous. Find out who stole the diamond in this non-stop action mystery.

The first book I read when I was seven years old. It's always been very close to my heart, not only because I love ballet but since it was the book that captured my love for literature!

Sarah Tilatitsky says

I was bored, so I read this. If I was still obsessed with Nancy Drew, I would say that I love this book. However, I'm not, so, yeah. This book is pretty good, though. Oh, well. ?
