The Best Lines Nicole Pyland

Eva Dash has her career on track. After earning her Ph. D in Literature, she became a professor at the same college she'd called home as a student. When she loses the only job she's ever wanted, she's forced to consider leaving the only home she's ever really known.

Ember Elliot, the reformed player, has finally committed herself to looking for the right woman while struggling to find herself in other ways. She's tired of being misunderstood by her family and hiding a very important part of herself from them. Being gay isn't her secret. Wanting to be more than just a manager at her family's restaurant is and she's ready to take steps to get what she wants.

The two women meet when Ember does her best to keep Eva from being a notch in another woman's bedpost. They find each other at the time when both of them have lives and careers in flux. It starts with a scribbled warning on a napkin, continues with a tree house kiss and ends with a wall covered in chalkboard paint.

Stephanie Ladue says

LOVED Ember and Eva.

Ember is an ex-player super-genius who warns Eva about a notorious heart-breaker while Eva was on a date one night. That's where their story starts. From there, it is sparks and chemistry flying everywhere while they get to know each other and fall for one another.

I loved Alyssa and Hannah's cameo from Fresh Start, and I loved that they were good friends with Eva, and eventually Ember. One of the things I love about Nicole's characters is that she always makes them very forward and communicative with each other so there's not a whole novel filled with trying to get together with the other person. Her books show them as an actual couple and the trials they go through which is a definite plus in the fluff/cute department.

I love how supportive and eager Eva was of Ember's intellectual abilities, especially since her parents were less than helpful in her youth and adult-hood for that matter. I cannot express enough how much I love these books and characters. Definite Must-Read!!!

Charlie Avocado says

Initially, I thought the book was off to a slow start. In retrospect, it was not, and I apologize for that assumption.

This is my favorite kind of book. Not TOO slow of a burn, that then burns, and keeps burning. Perfect amount of drama that doesn't feel contrived or included for the sake of drama, hotness between the MCs, and HEAs that you may or may not be only 90% certain will happen. LOVE IT. Oh, and LONG. I LOVE a long book, and it's getting harder and harder to find those!

Will be checking out the rest of this series, as soon as I can. Will likely read this one again as well.

Good book

I really enjoyed this story. I loved the different the women were and yet how compatible they were together. It was a fun read.

Jess Heyle says

Amazing. This is the second book of this author that I've read and one of the best books I've found recently. I find it very hard to find reliable authors in this genre where I know I'll enjoy the book but this author is quickly becoming one of them. The story was interesting, engaging and beautiful. The writing was fantastic. The fact that it's on a kindle unlimited is a huge bonus, but I'd have purchased the next book based on this

regardless. I love these type of series that continue but with different characters, so I'm very excited to have found this one!

Cathy Powell says

Hard to get through...

This book took me a long time to get through because it couldn't keep my attention for very long. Usually I would not finish a book like this but I liked the main characters so I pushed through to the end.

Main characters were well developed but plot line was hard to wade through.

The writing was decent so I am guessing it was the storyline that couldn't keep me excited enough to devour the book in a day or two like I normally do.

Jessica Roberson says

Great read, excited for this series

I have previously read two of Nicole Pylands books and really liked them, so I had to check this one out. I was even more excited when I realized the characters from Fresh Start were involved in this book as well. I enjoyed this story very much and I'm excited for this series.

I appreciate that these stories are pretty well edited, and Pyland creates very sweet, touching story lines and characters. I'd live to see more from these characters, but I suspect the next book may focus on Charlie and Hailey. I can't wait to find out!

Another magnificent book by Pryland. Whenever I see her name as the author I jump to read the book. She ranks at the top of my favorite author list. Her books always have so much depth to go with the steamy love they portray. I was not disappointed with this one either. I wish she had as many titles available as Melissa Foster. I would have read them all by now! I am anxiously awaiting her next endeavor.

Arien says

3.5 stars. Definitely better than the previous book I read by the same author titled Fresh Start. There's no insta love here and characters are better developed. The sappiness is also toned down which I appreciate.

This is one of those nothing much happens books where characters fall in love and go about their lives. There is some minor family drama but overall there are no major ups or downs. The book has some editing issues which is why the rating is lowered and the characters are a bit too perfect for my liking. I like 'em flawed and more human than this.

But overall an enjoyable angst-free read with a non-standard story which is always nice. Don't wanna spoil because the blurb also doesn't reveal it.

Michele says

I really, really liked this book. First of all, the author's last name is Pyland. And who wouldn't love to live in a land of pies. I'm not even sure that is how you pronounce her last name, but it's going to be the way I pronounce her last name forever because...well see 3rd sentence.

This is the first book I have read from this author and based on this book alone, I will definitely be reading some of her others. Her writing is excellent with well fleshed out characters who are very believable. And because the characters were so well developed, I felt the love scenes were even more sexy than the usual par for the course I see in lesfic. There was not a ton of crazy action in this book but it had great pace and top that off with 2 wonderful MC's as well as great minor characters, and you get a really sweet, satisfying read.

I preferred, "All The Love Songs." I had difficulty finding it believable that Ember could have hidden her intelligence from everyone until Eva came along. It takes a lot of effort to intentionally put incorrect answers on tests, and to pretend you don't mind that no one else has noticed the most obvious of correlations or conclusions.

That said, I really enjoyed the mathematics, the intelligence of the characters, and overall focus on academia. It's difficult being separated from the norm by standards of deviation. There are few people who can relate or carry on an interesting conversation.

I found Eva more relatable, yet was frustrated that she would get upset with Ember for not sharing what was going on, when she was far worse about the same shortcoming.

The proposal in this story is exceptionally good.

Maze says

Really a 4.5 I'd say

Nicole Pyland is really coming into her own and I'm tremendously enjoying taking this journey with her. "All the Loves Songs" was okay. "Fresh Start" was better. But "The Best Lines" is hands down her best work yet. I really enjoyed Eva and Ember's story. Their struggles, fears, insecurities. Their love. It all felt real and relatable. Some of the novels I've read so far this year the characters have felt forced. Like the authors had to reach a deadline and just said f*** it, there you go, a book. But with this story it's like the author took her time. The characters weren't just thrown together but came together naturally because they were meant to be.

So that was great.

In my eyes this is book 2. "Fresh Start" is not necessary to read first, however, if you want the background between Hannah and Alyssa (because they are mentioned quite frequently in this book) then you may want to start there. But again it's not a must. I'm teaching myself how not to get my hopes up when it comes to series' but I hope the next installment is just as great and focuses on Charlie and Hailey. That would be hot.

vacatedboat says

3.5 rounded up. 'The Best Lines' was more enjoyable, for me, than the author's two previous books even though I did like them both, as well. This one just seems more well developed and the storyline didn't feel disjointed at all. Nicole Pyland is finding her stride and just keeps getting better, so I really look forward to the next in this series. This is a simple and sweet romance. There is no angst and no forced break-up-to-make-up moment, which is always a plus in my world. Really enjoyed this and recommend it to anyone looking for a sweet romance without any unnecessary drama (between the love interests, at least. Family drama, there is a bit of that).

I only have one complaint and it's one that is all too common in the romance genre...I really wish authors would stop using the phrase "attacked her mouth" when referencing a kiss. For me, the imagery is disturbing; I've never had my mouth attacked and I don't think I'd want to.

MD says

I love it.

I blame vacatedboat for this btw, after her wonderful review of Just Tell Her, I have to read this so I could get there, (I need to read books in order)

Anyway, It was worth it, the story was really nice, no insta-love we get to see the growing attraction of the MC, no breaking point at the 80% mark that is always a plus, so it was good read.

Now onto the next.

P.S. These are the perks of being sick on a Monday, lots of time to read.

Alexis says

After reading vacatedboat's review of Just Tell Her I decided to give the series a try and so far i'm loving it.

This first book is a fantastic read if you're looking for something that is well written and has very little to no angst in it. The story is pretty sweet with some moments of fluff thrown in but not too much as to make it unrealistic. As for Ember and Eva, they have great chemistry and there were some surprisingly hot moments between them. It's not all sunshine and rainbows however because there is some conflict between Em and her father but the author does a great job with that relationship and how it progresses.

I'm really curious as to how book 2 will turn out. I'm such a sucker for the 'in love with my best friend trope'. Fingers crossed it will be just as good if not better. This ends in a very satisfying 4,25*

Natalie says

This is going to be a long one. Apologies in advance. So, I've read this book a while ago, pretty much right after it came out, but only now reviewing it. Because honestly... I fell into a re-reading rabbit hole, and decided to reread *Fresh Start* (since Alyssa and Hannah are heavily featured in this book) and *All the Love Songs* (since I love that book to pieces and have already reread it at least 4 times by now). Anyway, back to *The Best Lines*. I think it's fair to say that at this point (three books in) I'm a major fan of Nicole Pyland's writing. The characters were so well developed; you could tell Eva and Ember fell in love because they truly understood each other, and not because it's a lesbian romance novel and the author decided they are gonna fall in love "just because". Their relationship is one of my favorites among fictional characters. Plus, the side characters were not bad themselves. And by not bad I mean they really made a difference to the story and were at times hilarious in the situations they were put in. This story has everything you could look for in a lesbian romance: romance, of course, passion, tension, conflict, humor, hilarious friends that don't get in the way of the main story. To summarize it all: I LOVED IT!

By the way, I think *Fresh Start* and *All the Love Songs* were reuploaded. Since I didn't notice the small typos that were there initially. It's nice to know that miss Pyland cares about their readers' experience and improves upon receiving feedback.

Read her books, girls. You won't regret it if you like characters to be real and relatable.
