From Reader Review The War Stage for online ebook

Sandra G Apostolos says

High octane series

Andrew Watts knows how to develop a fast paced espionage story with believable political, military and intelligence characters. Excellent and entertaining read!

Bill Powers says

The War Planners series is an excellent military-techno-thriller story! Highly recommend!

Alex says

Excellent book

This book is full of action, drama and intrigue. It is easy to read and hard to put down. I am looking forward to #3.

Thomas J. Archer says

Repeat

This book was very disappointing it was a complete repeat of the first book the war planners book 1 which I enjoyed but thought book two would be new and exciting but not a repeat all that was done was changed the cover and title it's what I would call a ripoff.

Roger says

The War Stage is my second read from author Andrew Watts read immediately following The War Planner. A well developed, well-written story that takes off like a jet from an aircraft carrier. The primary characters are well-developed over the course of the book, the lesser characters not so much. By the end of the book the author had me looking forward to the next book.

Marcia says

The plot thickens

I normally do not enjoy war time stories, but this one is highly engaging. The plot takes several twists and turns and has a few surprises for the reader. I am getting ready to read the next book in this series.

Ryan Hillis says

A so-so thriller about bitcoin and Dubai!!!

Liupua Andrew Sunia says

Juicy stuff

You will love the family angle. Now adding a whole new angle in the mix: spy stuff. Totally clandestine. New hero stepping up.

Bonnie Sogoloff says

I'm only reading the next new book to see what happens to Lena. Crazy laughable plot suitable for tv.

Lydia says

Loved it!

Jan says

Still no end. On to book 3.

Mark Mckinnon says

Great book! This book starts off before the first 3 books in the series to provide more background on what is going to happen and builds up to the point where the first 3 books end. Andrew Watts has done an excellent job with the series so far and I am looking forward to reading the next book in the series when it comes out. Great job Andrew!

Randy Massicotte says

Riveting

I had a hard time putting down! I was on the edge of my seat the whole time. I can't wait for the next chapter to come out

Simon Sobo says

Roller coaster

Book two in this tremendous series is nothing short of a roller coaster. You don't know who you can trust and nearly everyone is untrustworthy. This book is also like a maze, you're going in one direction and then the story pulls you in another direction. Lots of fun, these books. I HIGHLY RECOMMEND this series!

Chaplain Stanleigh Chapin says

A continuing story

The description of Dubai was excellent having been there in the 1970's and then later during the massive construction boom and then again a few years ago, a sight to behold. The storyline was interesting, but not quite believable.
