Illustrated Goetia: Sexual Evocation Aleister Crowley , Christopher S. Hyatt , Lon Milo DuQuette , Daniel Pineda (Contributor) , David P. Wilson (Illustrator) , Peter Conte (Contributor)

This new edition of the Goetia features an introduction explaining Goetic Magick. Goetia refers to all the operations of that Magick which deals with gross, malignant or unenlightened forces. Goetia is sometimes thought of as a wild card, something that can get out of control, something which expresses the operator's lower desires to control others and improve his own personal life. And, in fact, this potential loss of control, this danger, the desire for self-improvement and great power is exactly what attracts many people to the Goetia while horrifying and repelling others. Crowley's Goetia is brought to life by David P. Wilson with vivid illustrations of the Goetic demons, while Lon Milo DuQuette and Christopher S. Hyatt bring the ancient art of Goetic Magick to life in the modern day. Christopher Hyatt joined with Lon Milo DuQuette and David P. Wilson to glean extraordinary magical and philosophical treasures from this most misunderstood subject.

Illustrated Goetia: Sexual Evocation Details

From Reader Review Illustrated Goetia: Sexual Evocation for online ebook

Torey says

An absolute must-have for Demonolators and Ceremonial Magicians. I especially enjoyed the preface materials and the presentation of the manuscript is understandable and easy to follow.

Chris says

Not the best book about Goetia out there but you could certainly do worse. DuQuette's usual flair and personal stories are there making it very readable. I especially enjoyed how he categorized the equipment into must haves and things that were nice to have.

Amanda says

I appreciated the chapter presenting that evocation of a Goetic spirit can be used to help with the under-developed parts of the individual. We always hear that self-knowledge is essential, and finally here is a hint at a tool. Only a hint, and pity the author had to insult Jung while referring to the usefulness of his character-analysis system. This idea could have been developed into a whole book and not specifically Goetic.

The summaries of the Banishing Ritual, Bornless Ritual, Enochian Keys and signs were fine, though simplified and incomplete. They're better explained elsewhere. I appreciate the suggestion of replacing longer processes in the grimoires with the Bornless Ritual. The breakdown of the ritual structure is clear and easy to understand. In my opinion, for a first evocation, it would be worth doing a complete, long ritual working. Someone inexperienced should learn the Banishing and Bornless Rituals for those rituals' own values.

The illustrations were not especially evocative. The chapters feel like they're written by different people and are uncredited, with different perspective and writing styles. It feels like poor editing, not like a collaboration.

The uses of sex magick for evocation extraordinarily risky and is not well thought-out in the brief chapter explaining the process. Frankly, it may be possible and intellectually understandable but it's a crazy idea in practice, especially considering that in the chapters before, an author wrote about all the extreme emotional mind games that came up in response to the evocation. For crying out loud, NO.

This book was given to me as a gift, probably picked up at a used bookstore. I read it because I wanted a very basic intro to Goetic evocation, and to understand why someone would want a Goetic familiar, and the book did indeed help with that. I'm glad I read this before other archaic volumes.

Jesse Winslow says

I read this because I was curious as to what the whole Keys of Solomon thing is about. This book basically goes through the steps of how to summon a demon, but it is obviously a bunch of malarcky. Although I did enjoy reading it a bit more than some other Christian Mythology, which is really what this is... Christian Mysticism and Mythology.

Aaron Meyer says

An interesting take of the Goetia. Not sure if all the illustrations were worth it but heh still enjoyable.

Edric Unsane says

The Illustrated Goetia features a lot of sound advice on working with the Solomonic Spirits and I found it to be highly useful. That being said, and as always, I wish that DuQuette didn't come off as pompous and callous as he does. He's a brilliant magician, but his writing comes off a bit cringe-worthy.

Valenfore Alestreneon says

A very good insight on the Goetia. I'm not a big fan of Lon Milo Douquette's obsessive tendency to assert bull*** on the subject of Daemons being "of the psyche", yet, for some reason believing in an objective creator God (yet, just the opposite seems to be the case. The Daemons are objective and the "God" is the cop out explanation for not understanding what's going on.) Yet, the other Authors don't let him get away with it, while still respecting his opinion (AKA Jewish monotheistic biases).
