Pleasure Palace Evangeline Anderson
In The Future, Pleasure Has No Limits...

Peace Control Officer Shaina takes on a dangerous off-planet mission: to infiltrate the infamous Pleasure Palace on Syrus Six. Ready when you are. Tyson, her commanding officer, just so happens to be the sexiest guy in the galaxy.

Now they'll have to pose as a wealthy mistress and her obedient slave. And Shaina wants nothing more than Tyson's hot, sculpted body against hers, his hands on her skin, his touch branding her. Controlling her desires will be impossible. But she has to surrender to the intense pleasure only he can bring her. Tyson's sensual skills are out-of-this-world...

nurmawati says

yah begitulah...isinya begini-begitu doang...cuma sukanya, co nya bener2 cinta sama ce nya..sementara ce nya kadang annoying banget.....
ceritanya ttg officer di planet apa gitu yang nyamar jadi mistress dan slave buat nyelamatin anak counsellor apa gitu yang di culik dan di jadikan pleasure slave....

Bridget says

Story had an interesting twist but dialogue became pretty mundane and uninspired. Sexy at times but just boring at others. If I hadn't also been reading Charlaine Harris, whose gifted writing is so wonderful, this may not have looked so dull.

Gale says

Read in 2010.

Lyndsey says

Sci-Fi is a new genre for me but I'm finding that I really enjoy the idea of space travel and aliens... a little romance doesn't hurt either. In the Pleasure Palace we meet Ty and Shaina who are Peace Officer partners and extremely attracted to each other. After accepting a mission to save a lost boy, they travel to Pleasure Palace where they must act as Mistress and slave until they can leave. This adventure causes our characters to address their feelings and open their minds to new possibilities. Will they make it through this mission as just partners or lose their hearts??? I guess you have to read the book to find out! Happy Reading.

Jane Stewart says

Ok story, but I didn't like the heroine.

I was also angry with the author toward the end, which I describe below under spoilers. Several ideas in this story reminded me of some previously published books written by Jaid Black: The Empress' New Clothes and stories set in the underground Viking world. The ideas were good, but Jaid Black did them better. Some ideas that were similar were: humans sold on the auction block as pleasure slaves or wives, a world that required women to wear see through clothing, and sex acts in public being the norm and expected. I have no problem with authors writing about similar characters and plots, for example, there are thousands of books about vampires and werewolves. It's just that in this case, I kept thinking about the way Jaid wrote.

CAUTION SPOILERS:

I did not like Shaina, the heroine. She is a recently trained cop. She volunteers for undercover work, but she is incompetent at it. She loses her weapon on her first assignment and needs to be rescued by Ty (the hero). On her second assignment, she almost blows her cover due to being nervous (pg 109 & 114). She is a virgin. She is shy, embarrassed and nervous about sex. She knows she must do sexual things in public for this assignment but she keeps saying to Ty "please don't hurt me, you won't hurt me will you?" She reminds me of a shrinking violet growing up in the 1950's. Not at all appropriate for a cop. She is so irresponsible that she forgot to get her birth control shot before their trip. This was a mandatory birth control law and not just personal preference. She and Ty had to do something sexual in public to keep their cover. It is recorded and played back at breakfast the next day for all the guests, which is normal on this planet. She is embarrassed, and again almost blows her cover. She immediately leaves the room, and this means Ty doesn't get any breakfast. She is inconsiderate toward Ty. On another occasion, she does something to Ty which turns him on, then she says to him in her shy way "I'm so sorry I don't know what got into me" (pg 81). Shaina and Ty have been injected with symbiots which means they can read each others' thoughts. Shaina desires Ty physically, she knows that he knows this, yet she keeps denying it out loud to him. This is lying for no good reason. I did not enjoy reading about her.

I was angry to see this author using one of my pet peeves: creating conflict through vague communication and inaccurate assumptions. After Shaina and Ty return from their mission, they separated because each one thought the other didn't want them. Ty later explained that he was afraid he would scare her away if he admitted his feelings. Shaina said "I thought you thought of me only as a coworker" (pg 276). This was so unbelievable! They were injected with symbiots so they could read each others' minds. They were having sex. Each one risked his/her own life to save the other. This author had no respect for her readers.

DATA:

Sexual language: strong/erotic. Number of sex scenes: more than thirteen. Setting: in the future on earth and on planet Syrus Six. Copyright: 2007. Genre: erotic science fiction romance.

Raina Collins says

Wow! So damn hot!

Ms. Anderson knows how to make some of the hottest stories. I'm never disappointed with any of her books. And this one is steaming and a great romance. The chemistry between the two main characters is great. And just love how the ending went.

Cindy says

Quick read with a 'going undercover as a slave boy/slave girl' plot. Hero thinks the assignment is cool until he finds out HE has to be the submissive...

I had some real problems with the plot - the two of them are offered huge amounts of money to rescue a kidnapped son of a politician - but are not given the time or intel they need to have any real hope of doing so. Of course they do manage to pull it off with many difficulties and lots of stops for sexual interludes along the way. Average read.

That DamnCanadian says

Such a fantastic book!

Love alien off world books, and this one was perfect! Lots of drama, hot sex and a sex slave world, this author has a wicked imagination and I look forward to reading other books by her, well worth the cash, you won't be disappointed ?????? 5 stars!!

Brooke says

Evangeline Anderson's books never cease to be amazing! Loved this book and I can't wait to read more of her books!

Danielle Thomas says

Older book. Ok read.

Nicole McCabe says

I give this book 4 stars just for making me laugh out loud so many times. It was so cheesy yet so steamy. I very much enjoyed this book.

seton says

PLEASURE PALACE (2007) published by Aphrodesia and **IN THE HALLS OF THE PLEASURE PALACE** (2004) published by Liquid Silver are the same story.

Lindsey says

This book was hot! Five stars, definitely-don't-read-in-public hot! An erotic romance that actually has a somewhat interesting sci-fi plot mixed in with the expected mind-blowing sex scenes. I highly recommend. Just take my advice ... read this one at home. The cover alone should tell you to take it off the family room bookshelf and put it in the bedroom's nightstand drawer!

Brittney Wallace says

I love this book, have read it over and over. there's something about it for me that's just sensual. the fact that they can communicate through their thoughts just creates a steamy scene in my head for submissive moments.

Teresa says

I'm a little bit torn here...the sex is HOT, the language coarse enough to elicit an immediate reaction- that's the good part. Ty is a pretty good hero, not drop dead gorgeous, but rather good.
Shaina is a pain in the neck...they sent HER on this mission? Somebody has to be fired, and it's not only her. She is naive, annoying, stupid as hell...cringe-factor extremely high.
The story is not great literature, but very well readable, and the ideas are not altogether bad.
Entertaining read with GREAT sex and a weird story, okay, but not outstanding.
And Shaina- is unnerving, to say the least.
