Many people fondly remember this book. Nancy loves to play Nurse, but her older brothers are always too busy with their big boy games to play with her. One day, when brother Billy falls and hurts himself, Nurse Nancy is at the ready! This lively, charming book from the 1950s is still fresh today.

**** spoiler alert ****

Nancy anak yang sangat manis. Dia suka bermain peran menjadi perawat. Tapi sungguh dia menjiwai permainanannya (dan pada dasarnya Nancy memang anak yang sangat manis nan baik hati). Saat ibunya terluka, Nancy merawatnya. Saat kakak dan teman-temannya dikejar lebah, Nancy menolong mereka. Lalu Nancy merawat luka kakaknya. Kakak dan teman-temannya yang tadinya tidak mau bermain peran bersama Nancy akhirnya mau bermain dengannya. Mereka semua menyukai permainan baru mereka sampai Nancy kewalahan melayani pasien yang antri minta diobati :D.

Oh, my sexist nostalgia strikes again! No wonder, after I had read this, that my mother complained I wanted to be a nurse rather than a doctor. But really, which was more appealing: Doctor Dan the Bandage Man, or Nurse Nancy? (I wanted to be a nurse to take care of people, what can I say. Of course my legs-- and my grasp of chemistry-- would never stand for it, so here I am a librarian.) Furthermore, when I read the biographies of Clara Barton as a middle schooler (Clara being one of the standard female subjects of dated biographies!) I realize I pictured her rush to the assistance of her injured brother as similar to Nurse Nancy's.

Just goes to show, what we show our kids in childhood will shape their ideas, eh?

My 4-year-old has me read this to her over and over again. It is a favorite with all my kids, so it gets 5 stars. My daughter now wants to get bandages and turn her room into a hospital room.

Edit: my daughter is now 5 and still loves it and has me read it all the time. I would probably give it 3.5 stars, but because of her it is still a 5.

Cute! I love little Golden books!

Couldn't resist picking this up based on the name. Definitely dated, but very cute.

I gave my copy of this book to my bestest friend, Nancy, who just happens to be a nurse. Didn't I do that?? I can't remember!!

Jamie says

My four-year-old daughter says this is the best book she's ever read. I'm not quite so enamored with it as she is, but it is really a darling book, especially children who like to play doctor or nurse! The illustrations are delightful.

Laura says

Wanna know a secret? I named my kid brother after a character in this book when I was 3. Poor Tommy.

Alyce Rocco says

My older sister Susan gave me this book. I liked it because it came with a Bandaid inside.

Before I knew what a “favorite author” was, Kathryn Jackson was already one of my favorite authors. I treated myself to Nurse Nancy which was a delight to read. Nancy’s caring, focused attention and ability to keep calm in an emergency reminded me of my niece Charissa who is currently studying to be a nurse. Great book and kitschy 50’s illustrations full of emotion and color!!
