The Billionaire and His Castaway

Alexa Riley

The Billionaire and His Castaway Alexa Riley

Kenton Monroe has wanted her for far too long. But Madeline Caldwell isn't giving him the time of day.

Madeline is looking to break out of her innocent shell, but Kenton definitely isn't the guy to experiment with. She needs a nice guy, not one who makes her lady business glitter like diamonds.

Kenton has been patient for months, but she won't bend. Getting her alone on a deserted island is the only way. Keeping her stranded and all to himself will make her see reason. Right?

Warning: If you like pina coladas and getting caught in the rain...then maybe this dirty summer read is just for you. If you like making love at midnight, put this book down and wake your partner up!

Eve Recinella (Between The Bookends) says

I loved this one.

Super Sweet - Super Insta-Love - Super Sexy - All wrapped up with a fabulous epilogue...

Sh3lly (grumpybookgrrrl.com) says

So, I think I am finally getting sick of the Alexa Riley formula. Sigh. I really wish they would branch out and try different tropes. This one follows the same formula they use a lot: instalove, possessive alpha male control freak who gets insanely jealous if another guy even looks at the girl, even though they only met once and he has spent zero time with her (but he has stalked her a bit, so technically, he knows more about her than he would have). Female who is younger, curvy, and has to be a virgin. I mean, we know what we are getting into when we read an Alexa Riley book, but I couldn't really get into either character. The male was a bit too stalkerish and douchey.

Bottom line: I didn't care for either character and so decided to DNF at about 30%. This one isn't for me. This was the second one in their *Promises* series that I didn't care for, so I think maybe it's just not for me. :/

*

And it's Alexa Riley.

So look no further...

Or do...

It's up to you...

LOLZ....jay kay.

Be a hoe.

Cause I am.

What I am NOT - obviously - is a fucking poet. But I was going for painful and I think I succeeded lol.

Seriously though, I really enjoyed this one. In fact, I think this is one of my favorite AR series to date.

The H was a burly billionaire and was all:

And the h was an overprotected virgin (of course) who was all:

Match made in heaven if you ask me.

My only wish is that this would have been a little longer.

I really enjoyed these two and would have loved some more interaction with them.

Other than that?

Satisfied as always.

**** 3 “well...cute” STARS ****

“You can fight all you want sweets, but one way or another, I’LL HAVE YOU.”

A little bit on the romance side of the coin this time, than the erotica side.

OVERALL: Nice, but not perfect. *sigh*

Gi's Spot Reviews says

Another fantastic little AR treat, with an equally amazing and obsessed H! Like I've said before, I adore this series, and the perfect little dose of HQ drama makes them just as PERFECT!!! <3 <3 <3

Coco.V says

A delicious read as always! Review to come...

Deborah says

3.5*

It's Alexa Riley so you know how this goes but this is a good one, it's beautiful and sweet.

Kenton is the handsome billionaire with the world at his feet. Madeline is the 22 year old virgin with four older very possessive brothers.

Kenton has never thought much about love or marriage that is until he sees Madeline and then he's gone. It's insta-love at its best. Madeline wants Kenton but sees him as the rich playboy and she knows he'd break her heart given half a chance.

But Kenton is determined to have Madeline and he's prepared to play dirty to get what he wants.

I really enjoyed this one, it's everything I look for in an Alexa Riley book.

This is the first one of her books I've read in months which is unusual for me. The problem was I read several of her books towards the end of last year (they're short and I was falling behind on my reading challenge) but I had issues and mixed feeling on a few of them so I decided to take a break.

Maya says

I liked it! I was very patient and waited for the release day and of course once it was live I bought it immediately! I knew what to expect, since it AR but there was one plot twist that I didn't see coming. At least not the way it did.

"Is it always this dead around here?"

...And that sentence is probably the biggest lie. Since Madeline is finally free of her overprotective brothers she decides to simply relax and enjoy her time away on vacation that btw. is interrupted by her long-term stalker (only she doesn't know about the stalking part), Kenton. To say that she dislikes him but secretly still wants him would be a big understatement.

"I'm not his," I finally protest, catching my bearings. I'm so far from his.

Kenton wants her something fierce but always kinda manages to say the wrong thing. So what's a guy, who has everything but the one thing he truly wants, to do? Well...let's just say he goes to some extreme measures.

Yeah, I want her to know I want her, but if she knew the crazy things I've done to get her close, she'd probably fucking run. Because when it comes to her, I'm just a bit insane.

Those two sure had some talking to do but in the end they really did make a great match. But for those of you who know what's like to have overprotective brothers, know that the real challenge is to get your new man accepted by them. And that's a whole new battle. One that will make those two love birds question just how much they know of each other's real intentions.

All in all, I liked reading about their journey and how they got to know each other. I hope there will be more stories in this series. I would certainly read them as well. For those of you who like sweet, OTT stories, then this one is a must! :)

Safety: (view spoiler)

Tink Magoo is bad at reviews says

Innocent curvy naive virgin. Jealous sweet alpha . Instalove. Marriage. Babies. Rince repeat.

It was going okay, I liked Kenton, but then we hit the cherry popping scene and my eyes were rolling so much that I now have eye strain. And AGAIN I had 'Come with Me Now' on loop in my head because they always have to orgasm together.

Argh. These books are all the same basic story and I'm getting a bit bored of it every time. The same system can only work for so long without something having to be changed and I think now's the time.

Also, yet again I will say how the over use of names drives me up the wall.

86 pages and Kenton is used 107 times!

There is no need!

Maria... says

"4,5 Sweets stars"

"You are the only one. The only one I have or want."

This was the dance I did when I got my ARC for this book!!!Embarrassing right...?Well I don't give a shit because I was about to devour another AR's book. Thanks Alexa!!!

"I'm all yours, sweets. Let me have all of you."

This book was really sweet with two enjoyable characters and some hot scenes in an isolated island!A little paradise for the horny couple. And the best place to start creating life...Although they got a little over board with that...but I still loved it!

I liked Kenton and Madeline's story. I enjoyed that Madeline wasn't falling for Kenton since the first sight and he had to pursue her more and more!And of course I enjoyed that Kenton wasn't so confident around Madeline, he was awkward but still possessive as HELL for his "Sweets"!!!

***"You, I'd chase forever, even if it meant I'd never get you.
I'd still make the chase just to try."***

I loved this one!Can't wait to see what's coming next!

Enjoy!xxx

Jayne says

It's one sweet reading, probably one of the most sweet and less erotic by Alexa Riley. And I enjoyed it from the first page to the last. Actually to be precise from the blurb and the warning.

Twenty-two year old Madeline had enough of being a cute little sister of her four brothers. She wants to be a woman, but under their watchful eyes is not going to happen. When opportunity comes and she "wins" a trip to the paradise, she packs up and starts the adventure.

Kenton Monroe is one rich bastard. He saw Madeline at one of the charity events and lost his head over her. But she shut him down all the time. After several unsuccessful attempts to chase after her, he comes with a devilish plan to bring her to a desert island where he could make her fall in love with him. And he doesn't take no for an answer.

I can safely say that this the perfect short summer romance. It will bring a smile to your face and desire of hot holiday affair with a handsome billionaire who could take you to the paradise. Magically romantic and so good with dirty scenes that are kept in a light and sexy climate. Very sweet and heart-warming but also with some action of overprotective brothers. Lot of fun and a little fear of nothing. And guess what? There are three epilogues! Yes three and it's still not enough! I hate that it ended. I could read more and more.

This is a very good series, each is independent and tells a very different story with an alpha hero and sweet heroine. They are original in light, mushy tone with sexy scenes. Of course, with sexy scenes, eventually it is Alexa Riley.

Another sweet and sexy addition to the *Alexa Riley Promises* series that I absolutely devoured. *The Billionaire's Castaway* is a firm *tongue-in-cheek* modern day take on some of the *Harlequin Specials* of the past, and the duo delivered it brilliantly.

I loved Kenton, obsessed to the nth degree with Madeline, he literally ends up stranding them on a deserted island so he can have some one-on-one time with her.

All I needed was a week. I could make her fall for me in that amount of time. Right?

Having frozen up on their initial introduction a few months previously due to the strength of feelings he has for her Kenton was more than a little aloof due to his nerves, and because of that Madeline has always believed that he disliked her. When she couldn't be more further from the truth.

I've belonged to her since the moment I first saw her. There was never a second when I wasn't completely hers, and I'd not so much as had a thought of anyone else since then...

You know what you are getting with these books, and they are the perfect couple of hours of reading escapism in my opinion. I would almost go as far as to say that *The Billionaire's Castaway* is my favorite of the series so far, and they have all been pretty stellar.

My cock has taken on a life of its own. People would run in fear if they saw this monster approaching their village.

Another kick-ass epilogue, well three actually but they really do finish off these stories to perfection.

ARC provided by author in exchange for an honest review

A billionaire romance that is hot, sexy, and oh so sweet!!! Yes, please!!! **The Billionaire and His Castaway** by Alexa Riley was the perfect summer read to kick off the first day of summer. Not only was this book such a fun and sexy read but it made me want to go on an island vacation stat.

Billionaire Kenton Monroe has everything and I mean everything including a beach resort and a private island. But what Kenton doesn't have is Madeline Caldwell. Kenton has tried his best in getting to know Madeline but it seems Ms. Caldwell has no interest that is until Kenton devises up a plan that Madeline can't say no to.

“The night I laid eyes on Madeline, I understood what I'd been missing. As if she'd flipped a switch to turn on the light, I suddenly realized I was in darkness. And when she walked away, I was thrown into the shadows once again. That night, I knew that I had to have her. I had to have the light.”•

When Madeline receives an all expense paid vacation trip for completing a survey, she is over the moon. This trip was just what she needed to find herself, get away from her overprotective brothers, and also a way to possibly lose her virginity. Well what Madeline didn't expect was to find the resort practically empty and the only person there besides some employees is Kenton Monroe.

So when a kayaking day trip turns into an overnight trip, Kenton makes it known to Madeline that she is the

only woman who he wants. The only woman who owns his heart. And soon these two begin to fall madly in love. But what happens when Madeline discovers that Kenton lied and tricked her to get on the island? Will she be able to forgive Kenton?

Like I said earlier, **The Billionaire and His Castaway** is the perfect summer beach read. It was a light sexy and adorably sweet love story. So if you are ready to sit back and sip on some Piña Coladas and be smiling big, then go read this latest release from Alexa Riley.

Updated review June 29, 2016:

4 stars!

After DNF'ing 6 out of the last 7 books I have read, I decided this book deserved a higher rating. So yes, the hero had sexual experience, but at least we didn't hear anything at all about other women and he wasn't a manwhore. That alone is worth a 4 star. :D

Original review: 3.5 stars

Overall, a sweet and sexy romance. AR fans will love it. Hero was a a great OTT alpha obsessive type I enjoy reading about! Unfortunately for me though, now that I have read so many AR's with virgin heroes, I feel let down when the hero isn't one. lol. In romance, the hero always feels so happy to be the heroine's one and only, which just makes my heart pang cause the heroine isn't the same kind of special for him. :(The heroine did indeed feel some jealousy about other women, having seen how women come on to him. She saw women all around him at a fundraiser gala and later another woman is seen laughing with him and touching his arm while they are at the resort. Based on AR type of stories, I am sure these aren't women he was ever intimate with. And to be clear: he said it has been a "long time" since he was physically intimate with a woman, whatever "long time" might mean here. I got the overall feeling it had been at least a couple of years. And he hadn't done anything with another women since seeing the heroine.

Despite my one issue, AR still does the virgin heroine and non virgin hero trope better than other erotica authors!!

~Nichole~ Sizzling Pages Romance Reviews says

Absolutely #1 of the series for me. Kenton was everything I love about Alexa Riley heroes . Gone for her from first site.. Obsessed, possessive, crazy jealous and so sweet. I could have choked her brother but I really loved how he took it like a man. Madeline was the perfect balance of shy and sassy. These two definitely burned up the pages. I really loved this one from page one. Perfect.. All the way.
