So...I'm getting the vibe this isn't actually coming out in 2018...

Any updates on my favorite, highly dysfunctional Empress and Emperor?

Amber says

The first book I thought was fabulous and I would have been happy if it was left alone, BUT NOOO. a second book that could crush my heart and soul had to come along. I felt exactly like like Nemesis did at the end of the second book, devoid of emotion, yet with a crushed heart. When I was reading the beginning of the second book I knew it was to perfect to last, so of course that happened. I know that this book will ruin me but it will be amazing at the same time.
