What an awesome book! This book made me want to film my own movie! The author explains the whole process of making a movie and shares scenes from the film version of The Long Haul. Great book for kids and adults alike who want a quick glimpse into how a movie makes it to the big screen.

Cindy says

Good Read

This is Really awesome because it is telling secrets and tricks they did in production of the long haul .

Kathy says

A nice, friendly explanation of how movies are made for young readers.

Yara says

It's always nice to see how a movie is made, especially if it's about one of your favorite books. This series is my childhood. Been reading it for 10 years now. They made 4 movies until now and they're all good. I was a bit upset by the change in actors especially Greg cuz I was used to him. The new actors did a great job though. If anyone wants to know how a movie is made, well read this.

Bibhu Ashish says

Ashley says

I haven't seen this movie yet, but I want to (despite the really bad ratings lol) because I've seen the other three movies (and loved them!) But I have to read every Wimpy Kid book I can.

This wasn't much different than *The Wimpy Kid Movie Diary* from what I remember. A lot of cool behind the scenes things, telling how movies are made. It's actually a pretty interesting read because of that, neat to see how things come together. Plus, it's peppered with Wimpy Kid illustrations and humour, which I am always a fan of.

Edit - Tried to watch the movie, couldn't do it.

Hannah Showman says

This book was so cool! It really shows how much work is put into movies!
