Very informative ! :) Borrowed this from my local library system, will be purchasing it.

I am currently reading this book for two groups at my church. While there is a lot of good information on warfare, we have been in agreement that the language of the book is a little bit over our heads.

Together we have been able to get through it, but something more problematic is that we have found some of the scriptures don't seem to line up with some of the things she has said. It makes for an unreliable narrator, which is not good for a guide of this nature.

We probably won't be reading another of her books for a while, unless she has been able to come down a level, but if that's her style, that's her style.

I love this book. It walks you through how to create an authentic life of spirituality. Dr. Cindy Trimm shares helpful and practical tips as well as thought-provoking questions that challenge you to grow in your faith. I used it as a daily devotional for 40-days.

This Manual was a Holy Grail for me in college, its own praxis. The only way to digest and fully unlock this masterpiece is to engage in a soul fast ordained by God. This is not grandma's Sunday school book by any means, I'm sure that i didn't unlock all the keys. The words she shares have strong spiritual repercussions, and life changing effects. This book is like basic training for a military, not everyone qualifies(pride, ego,

and self reliance have to be trashed). It's as much about faith as it is about sacrifice. she's been graced by God to endeavor in certain dimensions not privy to many in this dispensation but opening the door for others to join in. As a general she purposefully superimposes new logic upon old scriptural concepts to activate new trajectories and open new realms of being. If you can't connect to this piece on a spiritual level, you'll mistake it for logic and reason but this book is all about divine principal, Strategy, and Kingdom Culture. With proper application and divine assistance, you'll go beyond the life , beyond the alter of incense, into the realm of dominion.

Wishing you all the best!

I essentially listened to the CD that taught me how to take authority when I am praying. Bless the name of Jesus!

Neema Gibson-Lopez says

Quality of the book binding is not good..my book is a pack of cards. However, the contents of the book has great strategies for understanding and praying strategically.

Joyce Stewart says

This an awesome warrior for God. I love her ability to have such a Kingdom mentality. Her boldness enables her to tread where few Christians are willing to go.

Her ivy league vocabulary is not only challenging but engaging.

I personally would love to have been mentored by her but hey - that's what books and videos are for.

I have HEARD much about spiritual warfare before but this book helped me to UNDERSTAND it. What a perfect manual for someone who is new to spiritual warfare and charismatic Christianity. Before reading this book I have had my attempts of warfare prayers followed by the example of my friends and spiritual leaders: but I realized now that they were just words that I was spitting into the air without the level of faith and understanding practicing spiritual warfare required. This book has revolutionized my prayer life because I finally know what I'm doing and why. Though not advised in the book I have simultaneously incorporated the use of anointing oil to deepen my prayer life.

This is a very profound book, a "warfare prayer bible" offering every possible DETAILED insight about Satan, Hell and subordinate spirits. I also love about this book how Cindy Trimm is giving concrete examples of how to recognize the actions of the devil and practical tools to incorporate in my warfare prayer life. This has become a classic in my spiritual bookshelf that I will be constantly returning to... at least until I have mastered the spiritual warfare to the level that it comes naturally. I have absolutely nothing negative to say about this. It's a blessing to read.

Anita Dix-McLaughlin says

Excellent book on spiritual warfare's greatest weapon, prayer.
