Lori Meehan says

Second chance romance is one of my favorite troupes. This one does not disappoint in the love hate emotions that run through this book.

Tate Ford and Lauren Lewis had a youthful romance that they thought would last a lifetime then Lauren's parents gave her an ultimatum, give up Tate, the reckless motorcycle riding, drinking bull rider or they would not pay for her college.

Tanner is one of the winningest bull riders there is. While riding in the World Finals he's terribly hurt, his sister convinces him he needs a therapist if he ever want to regain the championship. She's set it all up for him, several weeks on a beautiful tropical island with the best therapist there is Laurann Lewis the girl he hates, the one that broke his heart.

Lauren has worked hard to make her career what it is, no flirting and no dating her clients. She works long hours with very little time off she will enjoy this vacation to its most and if it gets upgraded so she can help Tanner Lewis then so be it. She only hopes she hasn't made a mistake, the last time she'd seen Tanner it nearly killed her to leave him.

The chemistry between them is electric, Lauren ignores, it because she knows he will never forgive her for breaking his heart. Tanner is being a jerk to cover for his confusion over his feelings for Lauren, as they say there's a fine line between love and hate.

One kiss changed everything. They struck up a deal, a sexual relationship while they are on the island.

Lauren's in control during the day with Tanner's rehab and Tanner is in control when the sun goes down and the sexy times begin. It all made so much sense in the beginning but heartache and Year's apart didn't seem to kill the love they had for each other but forgiveness and trust may be what gets in their way.

I enjoyed this book and I loved Lauren and Tanner the problem I had is it didn't hold my attention until halfway through.

Thank you St. Martin's Press for the ARC in exchange for an honest review.

All Night with the Cowboy is a second chance romance story about Mia's brother, Tanner Ford and his ex-high school girlfriend, Lauren Lewis.

Tanner Ford is a professional bull rider. He was passionate about it than managing his family's business and enjoys the thrill until he had the first accident in his career. He was injured badly and he needs rehabilitation to get back in shape. After twelve years, he never thought he'll see the woman who broke his heart and she happens to be his physical therapist, Lauren Lewis. They'll be spending time together in Fiji for weeks. With unresolved issues and lingering feelings, things are awkward and tense between them.

Lauren unintentionally broke his heart years ago. She'd chosen to pursue her dreams by getting a degree in Physical Therapy sacrificing her relationship with Tanner. It was heartbreaking but she wants to be successful career woman. She worked hard for it and years later, she became one of the best. It was rewarding and after all these years, she still loves Tanner and she hopes he'll forgive her.

I really liked Tanner and Lauren's story. I love the angst and sexual tension here. I can easily relate to Lauren for being an obedient daughter but I wished she told Tanner the truth on why she broke up with him. Fiji was such a romantic getaway and a perfect setting for this book. Such a beautiful paradise! Breaking up in the

past was the best thing that happened to order for them to grow as a person and achieve their aspirations in life. If the opposite happened, they'll be miserable couple and might resent Tanner in the future for choosing love over career. It's all about making sacrifices and compromising. Their relationship just felt authentic and I love it.

Beth says

Tanner sustained a serious injury bull riding. Needing rehabilitation, his sister finds him one of the best physical therapist in the pro athlete sector, Lauren Lewis...his ex-girlfriend and the woman that broke his heart.

The last thing Lauren wanted to do was walk away from Tanner, but her circumstances didn't give her much choice. Its going to be hard being around man she never stopped loving...where Lauren doesn't regret her life choices she made she is in no way as angry as Tanner...

I really enjoyed **All Night with the Cowboy**. Both, Tanner and Lauren, are likable and strong character. Their wiliness to help out in a dire circumstances shows what good people (fictional characters) they are. I can't go into much for spoiler reasons, but I didn't really get the entire summer thing before they broke up, it just didn't work for me. A little repetitive, but overall, All Night with the Cowboy was an engaging and entertaining read.

Its all flirty and fun until you realize you let go the one person you will always love.

I received this ARC copy of **All Night with the Cowboy** from St. Martin's Press. This is my honest and voluntary review. **All Night with the Cowboy** is set for publication May 29, 2018.

Kathryn says

All Night With the Cowboy starts with a vivid piece of writing of a cowboy experiencing a very brutal ride that ends in him being severely injured. A great piece of writing that hooked me into the book.

Tucker is the cowboy and unbeknown to him his sister Mia sets him up with a physical therapist who is excellent at her job and very professional. Only trouble is... Tucker and Lauren go way back to when they were young and they broke each others hearts. Tucker comes from a wealthy family and there is some tension there as his family would love him to give up his dangerous but adrenaline producing bull riding.

In Fiji Tucker and Lauren renew their acquaintance and the sparks fly. Can they just enjoy a bit of a fling while they are there and then go on there way? Come on, these two loved each other and they still could have feelings for each other. But... are they slow about coming to realise that they really matter to each other. So its a little tortuous as they get through all their challenges and past hurts and doubts.

Soraya Lane's writing is very good although I have to admit I am more of a reader for her women's fiction books which have a lot more character development and delve in more depth into life.

However if you are an avid contemporary romance reader then this book would suit you well.

Guilty Pleasures Book Reviews says

Generally I'm not a huge fan of second chance romances but I'm a sucker for a broken bull rider needless to say I was excited to read All Night With a Cowboy.

The author brought these once emotionally damaged youths together as adults to heal and rekindle their relationship.

Tanner is your typical bull rider. He's tough, determined and stubborn. He also has the ability to hold a grudge. Tanner found his first and only love Lauren in high school and has never forgetting how she tore his heart out.

Whether it was right or wrong, Lauren was made to choose between Tanner and school. She's had a successful career as a physical therapist but has always wondered what might have been if she choose love.

The pair is brought together in paradise where they are healing both physically and emotionally. I found the beginning to be repetitive but in hindsight it helped the reader get into their mindset.

Their time together wasn't easy but they managed to ease into a friendship on Fiji. Both only looking for fun without commitment. The chemistry and passion was evident throughout the book. While they both wanted more once they returned home, they were afraid to share their feelings as they were still not over the past.

The last few chapters were so sweet especially Tanner. It cemented my like for the book as this couple finally put each other first.

Heather says

Soraya Lane certainly knows how to write a great second chance romance. Even better it features a cowboy! This is the second book in the series, but it can easily stand on its own. Lauren and Tanner were high school sweethearts and when she broke things off before college, Tanner never forgave her. But then he never got over her either. So when Tanner needs her help to get over his injuries, he never imagined rekindling their romance.

Great characters and an engaging story line kept me reading way past my bedtime, but it was totally worth it! Looking forward to more from this author.

Bette Hansen says

I truly enjoyed this wonderful second chance romance. Lauren and Tanner are both good strong characters that are passionate and strong willed. They were high school sweethearts and Tanner had thought they would be together forever. Right up until Lauren broke it off with him and left town without a glance back. Now they are reunited and forced into each others lives. They have no choice but to deal with the past.

This book is very well done and I think everyone will enjoy it. I definitely recommend.

All Night With the Cowboy by Soraya Lane

Contemporary romance.

He's determined to make it back to number one in bull riding competition. He'll do whatever is necessary to heal including working with the woman who broke his heart. So even though he despised her, her hands massaging in a therapeutic way should mean nothing.

I admire her for working for her dream career.

I didn't care for his determination to continue bull riding. He kept saying to himself that he would quit for the right reasons but I didn't feel it was genuine.

Two minor scenes that pushed me out of the story:

Caught on the plane in what looked to be a compromising position - why didn't she go and talk to the flight attendant? She just went back to her seat to watch movies?

On a small private island in Fiji, they make love in the sand. Um. I would think sweaty and thus sticking sand. That scene just had me thinking "uncomfortable".

Overall, a good romance which is my bread and butter.

I received a copy of this book from NetGalley.

Carrie says

All Night with the Cowboy by Soraya Lane is the second book in the contemporary romance River Ranch series. With a new couple as the main characters in All Night with the Cowboy it is not necessary to have

read the first book of the series to understand this second chance romance as it reads fine all on it's own.

Tanner Ford comes from a wealthy family but against all their advice and wishes he became a bull rider and has succeeded wildly at the sport for the last decade. Tanner however has just had his first serious accident of his career and needs help with getting back into action so his sister takes it upon herself to set up an appointment with a physical therapist who just happens to be Tanner's ex-girlfriend.

Lauren Lewis had walked away from Tanner still very much in love with him breaking both of their young hearts. She's spent the last decade studying and becoming the best physical therapist out there and hopes that after all these years she and Tanner can put the past behind them for the sake of his career so she reluctantly agreed to accompany Tanner to Fiji and help with his therapy.

What can I honestly say about this one? Take a hot cowboy and a second chance for a couple who had been very much in love and put them in a tropical setting and I was more than entertained by the magic on the pages. The story was oozing in passion as these two reconnected and hashed out their old differences making for one steamy and passionate tale that was a great addition to the River Ranch series.

The story line for this one was a good idea - a second chance romance - however I found that the main characters kept bringing up how much they hurt each other in the past. It was quite repetitive. It felt like the story dragged a little bit, as yes, things were happening, but it felt like nothing was moving forward at the same time.

I liked the characters in the book, however it just seemed to drag a little for me. Maybe it's just my reading slump at the moment, I'm not too sure.

I would like to read more from this author though.

This is a superb second-chance romance that is a delightful, easy read and real page turner - one of those

stories that is easy to escape into and you really don't want to put down until you've finished reading it.

Whilst at school Tanner Ford and Lauren Lewis fell in love and it looked like they'd have a brilliant future together. Then she left. He was heartbroken and hasn't had a serious relationship since. She was also heartbroken but she had her reasons

Twelve years later and Tanner has had a very successful career as a bull rider and busting broncos but then one of the bulls turned on him and he sustained serious injuries. His sister arranges for him to have one of the finest physical therapists to help with his recovery. There's only one major problem - that therapist is Lauren Lewis. The chemistry and attraction between the two is still there but with so much in their past can they work together to forgive, understand and trust each other to help them achieve their potential HEA?

I've been very careful not to give any clues as to why Lauren left initially - it certainly wasn't what I'd initially assumed! They'd missed out on so many years together but now have the chance to create a joint future but only after secrets have been revealed as the past refuses to be ignored in this thoroughly enjoyable read. This is another great emotive romance from this highly talented author. I have to admit that her books are one of those that jump straight to near the top of my tbr pile whenever they become available. I have no hesitation in highly recommending this and any of her other books to anyone who enjoys superbly crafted cowboy romances like this!

I requested and received a copy of this novel via NetGalley. This is my honest review after choosing to read it.

Some people are just born to grow up to be a cowboy. Tanner Ford grew up riding bulls and busting broncos on his wealthy family's ranch. On the rodeo circuit he made a name for himself as one of the top bull riders ever, but one bull shattered more than his body when his future as a rider is now in jeopardy. When his sister arranges for physical therapy to help him continue his dream, even the tropical island getaway isn't enough to overcome the pain he is reminded of the day the girl he swore he would love forever...because there she was again, the best therapist money could buy.

Lauren and Tanner were young and in love, money wasn't an issue for their future, but she wanted more than to be a cowboy's wife, or she thought she did. When her parents gave her an offer she didn't think she could refuse, she made a mistake and she walked out on Tanner. Now she is face to face with the man of her dreams, the one she traded to reach her own goals.

Their attraction is hotter than the tropical heat on the secluded beach, but so is the searing pain of loss and betrayal. Will they get past the demons of their youth and rekindle the inferno that rages between them?

ALL NIGHT WITH THE COWBOY by Soraya Lane is a second chance romance whose time had finally come for two souls, more mature, more self-assured and finally ready to share what happened when Lauren walked out. I enjoyed this story, even though the past was often hashed and re-hashed mentally, before Lauren finally explained herself. High angst, lots of anger and finally, some communication and of course, the passion!

****My thanks to NetGalley and St Martin's Press, for providing me with a free copy for an honest review****

Although this is the second book in a series it can totally be read as a stand alone story.

This is a second chance at love book where book characters we together as teenagers but broke up and found each other due to outside circumstances later in their lives, starting with animosity and where the chemistry is still very much there between them.

Tanner has taken some nasty injuries with his last bull ride and his sister has arranged for him to meet up with Lauren on her holiday in order to get the best PT she could find.

Both have struggled after the break up in finding the right partner for their life and it is only after meeting again that they both discover that they are still in love with each other, but have trouble admitting to each other and themselves what they really want.

Its a lovely story of reconnection, love and a happy ever after with a decent epilogue that leaves you feeling happy.

Second chance romance

Tanner and Lauren used to be the high school golden couple. Years later life is giving them a second chance. Tanner is a professional Bull rider he is at the top of his game. In the blink of an eye, his life tumbles to a halt.

Lauren is a physiotherapist. She's always been professional with her clients. In reality, she has never found anyone who matches up to Tanner. When his sister calls and asks to help him heal an injury, Lauren has her chance to mend broken bridges.

This book has a beautiful setting, a smoking hot cowboy and some steamy scenes. It's sweet and firey. All night with the cowboy was so good I was sucked in from the start. This is my second book in the River Ranch series. I enjoyed this one more than the first but both are worth looking at. 4.5 stars out of 5.
