Thank god this book does not have the unending death, rape and violence that the Reckoning Series had!!! This was an enjoyable story and with the same characters/MC as Reckoning but practically light hearted in comparison. Keep in mind I said 'in comparison,' because this was still a gritty MC book! Overall, this was a good read although I am still not 100% ok with Jake, I wanted him to redeem himself just a little bit more than he did.

3.5-4 Stars

This was my first read by this author and it was very good. Loved the characters, the storyline was intriguing, mysterious and action packed BUT yet still filled with lots of sexy moments:)

My issue, it ALL happened so FAST and I mean in less than a year. Wished I had a longer out future but with the series continuing, I am assuming we will see Kimi and Jake's relationship continue to grow!

Not a bad read.

This is a new author for me and I found it to be a good read. There are some errors that were noticeable throughout the book and parts to me that seemed a bit choppy but overall I didn't mind it. Being the first in this series I'll certainly look forward to reading the next one.

Still loving it!!

Still loving this series and storyline. This story takes off basically where the Reckoning left off. Highly recommend you read that first. I think you need to, to understand it.

Kimi and Jake are perfect for each other. The storyline is fast, sex scenes are hot, angsty though not as much as Reckoning, some new characters, and the real plus here is the sexy alpha men on motorcycles lol.

This book and series has everything you want in an MC read so CHECK it out!!

Loved it, has everything I want in a biker romance, gritty, sex, foul mouth alphas, drama and an added bonus the lead characters with a history with each other. Other than some minor grammar errors this was a great story and to introduce the leads in the rest of the series.

LOVED it!

This is the story of Jake that's in a MC and Kimi the woman he saved from so much pain in her life. The romance in this story was so sweet, Jake wanted Kimi and she wanted him, now this is two years later from when Jake saved her and Kimi has learned much, and is going to college, Jake has come for her. There is some bad people that Jake deals with, as well as some great characters in this story. Beautiful ending and great story coming soon next! Will recommend this book to all romance readers!?

I have had this on my kindle for a while, now I am kicking myself for not reading it as soon as I brought it. Jake was superb, silent, sexy, hot, sweet, protective, and deeply in love with key. She was strong, sweet, and desperately in love with her man. The drama was riveting, the sub characters were so interesting I can't wait for them all!!!! This is a definite read for anyone loving the notion of real love.

Jake's Silence is book #1 of the Hell's Riders series which, is a spin-off of the *Reckoning* series. Author Joy Blood recommends reading the *Reckoning* series to best understand some of the characters and backstory, and warns that it is a much darker and twisted story. I have not read *Reckoning*. Joy Blood does provide a short summary of *Reckoning* before the prologue.

Jake is part of the Hell's Riders MC. The Central chapter was ambushed two years ago and most of the members killed. Jake is one of the survivors and has returned as VP while they begin to rebuild the MC. Kimi was rescued by Jake along with Ellie. At that time Jake rode off due to circumstances.

Kimi was taken in by Ellie & Vin and is now starting college. Kimi has had a very tragic life. She was ten years old when her parents were killed and she was sent to live with her uncle. Very bad things happened to her.

I've lived quite the sheltered life, although I wouldn't call it shelter – more like a closed off hell.

Kimi has just started college. Jake is sent to check on Kimi and their chemistry cannot be denied. Jake is very alpha and sexy-hot! Kimi is beautiful, smart and together. A series of events occur involving the Hell's Riders as they try to discover who turned on their own MC club which led to the devastating ambush.

Overall I enjoyed the story. I would definitely recommend reading *Reckoning* first. The only issue I had is the editing. I know that the book has been re-edited, but there are still many errors present. I look forward to the next book *Gin's Longing*.

After reading The Reckoning Series by Joy Blood, I was enthralled with her amazing books. Jake's Silence captivated me from the first page. This story is filled with action packed drama, suspense, betrayal and romance. I laughed throughout the book but also had my heart broken by Kimi the same time she shattered Jake's heart.

After a war was declared on the Hell Rider's MC and everyone was killed but Gin, another war is unfolding by previous traitorous brothers. Gin is still fighting with his demons over the loss of his brothers and family. I would definitely recommend this book!!

Gin's Longing, Book 2

Beautiful read. Jake was hurt in an attacked on the MC and his voice took the hit. He has loved Kimi a long time but she needed to time to grow up. She is now in college and when the danger hits home, He realizes that he needs her as much as she needs him. He will keep her safe. This read shows us a unbreakable love that waited forever to start. Excellent writing.

Good, gritty MC romance...

This is a new author for me so I had no expectations going into this MC romance series. I understand it is a spinoff and though I didn't feel lost I understand (now) reading Reckoning would set the stage. So much of the backstory is missing and even though I will definitely be doing that! This is the first in the series and Jake and Kimi definitely set the emotional bar high.

Members of the Hell's Riders took Kimi in as their own so life was good now but her life before that was heartbreakingly awful. Even not getting all the gory details, you knew it had been brutal. She was starting over, learning to lead a good life within the protective arms of her new, extended family. That family included Jake. Age and circumstances separated them but they had another change...

I liked Kimi's and Jake's story – it was honest and real, with more than enough drama to make things interesting. It is not a hearts and flowers MC read, far from it, but it definitely had heart and soul. While I might not have connected as deeply with the characters as I wanted to, that didn't mean I wasn't invested in the outcome – I definitely was....

A good start to a series that has me intrigued and looking for more.

I received this book as an ARC and absolutely loved it. Jake and Kimi are both amazing characters. They are opposites but at the same time have a lot in common. They both have a past that I think only enhances their bond. I would love to read more about them.

I'm not sure what to say about this book. The idea was very intriguing and the action/suspense kept me going when it came to the story. I had a hard time really connecting with the characters. I found my mind wondering more about secondary characters such as Gin and Rico. For me, that's not a good thing. I wanted to be in deep with Jake and Kimi. So while the plot was intriguing, the set up for secondary characters was awesome, the action was fun and fresh..... I have to rate it 3 stars because The author had me more drawn to the secondary characters and not the main characters. I'm not saying it a bad thing because I'm totally going to read the other books now because of that fact. I just hate that I couldn't be that invested in Jake and Key. They deserved to have my full attention and I just couldn't give it to them. Maybe if I had read the series that this one was a spin of I would have connected better, so it might be my own fault. #2OCCJD

### **Well damn**

I read these out of order. She is dark writer holds back no punches. This series is in my top five biker series. Among BRR and the evil dead mc's. solid characters a dark undertone and characters the are flawed. But they work it is great that way. Amazing job need to read the 3rd book in this series.
