All Because of You Melissa Hill

Tara Harrington's life seems perfect - a successful career as a life coach, the flashy sports car to match, and a happy home with Glenn. But when her difficult younger sister Emma announces she's pregnant, and refuses to divulge who the father is, suspicions are aroused all round. Tara's best friend Liz's fairytale husband, Eric, suddenly doesn't seem so Prince Charming any more, and their dream move from the city to the country isn't working out as planned. But can Tara help her friend through it?

Glamorous London PR girl Natalie has everything she ever wanted - except a husband. And when Tara agrees to coach her in landing the latest 'man of her dreams', the two women soon find they have more in common than either had imagined.

Can Tara make it on her own? Will Liz secure her family idyll in the country? And will Natalie finally find love with a man who deserves her?

Rebecca says

For a book I praised to my friends as being one of the better chick-lit's I have read in a while, I kind of forgot what happened. There were a lot of characters, but they all had a point, but it took a while to get to it. It was like three different stories that all intertwined and overlapped. Some nice little twists at the end, some annoying characters in there (but thank god, not major characters, but one that was there to create havoc) and of course, predictability. Good: the twist and the token gay; Bad: a bit too long and too many characters. Grade: C+

Adeline Kam says

Amazing author.....I enjoyed reading this book so much. This is the 6th book that I have read by Melissa Hill, and none of her books are boring. This is a great story....interesting characters and a storyline that is suspenseful, with twist and turns. I couldn't wait to find out the mystery behind Emma's pregnancy. Thumbs up to the author!

Deborah Sigel says

This was OK, but there really weren't any likeable characters. But there were some good twists.

Kourtney says

This book was great! I am so glad that I mooched this on a lark. The story had so many twists and turns that now knowing the ending, I want to go back and read it all again so I can slap my head and say "how did I not catch that the first time!" I will be seeking out more of Melissa Hill's stories after reading this!

Connie S. Jones says

All Because of You

I had to stop reading and its probably just a "ME" thing, but it did not hold my interest. There were some good reviews, so you might really enjoy!

Nikki Bywater says

Tara Harrington is a life coach whose life is going really well. She has got the great job, the flash car and a nice home that she shares with Glenn. When her younger sister the troublesome Emma becomes pregnant and decides to keep the baby's father's identity secret from all. It is a mystery to who the father can be. Then

when Emma starts to spend a lot of time with Tara's best friend Liz's husband both Tara and Liz become suspicious.

Natalie is a successful PR girl who works in London. Although she has a brilliant career she does not have much luck with her love life and finding the perfect man to settle down with and marry is all she wants to do. So she turns to Tara to life coach her, so she can hopefully have better luck finding and keeping the man of her dreams. However Tara is going to find that she has much more in common with Natalie than she thought.

A really enjoyable chick lit book that is full of twists and turns that add more drama and suspense to the story.

Jennifer says

This was the first book I've read by this author, and I can't say I was impressed. The story line was boring - the plot just plodded along. I kept waiting for something exciting to happen, and it never did! This is a story of lives intertwined, and I had a hard time keeping the characters straight, because none of them were very memorable: the spoiled younger sister, the career girl who can't keep a man because she comes on too strong, the stay-at-home mum who thinks her husband is cheating on her. Yawn. [return[returnAs I was reading, I would catch myself mentally drifting off - I honestly think I finished this book only because by the time I figured out nothing was ever going to happen, I had invested too much time to NOT finish it. Even the twists at the end were not particularly shocking, and the characters reactions were not very believable.[return[returnThis book has received 4/5 star reviews on Amazon UK, but I can't see why. I was really disappointed in this book.

Margaret Money says

Very well written with a few surprises that I didn't see coming.. it was enjoyable summer read that made it hard to put down. I would recommend this book to my friends

Very well written with a few surprises that I didn't see coming. It was an enjoyable summer read that I would recommend to my friends

Mary Martin says

This is more a 3.5. I was a little disappointed in this book because I thought it would be a continuation of the previous book in this series. There were a couple of surprises in this book, another obsessive character, but an easy read.

Susan Copper says

Very good, started thinking it was a regular romance girly novel but there was quite a few twists towards the end!

Andie Long says

Really enjoyed this. The sort of book where you just want to dive under the duvet and read (which I did) and a great big twist that I did not see coming and which made me read previous pages going what the?.....

Caroline Montague says

I enjoyed this story, it started out as a run of the mill chic lit but there is plenty of drama and a few twists to keep you interested.

Elena Auditore says

Lovely story!

Phee Sunantarod says

Unexpected twist, light but funny. Would recommend to others.

Sarah says

Cheesy... Check.

Drama... Check.

Corny... Check.

"Girly"... Check.

Unbelievable romances... Check.

Bitchiness... Check.

"Plot twists"... Check.

Weird ending that literally made me super angry and confused and annoyed and nearly made me take a star away... Check.

This is just a chick-lit through and through. There was nothing that wowed me or changed my life. It annoyed me that I actually sort of liked this book the tiniest bit because come on, this book is grrr.

The representation of women was terrible. Come on, for the love of God!!! These women were not developed at all and they make us women look bad. Of course I could relate to bits and bobs of some of the characters but the portrayal was not flattering. The men were just one-dimensional and only there to give us a better insight of the women. None of the characters were fleshed out at all.

The story... It was a little unbelievable. Of course things like that COULD happen but it COULD also start raining chocolate tomorrow. I believe anything can happen but back to the story... Nothing really happened.

Oh, all these lives are intertwined.. Cool let's make it super cheesy and unbelievable. The twist about Tara and Glenn was just annoying. It wasn't genius or inventive, it was just plain annoying. Hill manipulated her readers into thinking one thing and it was done strategically but it just annoyed me. And that ending, OH MY GOD WHY. Hill should have ended it with him inviting her in because everything that happened after that was rubbish. Literal rubbish.

I would recommend this to people who read light chick-lit books religiously but I will not be reading anything else by Melissa Hill.
