The Seahorse Memphis86

Supernatural J2 Big Bang 2008

Everything is going fine for Dr. Jensen Ackles, a successful 3rd-year resident in obstetrics and gynecology at Grace's Heart hospital in San Francisco. But when a 22-year-old art student shows up at claiming he's pregnant, Jensen is completely certain he's crazy.

After a bunch of tests, a sonogram and a bizarre story about having invoked the wrath of a ram-headed Egyptian fertility god, it turns out that Jared Padalecki isn't joking: he really did get knocked up! And when Jared insists on having an OB-GYN of his own gender, Jensen's long stretch of successfully not falling for one of his patients is finally at an end.

Funny, quick, light and sweet AU J2 fanfiction.

Recommended for the m-preg theme.

Bubbles Huntly Honest & Direct Opinions says

it had a few laughs but i never really got into it.

:(

I will admit I had a little trouble getting into the writing on this one. But it was just a personal struggle with the style/tense the author used. It was done well though and eventually I got my head around it. Definitely a great little story I'd recommend to mpregnancy fans. It was cute and sweet and I loved the ending. Just too adorable! What can I say...I'm a sap. If you like this kind of theme you should check this one out ASAP. The author did a wonderful job bringing these characters and the plot to life.

ummm wow.

I didnt really expect to like this at all. Seriously mPreg just makes me uncomfortable but this story was awesomely told and I enjoyed it. It was a really cute story and i'm really glad it didnt follow the storyline of Supernatural because that would have scarred me =p Good story and great characters over-all, I loved the Epilogue.

Lacey says

I had to make a super-cute shelf just for this :)

Nina says

It's quite funny and cute, but also rushed and superficial, and it has no... staying power, if you will. I've forgotten most of the details a couple weeks after reading it, and I don't even care.
Meh.

I resisted reading this one for a long time... but it was actually kind of cute. But then, I'm not bothered by the subject of mpreg. The entire series was a good read and free. It took me a bit to get used to the writing style. The author uses the present tense. At first, it seemed to give the story a distance but once I settled into it, it proved to be the opposite. As all four stories in the series jump around through time a bit, I think in the end the tense adds to a sense of keeping the reader present in the moment of story.

Curiosity satisfied. This was all types of weird, but I liked the story, I did. I liked the way it was told, it was cute, light and fun. The characters were great, especially Jensen and Jared, just too darned adorable. I liked everything about this...except the Mpreg theme. Nope. Can't deal with it. Don't want to. Never again. No way. All personal feelings about pregnancy aside involving either gender(there's a story behind that, but that would fall under TMI category), I think those who do like Mpreg will most likely enjoy this.

crazy and hilarious, I ADORE this freebie!

Ian says

[Jared's adjusted fairly well considering that he's confined to a single room on a restricted floor of Grace's Heart. His room looks more and more like a dorm every day, what with the flat-screen TV, videogames, DVD shelves, card tables a

Maya says

Cute.

Eli Easton says

What a super cute story! I loved the humor in this and the slow boiling romance. Even though it's pure fantasy, it read exactly like a solid contemporary. Perfect!

Ellie says

Oh wow, this was awesome. An absolute gem of a fic. I adored it. It was so clever & sweet & romantic & so so funny. I find a lot of rom-com type fics, even if they start off strong, often get laggy in the middle or end, but this was strong all the way through IMO. I read this in one sitting & couldn't put it down. This author has a brilliant sense of humour, had me laughing out loud & quote-highlighting all the way thru. 5/5.

"The Seahorse" is a very creative, free online fiction. It made me laugh, it pulled my heartstrings and it made me feel upset for the characters. It is absurd, and yet realistic in how the absurdity is dealt with.

The writing style was fairly ordinary, which is why I gave it 3.5 stars instead of a full 4.

The read would be worth it though, even if it cost money.

And it gets a whole bunch of points for the cover being a parody on the movie Juno. That was actually what enticed me to give it a chance. :)
