This was a good book.

Kenley says

this one was ok, the first was better tho.

Nora Cayetano says

Está muy bonito y simpático :) Aunque siento que es una copia de Hamtaro, que al mismo tiempo busca competir contra él.

Sea como sea, no ocupé leer el primer número para disfrutar del segundo.

Fácilmente, lo metería en la lista de los mangas más kawaiis (pero ya sé que no es un manga tal cual :P)

Magenta Cooly says

Poor Amanda, in this one! Poor Peach! Poor HAMSTER! It just makes me think of one thing: I am SO glad I was home-schooled. I mean, COME ON! I would've probably killed myself from all of the cruelty surrounding me...!

Raeanne says

Good book!

I'm a ferret fanatic. And I loved this cute graphic novel. If you are owned by a ferret you will love these books!

Madelyn says

I don't know what I thought was wrong. I just didn't like it.

Chelsea says

Animelover says

Hayley Heinz says

Great story! I'm a little ashamed to admit this book brought me to tears. The part where everyone turns against Amanda and her costume was just so emotional! Although I loved the ending when Amanda steps up to save the hamster. Gosh I'm sorry what a spoiler I am! Anyways if you haven't read it yet you definitely should.

Michelle says

I loved this series of books. I have ferrets and love them and loved seeing life through a ferrets eyes in this book. It made me laugh as I thought of my ferrets seeing life in that way. A fun and creative book about a little girl and her pet ferret.

In this book, our protagonist has found a new friend, and what's extra cool is this new friend has a ferret too. Only problem is, these ferrets aren't really found of each other. What's a ferret, who thinks she is a princess, to do? LOL! Very cute read.

Filipa Halliwell says

Uma banda desenhada bastante divertida.

Giovanna says

This book really is just about popularity and how everyone acts like popularity is the only thing in school that matters and i don't understand how the kids get mad at the girl just because she was getting permission and i just hate how all it is about is popularity popularity and popularity and i don't like the ferrets point of view in this book either, the ferret just goes on about a prince, a prince, looking pretty, a prince..... I just don't like this book.....

J.D. Holman says

The art is good, but I swear the ferret has more character maturation than the girl. This wouldn't be interesting in a regular book.
