Shepford Stacey is an unassuming little village, its greatest asset being its small but excellent Church of England Primary School. This delightfully old-fashioned establishment of only two classes, one of infants, the other of juniors, has been run by the same pair of ladies for decades.

It is in the year that the headmistress, Audrey Finch-Matthews, is to retire, that the smooth running of this long-established educational establishment is interrupted by murder.

When Detective Inspector Harry Falconer and Detective Sergeant Davey Carmichael of the Market Darley Police arrive to investigate, they discover a host of motives, both past and present, and grudges that reach right back through the years.

As the Easter weekend grinds inexorably on its way, Death stalks the village again, and it suddenly becomes imperative that the murderer is caught before there are more fatalities.

Falconer soon realises that this is not the work of an opportunistic psychopath passing through, but of someone within the small community itself, taking lives at will, and there is no indication that the slaughter will stop here.

This is a new release of a previously published edition.

Anthony Frazer says

I can't get enough of these Falconer stories! The author's keen observation of real life at an infants school leaps out at you from chapter 1, and her anthropomorphising of a fire is truely original and chilling! There is more humour between the two detectives and we are slowly discovering Falconer's history and background. The murder at the beginning is sudden and unexpected and has a macabre quality and the murderer is truly off their head! A superbly readable page turner and highly recommended.

Karen says

A soon-to-be retired headmistress of a local Church of England school is found gruesomely murdered by the children of the school. There are a lot of people in the little village of Shepherd Stacey who had reason to dislike the headmistress...she had alienated even the woman who worked with her, had belittled former students, accused local business women wrongfully of stealing, and many other infractions. Detective Falconer and Detective Sergeant Carmichael have to wade through all these motives to find out whose is the strongest. In the meantime, Falconer is subjected to more of Carmichael's new family, with hilarious results.

I really enjoy these books, but they are getting a bit predictable. I think I'm going to give them a rest for a while and come back to them later...

Julie says

A small town has a well known school. When the headmistress is killed, Falconer and Carmichael are called in to figure out what's going on. As they begin to investigate, they uncover grudges that go back many years.

Fairly good mystery told with some humor. I laughed out loud while reading.

Susan Hersey says

I didn't enjoy this as much as the previous books but it was good to travel with Harry Falconer and his offsider Carmichael again.

J M says

Really enjoyed this book. have another by this author to read next.

Elizabeth says

I always enjoy myself when I am reading about DI Harry Falconer and his partner DS Davey Carmichael. The mysteries are just complex enough to balance the humor which tickles me.

Michele bookloverforever says

in an English village, revenge is a dish best served well chilled...

Damaskcat says

Once again DI Harry Falconer and DS Davey Carmichael are once again investigating a murder in a village - this time in Shepford Stacey. This is an idyllic village with a well regarded village school with two teachers and two classes. It is the year of the headmistress's retirement but unfortunately someone has decided that she won't live to enjoy her retirement.

Gradually as the investigation progresses Falconer discovers there are a lot of unresolved and smouldering resentments concerning the dead woman and the suspect list grows by the minute. The ending is frightening and far from cosy and I didn't work out who was responsible for the murder before it was revealed.

This is a well written mystery which is well plotted and the characters are interesting and well drawn. Falconer and Carmichael are growing on me - I wasn't sure at first whether I would find them a bit irritating while reading a series in which they are the main characters. They are both developing as people and their relationship is improving. I recommend this series to anyone who likes their crime stories without too much on the page violence.
